QSA_New_V4 Certification Dumps | QSA_New_V4 Exam Cram Review

Quality of QSA_New_V4 practice materials you purchased is of prior importance for consumers. Our QSA_New_V4 practice materials make it easier to prepare exam with a variety of high quality functions. Their quality function is observably clear once you download them. We have three kinds of QSA_New_V4 practice materials moderately priced for your reference. All these three types of QSA_New_V4 practice materials win great support around the world and all popular according to their availability of goods, prices and other term you can think of.

PCI SSC Qualified Security Assessor V4 Exam Sample Questions (Q60-Q65):

NEW QUESTION # 60
Which of the following statements is true whenever a cryptographic key is retired and replaced with a new key?

- A. All data encrypted under the retired key must be securely destroyed.

- B. Cryptographic key components from the retired key must be retained for 3 months before disposal.
- C. A new key custodian must be assigned.
- D. The retired key must not be used for encryption operations.

Answer: D

Explanation:
When a cryptographic key is retired and replaced, it is essential to ensure that the retired key is no longer used for encryption purposes to maintain the security of the cryptographic system.
* Option A:Correct. Retired keys must not be used for encryption operations to prevent potential security vulnerabilities. However, they may be retained for decryption purposes if necessary, such as decrypting existing data encrypted under the retired key.
* Option B:Incorrect. PCI DSS does not specify a mandatory retention period for retired cryptographic key components before disposal. Retention periods should align with the entity's data retention policies and legal requirements.
* Option C:Incorrect. Assigning a new key custodian is not a mandatory requirement upon key retirement and replacement, though proper key management practices should ensure that custodianship is clearly defined and documented.
* Option D:Incorrect. While data encrypted under a retired key should be re-encrypted with the new key or securely managed, PCI DSS does not mandate the destruction of such data solely due to key retirement.
For more information on cryptographic key management practices, refer toRequirement 3: Protect Stored Account Datain thePCI DSS v4.0.1document.Wikipedia

NEW QUESTION # 61
Which of the following meets the definition of "quarterly" as indicated in the description of timeframes used in PCI DSS requirements?

- A. At least once every 95-97 days.
- B. On the 1st of each fourth month.
- C. On the 15th of each third month.
- D. Occurring at some point in each quarter of a year.

Answer: D

Explanation:
According toSection 7 - Description of Timeframes Used in PCI DSS Requirements, the PCI DSS defines "quarterly" as:
"An activity performed once per calendar quarter (i.e., one time in each three-month period), or as close as reasonably possible to the calendar quarter."
* Option A:#Correct. This aligns precisely with PCI DSS's definition -once in each three-month calendar quarter.
* Option B:#Incorrect. PCI DSS doesnotdefine quarterly by a fixed number of days.
* Option C & D:#Incorrect. Specific dates or months are not prescribed.

NEW QUESTION # 62
What process is required by PCI DSS for protecting card-reading devices at the point-of-sale?

- A. Devices are physically destroyed if there is suspicion of compromise.
- B. Device identifiers and security labels are periodically replaced.
- C. The serial number of each device is periodically verified with the device manufacturer.
- D. Devices are periodically inspected to detect unauthorized card skimmers.

Answer: D

Explanation:
Requirement9.9.2of PCI DSS v4.0.1 mandates that entitiesregularly inspect POS devicesto detect signs of tampering or skimming. This includes physical inspections to identify unexpected additions, unauthorized stickers, broken seals, etc.
* Option A:Correct. Regular inspection for skimming/tampering is required.
* Option B:Incorrect. There is no mandate for manufacturer serial number verification.
* Option C:Incorrect. PCI DSS does not require routine replacement of device identifiers or labels.
* Option D:Incorrect. Devices may be investigated if compromised, but not necessarily destroyed.

NEW QUESTION # 63
Which statement is true regarding the use of intrusion detection techniques, such as intrusion detection systems and/or intrusion protection systems (IDS/IPS)?

