#### NEW QUESTION # 14

In order to map custom fields from Microsoft Project to ServiceNow when importing a project, you must first:

- A. Import your project
- B. Create custom fields in your ServiceNow instance
- C. Export the project to XML format
- D. Configure the Project form

Answer: B

Explanation:

In order to map custom fields from Microsoft Project to ServiceNow when importing a project, you must first create custom fields in your ServiceNow instance that match the names and data types of the custom fields in Microsoft Project. This will allow you to map the custom fields using a transform map when importing the project. You can find more information about this process in the Product Documentation for ServiceNow.

#### NEW QUESTION # 15

Is resource capacity derived from FTE or schedules?

- A. Only Schedules.

- B. Only FTE.
- C. Both.
- D. Neither.

**Answer: A**

Explanation:

Explanation

Resource capacity is the total number of hours that a resource or a group of resources is available for work in a given time period. According to the Product Documentation for ServiceNow, resource capacity is derived from the user or group schedule, which defines the working hours and days for each resource. The group capacity is rolled up from the schedules of all the members. Note: Capacity is not derived from FTE, but from schedules. Both FTE and schedules must be in synchronization with each other. FTE is a measure of how much work a resource can perform in a standard work week, and it is used to calculate the resource demand and allocation.

### NEW QUESTION # 16

What does the project status report allow project managers to do?

Choose 2 answers

- A. View the project Gantt chart
- **B. Print as a PDF attachment**
- **C. Show historical trend of project KPI's**
- D. View the WBS

**Answer: B,C**

Explanation:

Explanation

The project status report allows project managers to do the following:

Show historical trend of project KPI's: The project status report displays the key performance indicators (KPIs) of the project, such as schedule variance, cost variance, and earned value. It also shows the historical trend of these KPIs over time, which helps project managers monitor the progress and performance of the project. You can find more information about the project status report KPIs in the Product Documentation for ServiceNow.

Print as a PDF attachment: The project status report can be printed as a PDF attachment and sent to the stakeholders or sponsors of the project. This helps project managers communicate the status and health of the project in a clear and concise format. You can find more information about the project status report PDF attachment in the Product Documentation for ServiceNow.
