Our C_WME_2506 Exams files feature hands-on tasks and real-world scenarios; in just a matter of days, you'll be more productive and embracing new technology standards.

SAP Certified Associate - WalkMe Digital Adoption Consultant Sample Questions (Q48-Q53):

NEW QUESTION # 48
When adding new users to an account on a platform, admins must select their permission levels. The company gets a lot of support tickets about users asking what each permission level means or asking to adjust permission levels because they were set up incorrectly. The company already has a help article that lists out all of the permission level definitions, but it isn't used often. Which of these options would be the best solution to create with WalkMe?

- A. ShoutOut every time admins begin adding a new user
- B. Launcher next to the field that activates a Resource
- C. Smart Walk-Thru navigating users to the help Resource
- D. Validation SmartTip

Answer: B

NEW QUESTION # 49

How does WalkMe help organizations enforce policy and compliance requirements?

- A. By monitoring employees through real-time video feeds
- B. By automatically restricting employees from using external software
- C. By disabling access to all non-compliant employees
- D. By displaying pop-ups for policy acknowledgment and using invisible Launchers to block sensitive fields

Answer: D

Explanation:

WalkMe supports organizations in enforcing policy and compliance requirements by providing tools to guide users and prevent non-compliant actions. Specifically, it uses pop-ups for policy acknowledgment (e.g., via ShoutOuts or Smart Walk-Thrus) to ensure users confirm understanding of policies, and invisible Launchers to block sensitive fields, preventing unauthorized interactions without altering the underlying application.

This approach ensures compliance while maintaining a seamless user experience.

The other options are incorrect:

* Restricting external software(A) is not a WalkMe capability; it focuses on in-app guidance.
* Monitoring via video feeds(B) is unrelated to WalkMe's functionality.
* Disabling access to non-compliant employees(C) is too extreme and not a WalkMe feature.

Extract from Official WalkMe Documentation:

According to the SAP WalkMe Digital Adoption Consultant Study Guide (Section 1.1: WalkMe Fundamentals):

"WalkMe enforces compliance by displaying policy acknowledgment pop-ups through ShoutOuts or Smart Walk-Thrus and using invisible Launchers to block sensitive fields, ensuring adherence to regulations." The course WalkMe Fundamentals states:

"To support compliance, WalkMe uses tools like pop-ups for policy confirmation and invisible Launchers to restrict access to sensitive areas, promoting secure user behavior." Option D accurately describes how WalkMe enforces policy and compliance.

NEW QUESTION # 50

Which of the following is the best use case for using Behavior Based Segmentation?

- A. Display different SmartTips for users located in the United States and Italy.
- B. Play a ShoutOut only to users who have already used a specific feature.
- C. Make sure a Launcher only displays for Finance Team members.
- D. Show a time-sensitive ShoutOut and Survey to all users.

Answer: B

NEW QUESTION # 51

Your product team has informed you that there is a UI element on the website that has no purpose, is causing user confusion, and they need it removed. They also mentioned that they don't have enough development resources to remove it for at least a few weeks.

What WalkMe solution can you build to help resolve this issue?

- A. Build a Launcher that will cover up the UI element and make it invisible.
- B. Build a Mini Menu and place it next to the button.
- C. Build a mandatory field Launcher and place it on top of the UI element.
- D. Build a Resource to a support article on the UI element.

Answer: A

NEW QUESTION # 52

You are building a WalkMe solution to help your users self-serve and prevent common support tickets from being opened repeatedly. You want to add guidance for the top three support tickets to a page on your website and make it stand out for the end

user.

What is the best solution to allow for quick and easy access?

- A. Create a large ShoutOut to appear in the middle of the page each time the user visits the page.
- B. Add it to your list of WalkMe content in the Menu.
- C. Create a Survey to ask end users about their feedback.
- D. Create a Mini Menu of content from the top three support tickets and place it next to the support ticket form.

Answer: D

NEW QUESTION # 53

......
