我們VCESoft確保你第一次嘗試通過考試，取得該認證專家的認證。因為我們VCESoft提供給你配置最優質的類比SAP的C_CPI_2506的考試考古題，將你一步一步帶入考試準備之中，我們VCESoft提供我們的保證，我們VCESoft SAP的C_CPI_2506的考試試題及答案保證你成功。

最新的 SAP Certified Associate C_CPI_2506 免費考試真題 (Q35-Q40):

問題 #35

Which of the following does SAP Graph provide?

- A. Unified cache of SAP-managed business data
- **B. Unified view of SAP-managed business data**
- C. Abstraction of business data for end users

答案: B

解題說明:

SAP Graph provides a unified API layer that offers a business-centric, semantically harmonized view of SAP- managed data across multiple SAP solutions (e.g., S/4HANA, SuccessFactors, Ariba).

It does not cache data; instead, it provides real-time access.

It is not only an abstraction for end users, but specifically designed as a unified view for developers and applications.

Thus, the correct answer is Unified view of SAP-managed business data.

問題 #36

To activate the Event Mesh (EMIS) capability in the SAP Integration Suite, which role collections must be assigned to the user performing the activation?

- **A. Integration_Provisioner and Subaccount Administrator**
- B. Integration_Administrator and Security_Auditor
- C. Process_orchestrator and Subaccount_Viewer
- D. API_Manager and Monitoring-Viewer

答案: A

解題說明:

To activate Event Mesh (EMIS) capability in SAP Integration Suite, the required role collections are:

Integration_Provisioner # Allows provisioning of new capabilities (including Event Mesh) in Integration Suite.

Subaccount Administrator # Grants permission to manage and configure subaccount-level entitlements and service activations.

Other options:

Integration_Administrator, API_Manager, Monitoring_Viewer # Used for operational tasks, not provisioning.

Process_orchestrator # Refers to on-premise PI/PO, not BTP roles.

Security_Auditor # Auditing role, not activation.

Thus, the correct roles are Integration_Provisioner and Subaccount Administrator.

問題 #37

What can you use to prevent overload in an OData request and reply call?

- **A. Paging**
- B. HTTP adapter
- C. Stop parameter
- D. Query filter

答案: A

解題說明:

To prevent overload in an OData request and reply call, you can use paging. Paging is a technique that allows you to retrieve a large number of data sets in smaller chunks or pages. You can use the OData query options \$top and \$skip to specify how many records you want to fetch and how many records you want to skip in each request. This reduces the network load and improves the performance of the OData service. Reference: OData API | SAP Help Portal, SAP Integration Suite: enrich a payload with OData Service | SAP Blogs

問題 #38

Where must you configure an HTTPS inbound adapter with OAuth 2.0 authentication?

- A. In the process runtime
- B. In the SAP Integration Suite
- C. In the adapter
- **D. In the integration flow**

答案： D

解題說明：

An HTTPS inbound adapter is an adapter that allows an integration flow to receive messages from external systems using the HTTPS protocol. OAuth 2.0 authentication is a method of authentication that allows clients to access protected resources on behalf of a resource owner by obtaining an access token from an authorization server. To configure an HTTPS inbound adapter with OAuth 2.0 authentication, you must do it in the integration flow where you define the adapter settings. You can choose OAuth 2.0 as the authentication type and specify the required parameters, such as client ID, client secret, token URL, scope, and so on. You can also configure additional security options, such as SSL certificate, CSRF protection, and CORS policy. 問題 #39

Where can you find more information about APIs, policies, and integrations?

- A. Cloud Integration capability within SAP Integration Suite
- B. Open Connectors capability within SAP Integration Suite
- **C. SAP Business Accelerator Hub**

答案： C

解題說明：

You can find more information about APIs, policies, and integrations in the SAP Business Accelerator Hub. The SAP Business Accelerator Hub is a central place where you can discover, explore, and consume pre-built integrations, APIs, and best practices for various business scenarios and industries. Reference: Integration Software | SAP Integration Suite, Modernize Integration with SAP Integration Suite | openSAP

問題 #40

.....
