First of all, we have done a very good job in studying the updating of materials. In addition, the quality of our MS-721 real MS-721 study guide materials is strictly controlled by teachers. So, believe that we are the right choice, if you have any questions about our MS-721 study materials, you can consult us.

Microsoft Collaboration Communications Systems Engineer Sample Questions (Q42-Q47):

NEW QUESTION # 42

You are deploying Microsoft Skype for Business 3PIP phones to remote sites for use with Microsoft Teams.

You need to sign each 3PIP phone in to Teams.

What are two possible ways to achieve the goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. From the device, instruct a local user to sign in from a computer that connects to the device by using a USB cable.
- B. From the device, instruct a local user to sign in by using the device itself.
- C. From the device, instruct a local user to sign in from the web.
- D. From the device, instruct a local user to use the direct inward dial (DID) number and PIN of the assigned account.
- E. From the Microsoft Teams admin center, remotely provision a new device.

Answer: B,C

NEW QUESTION # 43

You need to connect the analog intercoms to Teams Phone.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Create a trusted application endpoint for Teams.
- B. Create a resource account for each intercom.
- C. Create a configuration profile for IP phones.
- D. Register the ATAs with a Teams-certified SBC.
- E. Enable Direct Routing to a Teams-certified SBC.

Answer: D,E

Explanation:

Topic 3, Contoso, Ltd. (NEW)

Overview

Contoso, Ltd. is an international manufacturing company that has 2,000 employees.

Contoso currently uses a third-party meeting service. The company plans to migrate the meeting service to Microsoft Teams and replace all legacy video teleconferencing (VTC) devices.

Contoso has offices in Toronto, New York, Rome, and London. The company has a global sales team that works remotely.

The on-premises network contains an Active Directory Domain Services (AD DS) forest named contoso.com

Contoso has a Microsoft 365 subscription. All users are licensed for Microsoft 365 E5 and Teams Premium. All users are enabled for Teams Phone by using Operator Connect.

The contoso.com domain syncs to Microsoft 365 by using Azure AD Connect cloud sync. All users use the Microsoft Authenticator app for multi-factor authentication (MFA) to cloud services.

A Microsoft Surface Hub device is deployed to the boardroom in each office.

The reception area at the Toronto office is configured to use a phone number of +14165555555 in Teams.

Contoso identifies the following issues:

- * A user in the London office cannot locate the recorded files from a recurring Teams meeting.
- * Executives in the New York office report having to use Microsoft Authenticator to access their Microsoft OneDrive files from the Surface Hub.
- * A user in the Toronto office reports receiving incoming calls while attending Teams meetings instead of having calls sent automatically to voicemail.

Contoso plans to implement the following changes:

- * Deploy a new Teams-certified endpoint to all the boardrooms and huddle spaces in all the offices.
- * Start a pilot project to deploy an Intelligent Speaker to the boardroom in the Rome office and evaluate transcription and voice attribution capabilities.
- * Deploy a Teams shared device to the lunchroom in the Toronto office. Calls placed to +14165555555 must ring in both the reception area and the lunchroom.

Contoso identifies the following technical requirements:

- * The endpoint deployed to each boardroom must include a console on the table. The endpoint must automatically invite the existing Surface Hub when joining a Teams meeting.
- * The sales team must be able to temporarily sign in to the endpoints deployed to the huddle spaces to respond to Teams messages and attend video calls.
- * The endpoints deployed to the huddle spaces must allow only outbound emergency calls when a user is NOT signed in.
- * During Teams meetings, the sales team must have a watermark displayed on shared content.

NEW QUESTION # 44

You need to assign a license to users to meet the technical requirements.

How should you complete the PowerShell script? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

```
$Users = Import-CSV ./users.csv
Foreach ($Username in $Users) {
```

	-UserID	\$Username	-AddLicenses
New-MsolLicenseOptions			
Set-CsOnlineVoiceUser			
Set-CsUser			
Set-MgUserLicense			

-UserID \$Username -AddLicenses

NEW QUESTION # 45

Your company purchases several Microsoft Surface Hub devices for use with Microsoft Teams Rooms. You create a provisioning package (.ppkg) to configure certificates, apps, and proxy settings for each Surface Hub. You need to deploy the provisioning package to each Surface Hub.

Solution: Add a provisioning package from the Settings app on the Surface Hub device.

Does this meet the goal?

- A. Yes
- B. No

Answer: A

NEW QUESTION # 46

You have a Teams Phone deployment that contains offices in Brisbane and Melbourne.

You deploy a new Session Border Controller (SBC) named SBC2 to the Brisbane office.

You need to ensure that emergency calls from only the users in the Brisbane office use SBC2.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Assign an emergency call routing policy to the Brisbane office users.
- B. Assign a dial plan to the Brisbane office users.
- C. Create a new dial plan.
- D. Create a new emergency calling policy.
- E. Assign an emergency calling policy to the Brisbane office users.

- F. Create a new emergency call routing policy.

Answer: A,F

NEW QUESTION # 47

.....
