

CLT-4.0 questions and answers

For this task, you need to update MSSC CLT-4.0 preparation material to get success. If applicants fail to find reliable material, they fail the MSSC CLT-4.0 examination. Failure leads to loss of money and time. You just need to rely on ValidExam to avoid these losses. ValidExam has launched three formats of real MSSC CLT-4.0 Exam Dumps.

Some people are not good at operating computers. So you might worry about that the CLT-4.0 certification materials are not suitable for you. Try to believe us. Our experts have taken your worries seriously. They have made it easy to operate for all people. Even if you know little about computers, you can easily begin to do exercises of the CLT-4.0 real exam dumps. Also, we have invited for many volunteers to try our study materials. The results show our products are suitable for them. In addition, the system of our CLT-4.0 test training is powerful. You will never come across system crashes. The system we design has strong compatibility. High speed running completely has no problem at all.

MSSC CLT-4.0 Latest Real Exam - CLT-4.0 Clearer Explanation

As long as what you are looking for is high quality and accuracy practice materials, then our CLT-4.0 training guide is your indispensable choices. We are sufficiently definite of the accuracy and authority of our CLT-4.0 practice materials. So lousy materials will lead you end up in failure. They cannot be trusted unlike our CLT-4.0 Study Materials. Come together and our materials will serve as a doable way to strengthen your ability to solve questions on your way to success.

MSSC Certified Logistics Technician (CLT) 4.0 Sample Questions (Q26-Q31):

NEW QUESTION # 26

Which of the following is typically seen in home centers and warehouses that handle and store materials such as lumber, steel sheets and rods, and other relatively long unusually large items?

- A. cantilever racks
- B. push-back racks
- C. mobile sliding racks
- D. drive-in and drive-through racks

Answer: A

Explanation:

Cantilever racks are open-sided storage systems designed for long or bulky items such as lumber, pipes, or steel bars. The CLT "Product Storage Systems" module describes cantilever racks as having arms extending from vertical columns, allowing easy side-loading by forklift. They provide unobstructed front access, making them ideal for materials that vary in length or shape. Drive-in or push-back racks accommodate palletized goods, not elongated materials. Cantilever racks improve space utilization for oversized items and minimize damage by eliminating front uprights. Proper training in load distribution and weight capacity is essential to ensure safe operation. These racks exemplify specialized storage solutions taught in CLT training for managing nonstandard materials.

NEW QUESTION # 27

A container is 4 feet high, 5 feet wide, and 9 feet deep. What is the volume of the container?

- A. 45 cubic feet
- B. 18 cubic feet
- C. 180 cubic feet
- D. 360 cubic feet

Answer: C

Explanation:

The formula for volume in logistics is:

Length × Width × Height.

So, $4 \text{ ft} \times 5 \text{ ft} \times 9 \text{ ft} = 180 \text{ cubic feet}$.

According to CLT 4.0, understanding cubic measurements is essential for calculating cube utilization, storage optimization, and container or trailer load planning. Volume determines how efficiently space is used in warehouses or transport vehicles. By knowing total cubic capacity, technicians can calculate how many items fit per load, ensuring balanced weight distribution and optimal equipment use. Accurate volume computation reduces wasted space and prevents under- or over-utilization of assets, supporting lean logistics operations. This skill also helps when converting cubic feet to cubic meters for international shipments or calculating freight costs based on dimensional weight.

NEW QUESTION # 28

Which document specifies the product to be shipped from the warehouse?

- A. Shipping Order
- B. Carrier Freight Bill
- C. Delivery Receipt
- D. Bill of Lading

Answer: A

Explanation:

The Shipping Order, also known as the Pick or Ship Authorization, is the internal document that directs warehouse personnel on which products to prepare and dispatch. In the CLT "Dispatch and Tracking" module, it serves as the instruction connecting customer order data with physical outbound activity. It lists product IDs, quantities, and destinations, initiating the packing and loading process. The Bill of Lading legally documents the shipment after loading, while the Carrier Freight Bill concerns payment, and the Delivery Receipt confirms receipt. The Shipping Order ensures accuracy between customer expectations and outbound execution, forming a crucial control step in the outbound logistics workflow.

NEW QUESTION # 29

A substance or material that is capable of posing an unreasonable risk to health, safety, and property when transported in commerce is

- A. HAZMAT
- B. dangerous goods
- C. HAZCOM
- D. PHMSA

Answer: A

Explanation:

CLT uses the U.S. term "hazardous material (HAZMAT)" for substances posing unreasonable risks in transportation; internationally the term "dangerous goods" is common. PHMSA is the regulating agency within USDOT, and HAZCOM refers to OSHA's Hazard Communication standard, not the material itself. Thus, the definition aligns with HAZMAT.

NEW QUESTION # 30

Which of the following is a complete supply chain dedicated to product and materials for the purpose of returns, repairs, remanufacturing and/or recycling?

- A. product return logistics
- B. backlog logistics
- C. non-conforming logistics
- **D. reverse logistics**

Answer: D

NEW QUESTION # 31

.....

MSSC CLT-4.0 Exam provided by ValidExam is of the highest quality, and it enables participants to pass the exam on their first try. For successful preparation, it is essential to have good MSSC CLT-4.0 exam dumps and to prepare questions that may come up in the exam. ValidExam helps candidates overcome all the difficulties they may encounter in their exam preparation. To ensure the candidates' satisfaction, ValidExam has a support team that is available 24/7 to assist with a wide range of issues.
