The optimization of C_SEC_2405 training questions is very much in need of your opinion. If you find any problems during use, you can give us feedback. We will give you some benefits as a thank you. You will get a chance to update the system of C_SEC_2405 Real Exam for free. Of course, we really hope that you can make some good suggestions after using our C_SEC_2405 study materials. We hope to grow with you and help you get more success in your life.

SAP C_SEC_2405 Exam Syllabus Topics:

Topic	Details
Topic 1	Infrastructure Security and Authentication: This section of the exam measures the skills of SAP IT Professionals and covers infrastructure security measures and authentication methods used in SAP environments. It emphasizes protecting systems from unauthorized access and ensuring secure user authentication.
Topic 2	Governance, Compliance, and Cybersecurity: This section of the exam measures the skills of compliance officers and covers the principles of governance, compliance, and cybersecurity of SAP systems. It includes understanding regulatory requirements and best practices for maintaining security. A critical skill evaluated is ensuring organizational compliance with relevant laws and policies.
Topic 3	Public Cloud User and Role Management: This section of the exam measures the skills of SAP IT cloud Professionals and covers managing users and roles in public cloud environments for SAP applications.
Topic 4	User Administration: This section of the exam measures the skills of SAP Administrators and covers user administration tasks within SAP systems. It includes managing user accounts, roles, and profiles efficiently. A critical skill evaluated is maintaining accurate user records to support security and compliance efforts.

C_SEC_2405 Latest Exam Duration | Valid C_SEC_2405 Exam Topics

With the popularization of wireless network, those who are about to take part in the C_SEC_2405 exam guide to use APP on the mobile devices as their learning tool, because as long as entering into an online environment, they can instantly open the learning material from their appliances. Our C_SEC_2405 study materials provide such version for you. The online test engine is a kind of online learning, you can enjoy the advantages of APP version of our C_SEC_2405 Exam Guide freely. And you can have free access to our C_SEC_2405 exam questions in the offline condition if you don't clear cache.

SAP Certified Associate - Security Administrator Sample Questions (Q45-Q50):

NEW QUESTION # 45

Which levels of security protection are provided by Secure Network Communication (SNC)? Note:
There are 3 correct answers to this question.

- A. Authentication
- B. Authorization
- C. Integrity
- D. Availability
- E. Privacy

Answer: A,C,E

NEW QUESTION # 46

In the administration console of the Cloud Identity Services, for which system type can you define both read and write transformations?

- A. Proxy systems
- B. Target systems
- C. Source systems

Answer: B

NEW QUESTION # 47

Which archiving objects are relevant for archiving change documents for user master records? Note:
There are 2 correct answers to this question.

- A. US_USER
- B. US_AUTH
- C. US_PASS
- D. US_PROF

Answer: A,B

NEW QUESTION # 48

Which access categories are available to maintain restrictions in SAP S/4HANA Cloud Public Edition? Note:
There are 3 correct answers to this question.

- A. Write, Read, Value Help (write access)
- B. Write, Read (write access)
- C. Read, Value Help (read access)
- D. Read (read access)
- E. Value Help (value help access)

Answer: A,C,E

Explanation:

In SAP S/4HANA Cloud Public Edition, access restrictions are maintained using specific access categories to control user permissions granularly. The available categories include "Read, Value Help (read access)," which allows users to view data and access value help functionalities; "Value Help (value help access)," which restricts access to only value help features; and "Write, Read, Value Help (write access)," which grants permissions for creating, modifying, reading, and using value help. These categories enable precise control over user access to data and functionalities, ensuring compliance with security policies. The options "Read (read access)" and "Write, Read (write access)" are not standard access categories in this context, as they do not fully align with the system's predefined restriction types.

NEW QUESTION # 49

After you maintained authorization object S_TABU_DIS and ACTVT field value 02 as authorization defaults for transaction SM30 in your development system, what would be the correct option for transporting only these changes to your quality assurance system?

- A. Save your changes and use the transport interface in SU25 to transport the changes using the Transport Management System.
- B. Save your changes to a Customizing transport request and transport using the Transport Management System.
- C. Save tables USOBT_C and USOBX_C to a transport request and transport using the Transport Management System.
- **D. Save your changes to a Workbench transport request and transport using the Transport Management System.**

Answer: D

Explanation:

To transport changes to the authorization object S_TABU_DIS with ACTVT field value 02 for transaction SM30 from the development system to the quality assurance system, the correct approach is to save the changes to a Workbench transport request and transport them using the Transport Management System (TMS). These changes, maintained in transaction SU24, affect authorization defaults stored in tables like USOBT_C and USOBX_C, which are classified as Workbench objects because they involve system-wide configuration rather than client-specific settings. A Workbench transport request is used for cross-client objects, ensuring that the authorization defaults are consistently applied in the target system. SU25's transport interface (option A) is for initial setup or upgrades, not specific authorization changes. A Customizing transport request (option C) is for client-specific settings, not applicable here. Saving tables directly (option D) is unnecessary, as SU24 handles the transport. This method ensures secure and efficient propagation of authorization changes across SAP systems.

NEW QUESTION # 50

.....

Almost those who work in the IT industry know that it is very difficult to prepare for C_SEC_2405. Although our ExamsTorrent cannot reduce the difficulty of C_SEC_2405 exam, what we can do is to help you reduce the difficulty of the exam preparation. Once you have tried our technical team carefully prepared for you after the test, you will not fear to C_SEC_2405 Exam. What we have done is to make you more confident in C_SEC_2405 exam.
