Advanced-Administrator exam is designed to test the candidate's ability to configure and maintain Salesforce to meet the unique needs of their organization. It also tests their ability to optimize Salesforce to improve productivity and efficiency.

To be eligible to take the Salesforce Advanced-Administrator Exam, candidates must have a minimum of two years of experience working with Salesforce. They should also have completed the Salesforce Administrator certification, which is a prerequisite for the Advanced-Administrator certification. Advanced-Administrator exam consists of 60 multiple-choice questions that must be completed within 105 minutes. Advanced-Administrator exam is also proctored and can be taken either online or in-person.

Salesforce Certified Advanced Administrator Sample Questions (Q18-Q23):

NEW QUESTION # 18
The administrator at Cloud Kicks is evaluating the capabilities of Schema Builder to create custom objects and custom fields. The administrator likes the user interface of the Schema Builder, as opposed to the new object and field wizards, but also notices some limitations.
What needs to be configured from the object manager instead of Schema Builder?

- A. Allow Reports and Activities
- B. Enable field history tracking
- C. Add custom fields to the page layout.
- D. Make available for Customer Postal.

Answer: B

Explanation:
Field history tracking is a feature that allows you to monitor changes to certain fields on an object and display them in a history related list. Field history tracking can help you audit data quality, compliance, or business processes. Field history tracking cannot be configured from Schema Builder, but it can be configured from Object Manager. In Object Manager, you can select an object and enable field history tracking from its settings page. Then, you can choose up to 20 fields per object to track and add the history related list to the page layout.