- A. Intrusion detection techniques are required to identify all instances of cardholder data.
- B. Intrusion detection techniques are required to isolate systems in the cardholder data environment from all other systems.
- C. Intrusion detection techniques are required to alert personnel of suspected compromises.
- D. Intrusion detection techniques are required on all system components.

Answer: C

Explanation:
Requirement 11.5.1mandates that organisations deployintrusion-detection or prevention toolstomonitor traffic and generate alertsfor suspicious activity. The goal is tonotify personnel quicklyof a possible breach.
* Option A:#Incorrect. IDS/IPS isnot requiredon every component - only where it adds value.
* Option B:#Correct. IDS/IPS must be configured toalert on potential compromises.
* Option C:#Incorrect. Segmentation is a separate concern under Requirement 1.
* Option D:#Incorrect. IDS is not for discovering cardholder data.
Reference:PCI DSS v4.0.1 - Requirement 11.5.1.

NEW QUESTION # 64
Which of the following types of events is required to be logged?

- A. All access to external web sites.
- B. All access to all audit trails.
- C. All network transmissions.
- D. All use of end-user messaging technologies.

Answer: B

Explanation:
Requirement10.2.2mandates that all access to audit trails must be logged. This ensures that any tampering, viewing, or deletion of audit data is traceable. It supports the broader goal of maintaining audit trail integrity and accountability.
* Option A:Incorrect. PCI DSS does not require logging use of end-user messaging.
* Option B:Incorrect. There's no explicit requirement to log access to external websites.
* Option C:Correct. PCI DSS mandates loggingall access to audit trailsto detect and respond to unauthorised attempts.
* Option D:Incorrect. Logging all network transmissions is not feasible and not required.
Reference:PCI DSS v4.0.1 - Requirement 10.2.2.

NEW QUESTION # 65
.....

If you find the most suitable QSA_New_V4 study materials on our website, just add the QSA_New_V4 actual exam to your shopping cart and pay money for our products. Our online workers will quickly deal with your orders. We will follow the sequence of customers' payment to send you our QSA_New_V4 Guide questions to study right away with 5 to 10 minutes. It is quite easy and convenient for you to download our QSA_New_V4 practice engine as well.

QSA_New_V4 Certification Dumps: https://www.dumpstests.com/QSA_New_V4-latest-test-dumps.html

DumpsTests made an absolute gem of study material which carries actual Qualified Security Assessor V4 Exam (QSA_New_V4) Exam Questions for the students so that they don't get confused in order to prepare for Qualified Security Assessor V4 Exam (QSA_New_V4) exam and pass it with a good score, QSA_New_V4 practice materials are of reasonably great position from highly proficient helpers who have been devoted to their quality over ten years to figure your problems out and help you pass the exam easily, PCI SSC New QSA_New_V4 Exam Notes We are a legal company which sells more than 6000+ exams materials that may contain most international IT certifications examinations.

This approach proves to be quite useful, especially when you're working Reliable QSA_New_V4 Exam Blueprint in a team environment where there are multiple groups of people that are trying to describe scenarios in different parts of the system.

QSA_New_V4 Practice Torrent: Qualified Security Assessor V4 Exam - QSA_New_V4 Pass-King Materials & QSA_New_V4 Exam Practice

Certainly, this is a logical course of action for any school or QSA_New_V4 business that knows it will be buying new Macs in the next couple of years, DumpsTests made an absolute gem of study material which carries actual Qualified Security Assessor V4 Exam (QSA_New_V4) Exam Questions for the students so that they don't get confused in order to prepare for Qualified Security Assessor V4 Exam (QSA_New_V4) exam and pass it with a good score.

QSA_New_V4 practice materials are of reasonably great position from highly proficient helpers who have been devoted to their quality over ten years to figure your problems out and help you pass the exam easily.

We are a legal company which sells more than 6000+ exams materials that may contain most international IT certifications examinations, To save you from the loss of time and money, DumpsTests is offering PCI SSC QSA_New_V4 Questions.

Making a purchase for our exam practice materials will be of great help for you to achieve your life value as our QSA_New_V4 test-king materials will aid you in getting the necessary certificates easily.
