Dumpleader is website that can help a lot of IT people realize their dreams. If you have a IT dream, then quickly click the click of Dumpleader. It has the best training materials, which is Dumpleader;s SAP C\_C4H56\_2411 Exam Training materials. This training materials is what IT people are very wanted. Because it will make you pass the exam easily, since then rise higher and higher on your career path.

## **SAP Certified Associate - Implementation Consultant - SAP Service Cloud Version 2 Sample Questions (Q11-Q16):**

### **NEW QUESTION # 11**

Service agents working on a specific case type in SAP Service Cloud Version 2 need to access and perform defined actions in an external solution. What steps must an administrator perform to make this possible? Note: There are 3 correct answers to this question.

- A. Define a custom screen for the mashup.
- B. Develop a custom business object.
- C. **Include a dedicated step pointing to the mashup in one of the phases of the case type.**
- D. **Create a mashup to embed the web page of the external solution.**
- E. **Use the web page URL of the external solution for extracting input parameters in the mashup.**

**Answer: C,D,E**

Explanation:

To enable service agents to access and perform actions in an external solution for a specific case type, administrators must create a mashup to embed the web page of the external solution to integrate it into the Agent Desktop. They should use the web page URL of the external solution for extracting input parameters in the mashup to pass case-specific data. Additionally, including a dedicated step pointing to the mashup in one of the phases of the case type ensures agents can access the external solution during case processing. According to SAP documentation, "Creating a mashup, configuring its URL parameters, and integrating it into the case type via a dedicated step are required for external solution access." Developing a custom business object (A) is unnecessary for this scenario. Defining a custom screen for the mashup (D) is not a standard requirement.
