2026 Salesforce EX-Con-101 Fantastic Verified Answers

Considering all customers' sincere requirements, EX-Con-101 test question persist in the principle of "Quality First and Clients Supreme" all along and promise to our candidates with plenty of high-quality products, considerate after-sale services as well as progressive management ideas. To be out of the ordinary and seek an ideal life, we must master an extra skill to get high scores and

win the match in the workplace. Our EX-Con-101 Exam Question can help make your dream come true. What's more, you can have a visit of our website that provides you more detailed information about the EX-Con-101 guide torrent.

Salesforce Certified Experience Cloud Consultant Sample Questions (Q42-Q47):

NEW QUESTION # 42

No More Homelessness (NMH) recently launched a public site. The Support team has received feedback that some of the articles aren't showing up in the search results for unauthenticated or guest users. How can NMH ensure that articles are shared with all guest users?

- A. Create a custom permission set for Public access.
- B. Create a custom profile for Public access.
- C. Select "Public" organization-wide default for the article type at the org level.
- **D. Select "Visible in Public Knowledge Base" at the article level.**

Answer: D

Explanation:

To dynamically populate the site with blog posts as new ones are added, CK should use a Grid component with CMS Collections. A Grid component is a component that displays content in a grid layout with rows and columns. A CMS Collection is a collection of content items that are created and managed in Salesforce CMS.

CK can use a Grid component and select a CMS Collection as the content source. This will allow CK to showcase blog posts written by AW Computing thought leaders on its site and automatically update them as new ones are added.

NEW QUESTION # 43

Universal Containers (UC) has a B2C customer department that uses person accounts to track and manage all B2C customers. UC has set up a B2C site using Salesforce Experience Cloud. The VP of B2C business wants to enable self-registration on the portal so customers can create their own user accounts.

What should the Experience Cloud consultant at UC recommend so that the new users self-registering on the B2C site are captured as person accounts in Salesforce?

- A. Use the standard self-registration configuration under Experience Workspace and leave the default Account field empty.
- **B. Create a custom self-registration page and Apex handler that creates a person account for each user self-registering on the portal.**
- C. Restrict the Account record type access to Person Account record type only for the Site Guest User, so any account created is by default a person account.

Answer: B

Explanation:

This option allows UC to customize the self-registration process and create person accounts programmatically using Apex code. The standard self-registration configuration does not support person accounts and requires an existing business account to associate the new users with. Restricting the account record type access for the Site Guest User does not affect the self-registration process and may cause errors.

NEW QUESTION # 44

Cloud Kicks (CK) is planning to launch a public site. The site will contain a variety of digital content, including static content as well as dynamic content. CK is planning to use Content Delivery Network (CDN).

Which statement is true about using CDN with Experience Cloud?

- A. CDN can help reliability by allowing local cloning for static resources.
- B. CDN can help consistency attaching content timestamps as key-value pairs to both static and dynamic content.
- C. CDN can help availability by allowing remote cloning for dynamic resources.
- **D. CDN can help performance by caching public resources.**

Answer: D

Explanation:

CDN can help performance by caching public resources, such as images, JavaScript, and CSS files. This can enhance the user experience and reduce the load on CK's server. CDN stands for Content Delivery Network, which is a feature that allows CK to improve the performance of its site by caching static resources on servers that are closer to CK's site visitors.

NEW QUESTION # 45

Ursa Major Solar would like its authenticated external users to be able to search for Quote and Contract objects but not Opportunity or Asset objects.

Which two standard features allow an administrator to accomplish that?

Choose 2 answers

- A. Remove Opportunity and Asset from the navigation Menu component in the property editor.
- B. Remove Opportunity and Asset from the object list in the Global Search Result component property editor.
- C. Remove Opportunity and Asset from the Autocomplete object list in the Search component property editor.
- D. Remove Opportunity and Asset from the Title Menu component in the property editor.

Answer: B,C

Explanation:

To prevent authenticated external users from searching for Quote and Contract objects but not Opportunity or Asset objects, you need to remove Opportunity and Asset from the object list in the Global Search Result component property editor and the Autocomplete object list in the Search component property editor. The Global Search Result component displays the search results for all objects that match the search term. The Autocomplete object list displays the suggested objects that match the search term as you type. You can customize these components by selecting or deselecting the objects that you want to include or exclude from the search.

NEW QUESTION # 46

The Experience Cloud manager has been asked to ensure that a Knowledge article is visible to Internal Salesforce users, unauthenticated visitors to the site, and third-party authenticated users.

Which two settings need to be configured on the draft article before it is published?

Choose 2 answers

- A. Visible to Partner
- B. Visible to Guest User
- C. Visible to Employee
- D. Visible in Public Knowledge Base

Answer: C,D

Explanation:

These two options allow the article to be visible to internal Salesforce users, unauthenticated visitors to the site, and third-party authenticated users. Visible in Public Knowledge Base enables the article to be accessed by guest users without logging in, while Visible to Employee enables the article to be accessed by internal users with the appropriate permissions.

NEW QUESTION # 47

.....

It is an inescapable choice to make why don't you choose our EX-Con-101 practice materials with a passing rate up to 98-100 percent. You can have a sweeping thorough of our EX-Con-101 practice materials with intelligibly and under-stable contents. It is time to take the plunge and you will not feel depressed.
