最新版的Data-Architect題庫，免費下載Data-Architect考試題庫得到妳想要的Salesforce證書

如何才能快速的通過 Data-Architect 考試呢？下麵給你推薦 Fast2test 考古題，我們的 Salesforce 的 Data-Architect 考試培訓資料是以PDF和軟體格式提供，它包含 Data-Architect 考試的試題及答案，而剛剛上線的 Salesforce Data-

Architect 題庫是考生需要重點把握和瞭解的。也只有在看書和看資料的基礎上認真地做 Salesforce Data-Architect 真題，才能使複習達到事半功倍的效果。

Salesforce 認證數據架構師考試是一項全面的考試，專門為希望展示自己在 Salesforce 中設計、實施和維護複雜數據架構的專業人士設計。此認證非常適合負責管理大量數據並確保其有條理、安全且可由所有相關利益相關者訪問的個人。

最新的 Salesforce Application Architect Data-Architect 免費考試真題 (Q89-Q94):

問題 #89

Universal Containers (UC) maintains a collection of several million Account records that represent business in the United States. As a logistics company, this list is one of the most valuable and important components of UC's business, and the accuracy of shipping addresses is paramount. Recently it has been noticed that too many of the addresses of these businesses are inaccurate, or the businesses don't exist. Which two scalable strategies should UC consider to improve the quality of their Account addresses?

- A. Leverage Data.com Clean to clean up Account address fields with the D&B database.
- B. Build a team of employees that validate Accounts by searching the web and making phone calls.
- C. Integrate with a third-party database or services for address validation and enrichment.
- D. Contact each business on the list and ask them to review and update their address information.

答案: A,C

問題 #90

Universal Containers has a custom object with millions of rows of data.

When executing SOQL queries, which three options prevent a query from being selective? (Choose three.)

- A. Using NOT and != operators.
- B. Using trailing % wildcards.
- C. Using leading % wildcards.
- D. Performing large loads and deletions.
- E. Using a custom index on a deterministic formula field.

答案: A,C,E

問題 #91

To avoid creating duplicate Contacts, a customer frequently uses Data Loader to upsert Contact records into Salesforce. What common error should the data architect be aware of when using upsert?

- A. Errors when a duplicate Contact name is found cause upsert to fail.
- B. Errors with duplicate external Id values within the same CSV file.
- C. Errors with records being updated and inserted in the same CSV file.
- D. Errors with using the wrong external Id will cause the load to fail.

答案: B

解題說明:

Data Loader uses external Id fields to match records in the CSV file with records in Salesforce during an upsert operation. If the CSV file contains duplicate external Id values within the same file, Data Loader will throw an error saying "Duplicate Id Specified" and will not process those records. Therefore, it is important to ensure that the CSV file does not have any duplicate external Id values before using Data Loader to upsert records.

問題 #92

A company has 12 million records, and a nightly integration queries these records.

Which two areas should a Data Architect investigate during troubleshooting if queries are timing out? (Choose two.)

- A. Create custom indexes on the fields used in the filter criteria.

- B. Make sure the query doesn't contain NULL in any filter criteria.
- C. Modify the integration users' profile to have View All Data.
- D. Create a formula field instead of having multiple filter criteria.

答案：A,B

解題說明：

Making sure the query does not contain NULL in any filter criteria can avoid full table scans and leverage indexes more efficiently. Queries with NULL filters are not selective and can cause performance issues.

Creating custom indexes on the fields used in the filter criteria can also enhance the query performance by reducing the number of records to scan.

問題 #93

Universal Containers (UC) has a Salesforce instance with over 10,000 Account records. They have noticed similar, but not identical Account names and addresses. What should UC do to ensure proper data quality?

- A. Enable Account de-duplication by creating matching rules in Salesforce, which will mass merge duplicate Accounts.
- B. Use a service to standardize Account addresses, then use a 3rd-party tool to merge Accounts based on rules.
- C. Make the Account Owner clean their Accounts' addresses, then merge Accounts with the same address.
- D. Run a report, find Accounts whose name starts with the same five characters, then merge those Accounts.

答案：A

解題說明：

Enabling Account de-duplication by creating matching rules in Salesforce, which will mass merge duplicate Accounts, is what UC should do to ensure proper data quality for their Account records. Matching rules allow UC to define how Salesforce identifies duplicate Accounts based on various criteria, such as name, address, phone number, etc. Mass merge allows UC to merge up to 200 duplicate Accounts at a time, based on the matching rules. This simplifies and automates the process of de-duplicating Accounts and improves data quality. The other options are either more time-consuming, costly, or error-prone for ensuring proper data quality.

問題 #94

.....

Fast2test是唯一能供給你們需求的全部的Salesforce Data-Architect 認證考試相關資料的網站。利用Fast2test提供的資料通過Salesforce Data-Architect 認證考試是不成問題的，而且你可以以很高的分數通過考試得到相關認證。

Data-Architect題庫資料：<https://tw.fast2test.com/Data-Architect-premium-file.html>

Salesforce Data-Architect題庫 但是穩固自己的職位並不是那麼容易的，單獨練習，不交流、不分享 很多人之所以感覺練習Data-Architect問題集非常累，而且效果遠低於預期，所以很多IT專業人士通過一些比較難的權威的IT認證考試來穩固自己，而我們Fast2test Data-Architect題庫資料是專門為參加IT認證考試的考生提供便利的，如果你在其他網站也看到了可以提供相關資料，你可以繼續往下看，你會發現其實資料主要來源於Fast2test Data-Architect題庫資料，而且Fast2test Data-Architect題庫資料提供的資料最全面，而且更新得最快，Salesforce Data-Architect題庫 提供最優質的售後服務。

我去找水，太陽落山前回來，大乘境高手的身軀已然化作了壹攤爛肉，自己而被易雲給扔在了地上，但是穩固自己的職位並不是那麼容易的，單獨練習，不交流、不分享 很多人之所以感覺練習Data-Architect問題集非常累，而且效果遠低於預期。
