## Free PDF Quiz SAP - C-S4CPB-2508 - Useful New SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Learning Materials

With pass rate reaching 96%, our C-S4CPB-2508 exam materials have gained popularity in the market, and many candidates choose us for this reason. We can help you pass the exam just one time. What's more, C-S4CPB-2508 exam materials are high quality, and you can improve your efficiency by using them. You can receive your downloading link and password within ten minutes after payment, so that you can start your learning by using C-S4CPB-2508 Exam Dumps. Free update for one year is available, and our system will send the latest version to your email automatically, you just need to check your email for the latest version.

**SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud**

## Public Edition Sample Questions (Q35-Q40):

### NEW QUESTION # 35

What provides a foundation for the SAP Cloud ERP where integrations and extensions live?

- A. SAP Business Accelerator Hub
- **B. SAP Business Technology Platform**
- C. SAP Discovery Center
- D. SAP ABAP Environment

**Answer: B**

Explanation:

SAP Business Technology Platform (BTP) provides a foundation for the SAP Cloud ERP where integrations and extensions live. SAP BTP is a cloud-based platform that offers a range of services and capabilities to extend, integrate, and orchestrate SAP and non-SAP applications. SAP BTP enables customers and partners to build extensions that are decoupled from the core SAP S/4HANA Cloud system, ensuring lifecycle stability and avoiding modification of SAP code. SAP BTP also leverages the huge library of free integration packages and extension templates available on the SAP Business Accelerator Hub, which can be consumed and customized according to the customer's needs. All services are listed in the SAP Discovery Center, where customers can explore, try, and buy SAP BTP services.

SAP ABAP Environment, SAP Discovery Center, and SAP Business Accelerator Hub are not the foundation for the SAP Cloud ERP, but rather components or tools that are related to SAP BTP. SAP ABAP Environment is a service on SAP BTP that allows customers and partners to develop and run ABAP code in the cloud. SAP Discovery Center is a portal that showcases the available services and solutions on SAP BTP and guides customers through the end-to-end journey of discovering, trying, buying, and implementing them.

SAP Business Accelerator Hub is a repository of ready-to-use integration packages and extension templates that can be deployed on SAP BTP to accelerate the implementation of SAP S/4HANA Cloud. ### NEW QUESTION # 36

Which of the following are examples of indirect digital access? Note: There are 2 correct answers to this question.

- A. A Production Order created through a non-SAP front-end
- **B. A Time Sheet Record from a 3rd party application**
- **C. A Defect document created through an industry application**
- D. An unattended bot in SAP Build Process Automation

**Answer: B,C**

Explanation:

Indirect digital access occurs when humans, devices, or systems use the digital core indirectly through non-SAP intermediary software, such as a non-SAP front end, a custom-solution, or any other non-SAP application<sup>1</sup>. Indirect digital access is measured by the number of documents created, updated, or deleted in the SAP system as a result of the indirect use<sup>2</sup>. Examples of indirect digital access include:

\* A Defect document created through an industry application: This is an example of indirect digital access because the industry application is a non-SAP software that triggers the creation of a document in the SAP system.

\* A Time Sheet Record from a 3rd party application: This is also an example of indirect digital access because the 3rd party application is a non-SAP software that triggers the creation of a document in the SAP system.

\* An unattended bot in SAP Build Process Automation: This is not an example of indirect digital access because the bot is using SAP software to access the SAP system directly, not through a non-SAP intermediary software.

\* A Production Order created through a non-SAP front-end: This is not an example of indirect digital access because the production order is not a document type that is counted for indirect digital access. The document types that are counted are: Sales Order, Invoice, Purchase Order, Service and Maintenance Document, Manufacturing Document, Quality Management Document, Time Sheet, Financial Document, and Material Document<sup>2</sup>. References = Digital Access | SAP Help Portal, SAP Digital Access / SAP Digital Access Adoption Program (DAAP) Extension through December 31, 2021

### NEW QUESTION # 37

Which activities does the consultant do before the first Fit-to-Standard workshop? Note: There are 2 correct answers to this question.

- A. Upload customer master data in the Starter system using migration templates.
- **B. Review the integration requirements collected from the Digital Discovery Assessment.**
- C. Evaluate the L2 Business-Driven Configuration Questionnaire responses.
- **D. Deactivate scope items that are NOT part of the Statement of Work/Digital Discovery Assessment.**

**Answer: B,D**

Explanation:

Before the first Fit-to-Standard workshop, the consultant should do the following activities:

\* Deactivate scope items that are NOT part of the Statement of Work/Digital Discovery Assessment. This is to ensure that the Starter system reflects the agreed scope of the project and does not include any unnecessary or out-of-scope items. The consultant can use the Scope Item Management app to deactivate scope items<sup>1</sup>.

\* Review the integration requirements collected from the Digital Discovery Assessment. This is to understand the customer's integration needs and prepare for the integration topics that will be discussed in the Fit-to-Standard workshop. The consultant can use the Integration Solution Advisor tool to review the integration requirements and the recommended integration scenarios<sup>2</sup>.

The consultant should NOT do the following activities before the first Fit-to-Standard workshop:

\* Upload customer master data in the Starter system using migration templates. This is not required before the first Fit-to-Standard workshop, as the customer master data is not relevant for the process validation. The consultant should upload the customer master data in the Quality system after the Fit-to-Standard workshop, using the SAP S/4HANA Migration Cockpit<sup>3</sup>.

\* Evaluate the L2 Business-Driven Configuration Questionnaire responses. This is not required before the first Fit-to-Standard workshop, as the L2 Business-Driven Configuration Questionnaire is not available at this stage. The consultant should evaluate the L2 Business-Driven Configuration Questionnaire responses after the Fit-to-Standard workshop, using the SAP Activate Methodology.

### NEW QUESTION # 38

What must you create when you build an integration scenario using the SAP Fiori Communication Management apps in SAP S/4HANA Cloud Public Edition? Note: There are 2 correct answers to this question.

- A. Communication interface
- **B. Communication system**
- **C. Communication arrangement**
- D. Communication API

**Answer: B,C**

Explanation:

When you build an integration scenario using the SAP Fiori Communication Management apps in SAP S/4HANA Cloud Public Edition, you must create a communication system and a communication arrangement.

A communication system represents the communication partner within a communication, such as the system that calls or provides services. A communication arrangement defines the settings for a specific communication scenario, such as the authentication method, the communication user, and the service URL.

You can use the Communication Systems app and the Communication Arrangements app to create and manage these objects in the SAP Fiori launchpad. ### NEW QUESTION # 39

Which of the following is SAP's recommended Human Capital Management system (HCCM)?

- A. SAP Concur
- B. SAP Ariba

- C. SAP Fieldglass
- D. SAP SuccessFactors

**Answer: D**
