NEW QUESTION # 44
What does a business process define?

- A. The sequence of activities to achieve an intended result
- B. The company's strategy
- C. The internal activities to produce a product or service
- D. End-to-end interaction points with all stakeholders

Answer: A

Explanation:
A business process is defined as a structured set of activities designed to produce a specific output or result for a customer or market. It involves inputs, tasks, decision points, and outputs.
"A business process is a set of logically related tasks performed to achieve a defined business outcome. It involves a defined start and end point, inputs, steps, and outputs."
- ABPMP CBOK, Chapter 1 - BPM Overview
While business processes may include stakeholder interactions (Option C) and internal activities (Option D), the most accurate and complete definition is the sequence of activities aimed at a result.
