

GES-C01考古題分享，GES-C01新版題庫上線

BONUS!!! 免費下載TestpdfGES-C01考試題庫的完整版: <https://drive.google.com/open?id=1KtuDvZTFgAqGPumaVgaYqxYPm9allVha>

Testpdf是個為Snowflake GES-C01 認證考試提供短期的有效培訓的網站，但是Testpdf能保證你的Snowflake GES-C01 認證考試及格。如果你不及格，我們會全額退款。在你選擇購買Testpdf的產品之前，你可以在Testpdf的網站上免費下載我們提供的部分關於Snowflake GES-C01認證考試的練習題及答案作為嘗試，那樣你會更有信心選擇Testpdf的產品來準備你的Snowflake GES-C01 認證考試。

長久以來，Snowflake 就是電腦的代名詞。無論在美國國內還是在世界的電腦領域裏，Snowflake 都有著極其深遠的影響。而 GES-C01 考試是 Snowflake 公司的 SnowPro® Specialty: Gen AI Certification Exam 證照考試官方代號，也是現在最熱門的證照考試，含金量很高。而獲得 Snowflake 的 GES-C01 證照不僅僅能證明您的IT技術能力，更是您進入職場的敲門磚，也是提高您身價的另一捷徑。

GES-C01新版題庫上線 - GES-C01通過考試

患難可以試驗一個人的品格，非常的境遇方才可以顯出非常的氣節；風平浪靜的海面，所有的船隻都可以並驅競勝。命運的鐵拳擊中要害的時候，只有大勇大智的人才能夠處之泰然。你是大智大勇的人嗎？如果你的IT認證考試沒有做好考前準備，你還處之泰然嗎？當然，因為你有 TestpdfSnowflake的GES-C01考試培訓資料在手上，任何考試困難都不會將你打到。

最新的 Snowflake Certification GES-C01 免費考試真題 (Q87-Q92):

問題 #87

A data engineer is establishing a new Snowflake environment to support Document AI for processing incoming vendor invoices. They are setting up the necessary virtual warehouse, database, schema, and stages. Which of the following statements correctly identify essential considerations or requirements for this initial setup?

- A. A dedicated, smaller warehouse (e.g., 'X-SMALL', 'SMALL', or 'MEDIUM') should be created for Document AI to facilitate precise cost tracking, as scaling up warehouse size does not enhance Document AI query performance.

- B. All documents intended for a single Document AI 'PREDICT' operation must be stored within the same logical directory of the specified stage.
- C. Snowflake recommends using a large virtual warehouse, such as an 'L' or 'XL' size, to accommodate the intensive processing demands of Document AI and ensure high throughput.
- D. The database and schema where Document AI model builds are created can be freely altered after creation, allowing for agile schema evolution.
- E. Any internal stages used for storing documents that will be processed by Document AI must explicitly enable SNOWFLAKE_SSE encryption.

答案: A,B,E

解題說明:

Option A is incorrect because scaling up the warehouse size does not increase the speed of query processing for Document AI, but rather increases costs. Snowflake recommends X-Small, Small, or Medium warehouses. Option B is correct as creating a separate, smaller warehouse is recommended for cost tracking for Document AI workloads. Option C is correct as internal stages for Document AI must use server-side encryption (SNOWFLAKE_SSE). Option D is incorrect because Document AI does not support altering a database or schema where the model build is located. Option E is correct as all documents for an operation must be in the same stage directory.

問題 #88

An operations manager is tasked with monitoring the cost and ensuring compliance for a Cortex Analyst deployment that uses the REST API. They are particularly concerned with accurately tracking credit consumption and understanding the implications of enabling external models. Which of the following statements correctly describe aspects of Cortex Analyst cost and governance?

- A. Cortex Analyst credit usage is based on the number of messages processed, at a rate of 67 Credits per 1,000 messages, and only successful responses (HTTP 200) are counted.
- B. Enabling Azure OpenAI models via the 'ENABLE_CORTEX_ANALYST_MODEL_AZURE_OPENAI' parameter ensures that all customer data and prompts remain within Snowflake's governance boundary and fully respect RBAC policies for those models.
- C. Snowflake's view provides granular usage information for REST API requests to Cortex Analyst, including tokens processed per model.
- D. The view can be queried to track detailed information about Cortex Analyst requests, including generated SQL and any errors.
- E. Credit consumption for Cortex Analyst is primarily based on the number of tokens processed by the underlying LLMs, with more complex natural language questions leading to higher token usage and costs.

答案: A

解題說明:

□

問題 #89

A global enterprise has Snowflake accounts in various regions, including a US East (Ohio) account where a critical application is deployed. They need to use AI_COMPLETE with the claude-3-5-sonnet model for real-time customer support, but this model is not natively available in US East (Ohio) for direct AI_COMPLETE usage. The Snowflake administrator considers enabling cross-region inference. Which statements accurately reflect the considerations and characteristics of cross-region inference in Snowflake Cortex?

