Valid MCD-Level-1 Exam Labs | MCD-Level-1 Test Lab Questions

The MCD-Level-1 examination time is approaching. Faced with a lot of learning content, you may be confused and do not know where to start. MCD-Level-1 test preps simplify the complex concepts and add examples, simulations, and diagrams to explain anything that may be difficult to understand. You can more easily master and simplify important test sites with MCD-Level-1 learn torrent. In addition, please be assured that we will stand firmly by every warrior who will pass the exam.

MuleSoft Certified Developer - Level 1 (Mule 4) Sample Questions (Q39-Q44):

NEW QUESTION # 39

A Mule project contains a DataWeave module like WebStore.dwl that defines a function named loginUser.

The module file is located in the project's src/main/resources/libs/etl folder.

What is correct DataWeave code to import all of the WebStore.dwl file's functions and then call the loginUser function for the login 'Todd.Pal@mulesoft.com'?

- A. 1. import libs.etl
2. ---
3. WebStore.loginUser("Todd.Pal@mulesoft.com")
- B. 1. import * from libs:etl:WebStore
2. ---
3. loginUser("Todd.Pal@mulesoft.com")
- C. 1. import * from libs:etl
2. ---
3. WebStore::loginUser("Todd.Pal@mulesoft.com")
- D. 1. import libs.etl.WebStore

2. 2. ---
3. 3. loginUser("Todd.Pal@mulesoft.com")

Answer: B

Explanation:

* To use custom modules, you need to import the module or functions you want to use by adding the import directive to the head of your DataWeave script, for example:

1) Does not identify any functions to import from the String module:

```
import dw::core::Strings
```

2) To identify a specific function to import from the String module:

```
import camelize, capitalize from dw::core::Strings
```

3) To import all functions from the String module:

```
import * from dw::core::Strings
```

The way you import a module impacts the way you need to call its functions from a DataWeave script. If the directive does not list specific functions to import or use * from to import all functions from a function module, you need to specify the module when you call the function from your script.

* In given scenario, it's mentioned to import all of the WebStore.dwl

So correct answer is:

NEW QUESTION # 40

Refer to the exhibits.

The input array of strings is processed by the batch job that processes, filters, and aggregates the values.

What is the last message logged by the Logger component after the batch job completes processing?

A)

B)

C)

D)

- A. Option D
- B. Option A
- C. Option B
- **D. Option C**

Answer: D

NEW QUESTION # 41

To avoid hard-coding values, a flow uses some property placeholders and the corresponding values are stored in a configuration file.

Where does the configuration file's location need to be specified in the Mule application?

- **A. A global element**
- B. The pom.xml file
- C. The mule-artifact.json file
- D. a flow attribute

Answer: A

Explanation:

Correct answer is A global element

When we create a configuration file, that file needs to be added as Global Configuration file in Global element. A global element is a reusable object containing parameters that any number of elements in a flow can share. You reference a global element from Anypoint Connectors or components in your Mule application.

NEW QUESTION # 42

To avoid hard-coding values, a flow uses some property placeholders and the corresponding values are stored in a configuration file.

Where does the configuration file's location need to be specified in the Mule application?

- A. A global element
- B. The pom.xml file
- C. The mule-artifact.json file
- D. a flow attribute

Answer: A

NEW QUESTION # 43

Refer to the exhibit.

What data is expected by the POST /accounts endpoint?

- A)
- B)
- C)
- D)

- A. Option A
- B. Option D
- C. Option C
- D. Option B

Answer: B

NEW QUESTION # 44

.....

Maybe life is too dull; people are willing to pursue some fresh things. If you are tired of the comfortable life, come to learn our MCD-Level-1 exam guide. Learning will enrich your life and change your views about the whole world. Also, lifelong learning is significant in modern society. Perhaps one day you will become a creative person through your constant learning of our MCD-Level-1 Study Materials. And with our MCD-Level-1 practice engine, your dream will come true.
