The PL-200 Study Materials can provide them with efficient and convenient learning platform so that they can get the certification as soon as possible in the shortest possible time.

Microsoft Power Platform Functional Consultant Sample Questions (Q105-Q110):

NEW QUESTION # 105

A company is building a Power Virtual Agents chatbot.

Users in the accounting department require access to collaborate with the building of the bot. Users in the sales department require access to only chat with the bot.

You need to configure the bot.

Which sharing options should you use? To answer, drag the appropriate sharing options to the correct requirements. Each sharing option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

The screenshot shows a drag-and-drop interface for configuring sharing options. On the left, under 'Sharing options', there are three items: 'Users', 'Active Directory security groups', and 'Everyone in the organization'. In the center, under 'Requirement', there are two items: 'Users in the accounting department' and 'Users in the sales department'. On the right, under 'Sharing option', there are two empty text boxes. The Microsoft logo is visible in the background.

Answer:

Explanation:

The screenshot shows the same interface as above, but with the correct selections highlighted. In the 'Sharing options' pane, 'Active Directory security groups' and 'Everyone in the organization' are highlighted with green boxes. In the 'Sharing option' pane, 'Active Directory security groups' is highlighted with a red box and 'Users' is highlighted with a blue box.

NEW QUESTION # 106

A company has locations in the United States, Brazil, India, and Japan. The company conducts financial transactions in all of these regions.

Financial transactions in Brazil are going to stop, but the office will remain open.

Users must no longer be able to create records associated with the Brazilian currency. Historical records must remain intact. You need to configure Microsoft Dataverse to meet the requirement. What should you do?

- A. Rename the Brazilian currency.
- **B. Deactivate the Brazilian currency record.**
- C. Delete the Brazilian currency record.
- D. Disable the Brazilian language pack.

Answer: B

Explanation:

Explanation

You can't delete currencies that are in use by other records; you can only deactivate them. Deactivating currency records doesn't remove the currency information stored in existing records, such as opportunities or orders. However, you won't be able to select the deactivated currency for new transactions.

NEW QUESTION # 107

The app needs to store temporary data.

* Each screen must maintain a separate copy of data and pass the data to another screen.

* The app must be able to update separate rows of a table independently.

You need to configure variables for the data.

Which variable types should you use? To answer, drag the appropriate variable types to the correct requirements. Each variable type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

The screenshot shows a drag-and-drop interface for configuring variable types. On the left, under 'Variable types', there are three items: 'Collection', 'Global variable', and 'Context variable'. In the center, under 'Requirement', there are two items: 'Screens maintain separate data and pass the data to another screen.' and 'Update separate rows of a table'. On the right, under 'Variable type', there are two empty text boxes. The Microsoft logo is visible in the background.

Answer:

Explanation:

Explanation

Graphical user interface, text, application Description automatically generated with medium confidence

NEW QUESTION # 108

You create a canvas app for a sales team. The app has an embedded Power BI tile that shows year-to-date sales. Sales users do not have access to the data source that the tile uses.

Sales team users must be able to see data in the Power BI tile. You must minimize the level of permissions that you grant and minimize administrative overhead.

You need to share another Power BI component to make the data visible.

What should you share?

- A. The Power BI workspace that includes the tile.
- **B. The Power BI dashboard that includes the tile.**
- C. The Power BI dataset the tile uses as a data source.

Answer: B

Explanation:

Explanation

Once shared, the PowerApps app will be accessible by all users who have permissions to access the app.

However, in order to make the Power BI content visible to those users, the dashboard where the tile comes from needs to be shared with the user on Power BI. This ensures that Power BI sharing permissions are respected when Power BI content is accessed in an app.

NEW QUESTION # 109

You are a system administrator for a company with locations in Mexico, United States, and France. The company has both fulltime employees and contractors in all regions. Fulltime employees use a mobile app. The company has two security groups: fulltime employees and contractors.

The company requests a chatbot in Microsoft Teams to answer employee benefit questions. The chatbot must meet the following requirements:

* It must be in the local language.

* Only fulltime employees may access the chatbot.

You need to configure the chatbot.

Which action should you perform? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

The screenshot shows the Microsoft Configuration console interface. It features a 'Requirement' table with two rows: 'Chatbot in local language' and 'Employee access'. Each row has a dropdown menu with several options. The option 'Create one chatbot that manages all three languages.' is highlighted in blue in both dropdowns. A red box highlights this option in the first dropdown, and another red box highlights 'Publish the chatbot in Teams.' in the second dropdown. The Microsoft logo and 'Configuration' text are visible at the top right of the interface.

NEW QUESTION # 110