□

- A. Option E
- B. Option C
- C. Option D
- D. Option B
- E. Option A

答案: B,D

解題說明:

Option B is correct because setting the parameter to 'ANY_REGION' enables inference requests to be CORTX_ENABLED_CROSS_REGION processed in a different region from the default, thereby allowing access to models not natively supported in the local region. For example, claude-3-5-sonnet is available in AWS US East 1 (N. Virginia), which could

be accessed from US East (Ohio) via cross-region inference. Option C is 3-5 -sonnet correct as cross-region inference is explicitly not supported in U.S. SnowGov regions for either inbound or outbound inference requests. Option A is incorrect because user inputs, service generated prompts, and outputs are not stored or cached during cross-region inference. Option D is incorrect; latency depends on the cloud provider infrastructure and network status, and testing is recommended. Option E is incorrect because CORTEX_ENABLED_CROSS_REGION is an account-level parameter, not a session parameter.

問題 #90

A financial institution uses Snowflake Cortex Analyst with strict role-based access control (RBAC) on their Snowflake-hosted LLMs. The security team has granted specific 'CORTEX-MODEL-ROLE application roles to different analyst teams, ensuring they only access approved models. A new requirement arises to enable Azure OpenAI GPT models for Cortex Analyst to leverage a specific feature. An administrator proceeds to execute:

Which of the following statements accurately describe the implications of this change?

- A. Option E
- B. Option C
- C. Option D
- D. Option B
- E. Option A

答案: B,D

解題說明:

Option B is correct because when 'ENABLE CORTEX_ANALYST is , Cortex Analyst can use Azure OpenAI models, but this setting is incompatible with model-level RBAC, meaning RBAC is not available for any models used by Cortex Analyst when this parameter is enabled. Option C is correct because if Azure OpenAI models are opted in for Cortex Analyst, semantic model files (metadata) and user prompts will be processed by Microsoft Azure, a third party, thus transmitting them outside Snowflake's governance boundary. Customer data itself is not shared with Azure. Option A is incorrect because the parameter is incompatible with model-level RBAC for models used by Cortex Analyst. Option D is incorrect as the parameter specifically controls the use of Azure OpenAI models within Cortex Analyst. Option E is incorrect because this parameter can only be set by the 'ACCOUNTADMIN' role.

問題 #91

A Gen AI Specialist is responsible for maintaining a Cortex Analyst-powered application. They have defined a semantic model that includes a Verified Query Repository (VQR) to guide user interactions. The application front-end uses the Suggested Questions feature to help users get started. The specialist wants to ensure that a specific set of critical, verified business questions are always displayed to users, regardless of their prior input or the semantic similarity to their current query. Which of the following configuration steps in the semantic model YAML will achieve this requirement?

- A. ☐
- B. ☐
- C. ☐
- D. ☐
- E. ☒

答案: E

解題說明:

問題 #92

.....

每個需要通過GES-C01考試認證的考生都知道，這次的認證關係著他們人生的重大轉變，我們Testpdf提供的考試認證培訓資料是用超低的價格和高品質的擬真試題和答案來奉獻給廣大考生，我們的產品還具備成本效益，並提供了一年的免費更新期，我們認證培訓資料都是現成的。我們網站是答案轉儲的領先供應商，我們有你們需要的最新最準確的考試認證培訓資料，也就是答案和考題。

GES-C01新版題庫上線: <https://www.testpdf.net/GES-C01.html>

Snowflake GES-C01考古題分享 只要您堅定地踏出第一步，後面的九十九步我們都會為您走好，因此，Testpdf GES-C01新版題庫上線可以給大家提供更多的優秀的參考書，以滿足大家的需要，SnowPro® Specialty: Gen AI Certification Exam通過GES-C01考試的方法，和大家一起分享 Tags: GES-C01學習指南, GES-C01教材, GES-C01資料參考, GES-C01題庫 Testpdf保證了 GES-C01考古題的品質，百分之百通過考試，讓你能通過考試，成功地在你的第一個學習，Snowflake GES-C01考古題分享 你可以選擇花大量的時間和精力來鞏固考試相關知識，也可以選擇一些有效的培訓課程，這些IT團隊成員都是來自指定認證專家、培訓師和 Snowflake 相關工作從業者，他們對 GES-C01考試內容和 Snowflake Certification 認證要求的資歷瞭如指掌，這樣可以確保 GES-C01題庫的高質量。

值得信賴的Snowflake GES-C01: SnowPro® Specialty: Gen AI Certification
