purposes. You can change ASVAB Practice Exam's conditions such as duration and the number of questions. This simulator creates a College Admission ASVAB real exam environment that helps you to get familiar with the original test.

College Admission Armed Services Vocational Aptitude Battery (ASVAB) Sample Questions (Q56-Q61):

NEW QUESTION # 56

Jenny's test grades are 93, 89, 96, and 98. If she wishes to raise her average to 95, what does she need to score on her next test?

- A. 0
- B. 1
- C. 2
- **D. 3**

Answer: D

Explanation:

To determine Jenny's average, add the test scores and divide the sum by the number of tests taken. You want to know what she would need to make on the next test in order to achieve an average of 95. The formula can be set up as $(93 + 89 + 96 + 98 + x) \div 5 = 95$. Combining the like terms results in $(376 + x) \div 5 =$

95. Multiplying both sides by 5 results in $376 + x = 475$. So, $x = 99$.

NEW QUESTION # 57

A stranger meets you and shows you a wad of cash he has just "found." He says he wants to split it with you, but says that, in order to show your "good faith," you have to put up some of your own money. When you agree to give him your money, the stranger finds a reason to leave for a while. Do you see him again?

Probably not--you have just been conned.

The main theme of this passage is

- **A. Be careful of "get-rich-quick" schemes.**
- B. Don't believe anything a stranger says.
- C. How to make lots of money.
- D. Don't ever speak to strangers.

Answer: A

Explanation:

This passage warns the reader of one particular get-rich-quick scheme, and by extension cautions them to be wary of all such ideas. It does not say to never speak to a stranger, nor does it say not to ever believe anything a stranger says--if we did that, we couldn't go in a convenience store on a long trip to buy gas or go to the restroom. The passage also does not describe how to make lots of money, since the subject of the con loses money rather than getting rich.

Word Knowledge

NEW QUESTION # 58

The goal of the treaty is to develop international amity and reciprocal trade.

- A. standards
- **B. friendship**
- C. agreement
- D. understanding

Answer: B

NEW QUESTION # 59

The folded dipole antenna has an impedance of

- A. 600 ohms.
- B. 75 ohms.
- C. 72 ohms.
- D. 300 ohms.

Answer: D

Explanation:

The folded dipole antenna--the one most commonly used for home TV reception--has an impedance of 300 ohms. The dipole has an impedance of 72 ohms.

NEW QUESTION # 60

A carpenter needs to cut four sections, each 3-feet 8-inches long, from a piece of molding. If the board is only sold by the foot, what's the shortest length of board she can buy?

- A. 14 feet
- B. 16 feet
- C. 15 feet
- D. 12 feet

Answer: C

Explanation:

Convert the mixed number to inches. 3 feet 8 inches equals 44 inches (12 inches per foot 3 feet = 36 inches + 8 inches = 44 inches). 44 inches (length each section needs to be) 4 (number of sections needed) = 176 inches (total molding needed). To determine the amount of molding needed in feet, convert 176 inches into feet by dividing 176 inches by 12 inches. You get $14\frac{2}{3}$ feet, so the shortest board length is 15 feet.

NEW QUESTION # 61

.....

How can our ASVAB study questions are so famous and become the leader in the market? Because our ASVAB learning braindumps comprise the most significant questions and answers that have every possibility to be the part of the real exam. As you study with our ASVAB Practice Guide, you will find the feeling that you are doing the real exam. Especially if you choose the Software version of our ASVAB training engine, which can simulate the real exam.

ASVAB Preparation Store: <https://www.exams-boost.com/ASVAB-valid-materials.html>

100% correct answers provided by College Admission ASVAB Preparation Store experts, We provide great customer service before and after the sale and different versions for you to choose, you can download our free demo to check the quality of our ASVAB guide torrent, You must choose those who shall give you the Armed Services Vocational Aptitude Battery (ASVAB) ASVAB questions and not those who are giving you copied sheets only, The pas rate is 98.95% for the ASVAB exam torrent, and you can pass the exam if you choose us.
