

Pass Guaranteed Quiz 2026 Microsoft Marvelous AZ-305: Designing Microsoft Azure Infrastructure Solutions Reliable Exam Vce

P.S. Free 2026 Microsoft AZ-305 dumps are available on Google Drive shared by TestkingPDF: https://drive.google.com/open?id=1X58m-Btr5Pv7X_pUAnYdyRGqwoblz16U

There is no site can compare with TestkingPDF site's training materials. This is unprecedented true and accurate test materials. To help each candidate to pass the exam, our Microsoft elite team explore the real exam constantly. I can say without hesitation that this is definitely a targeted training material. The TestkingPDF's website is not only true, but the price of materials are very reasonable. When you choose our AZ-305 products, we also provide one year of free updates. This allow you to have more ample time to prepare for the exam. So that you can eliminate your psychological tension of exam, and reach a satisfactory way.

Do You Have What It Takes To Pass The Microsoft AZ-305 Exam?

The Microsoft AZ-305 exam certifies that a candidate can work with the products found in Azure solutions. The purpose of the Microsoft exam AZ-305 is to test whether implementers of Microsoft Azure Infrastructure Solutions have the skills necessary to design multi-tier services in cloud computing infrastructure. Designing these services will require knowledge and understanding of building systems, management, and operations in large-scale hybrid environments. Recovery and remediation of the infrastructure will also be tested.

Obtaining this certification not only adds to your CV but can help you validate your knowledge regarding designing a modern computing environment into the cloud. Besides this, the certification is a way of validating your skills and competency in Azure technologies. **AZ-305 exam dumps** could be a great way to achieve this goal. The load of the Microsoft AZ-305 Exam is increasing day by day, and if you are working on this technology, it is better to prepare for the Microsoft AZ-305 exam.

Microsoft AZ-305 certification exam is designed for Azure architects and engineers who are responsible for designing and implementing solutions in Microsoft Azure. AZ-305 exam is aimed at professionals who have experience with Azure technologies and services, and who have a good understanding of cloud computing concepts, including virtualization, storage, networking, and security. The AZ-305 exam tests your ability to design and implement solutions that meet the requirements of your organization, while also ensuring scalability, availability, and security.

AZ-305 Latest Dumps Questions | AZ-305 Valid Study Notes

Someone always asks: Why do we need so many certifications? One thing has to admit, more and more certifications you own, it may bring you more opportunities to obtain better job, earn more salary. This is the reason that we need to recognize the importance of getting the test AZ-305 certifications. More qualified certification for our future employment has the effect to be reckoned with, only to have enough qualification certifications to prove their ability, can we win over rivals in the social competition. Therefore, the AZ-305 Guide Torrent can help users pass the qualifying examinations that they are required to participate in faster and more efficiently.

The AZ-305 Exam is part of the Microsoft Azure Solutions Architect certification path, which is designed to help professionals

showcase their skills and expertise in designing and implementing cloud solutions on the Azure platform. Designing Microsoft Azure Infrastructure Solutions certification path is ideal for professionals who work with Azure on a daily basis and are looking to enhance their skills and knowledge in this area.

Microsoft Designing Microsoft Azure Infrastructure Solutions Sample Questions (Q65-Q70):

NEW QUESTION # 65

You plan to migrate App1 to Azure.

You need to recommend a storage solution for App1 that meets the security and compliance requirements.

Which type of storage should you recommend, and how should you recommend configuring the storage? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

□

Answer:

Explanation:

□

Explanation

Text, table Description automatically generated

□

Box 1: Standard general-purpose v2

Standard general-purpose v2 supports Blob Storage.

Azure Storage provides data protection for Blob Storage and Azure Data Lake Storage Gen2.

Scenario:

Litware identifies the following security and compliance requirements:

- * Once App1 is migrated to Azure, you must ensure that new data can be written to the app, and the modification of new and existing data is prevented for a period of three years.

- * On-premises users and services must be able to access the Azure Storage account that will host the data in App1.

- * Access to the public endpoint of the Azure Storage account that will host the App1 data must be prevented.

- * All Azure SQL databases in the production environment must have Transparent Data Encryption (TDE) enabled.

- * App1 must NOT share physical hardware with other workloads.

Box 2: NFSv3

Scenario: Plan: Migrate App1 to Azure virtual machines.

Blob storage now supports the Network File System (NFS) 3.0 protocol. This support provides Linux file system compatibility at object storage scale and prices and enables Linux clients to mount a container in Blob storage from an Azure Virtual Machine (VM) or a computer on-premises.

NEW QUESTION # 66

Your company deploys an Azure App Service Web App.

During testing the application fails under load. The application cannot handle more than 100 concurrent user sessions. You enable the Always On feature. You also configure auto-scaling to increase counts from two to 10 based on HTTP queue length.

You need to improve the performance of the application.

Which solution should you use for each application scenario? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

□

NEW QUESTION # 67

Hotspot Question

You have an Azure subscription.

You create a storage account that will store documents.

You need to configure the storage account to meet the following requirements:

- Ensure that retention policies are standardized across the subscription.
- Ensure that data can be purged if the data is copied to an unauthorized location.

Which two settings should you enable? To answer, select the appropriate settings in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 68

Your company develops a web service that is deployed to an Azure virtual machine named VM1. The web service allows an API to access real-time data from VM1.

The current virtual machine deployment is shown in the Deployment exhibit. (Click the Deployment tab).

The chief technology officer (CTO) sends you the following email message: "Our developers have deployed the web service to a virtual machine named VM1. Testing has shown that the API is accessible from VM1 and VM2. Our partners must be able to connect to the API over the Internet. Partners will use this data in applications that they develop." You deploy an Azure API Management (APIM) service. The relevant API Management configuration is shown in the API exhibit. (Click the API tab.)

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Reference:

NEW QUESTION # 69

You have an Azure subscription that contains the resources shown in the following table.

Log files from App1 are ingested to App 1 Logs. An average of 120 GB of log data is ingested per day.

You configure an Azure Monitor alert that will be triggered if the App1 logs contain error messages.

You need to minimize the Log Analytics costs associated with App1. The solution must meet the following requirements:

- * Ensure that all the log files from App1 are ingested to App 1 Logs.
- * Minimize the impact on the Azure Monitor alert.

Which resource should you modify, and which modification should you perform? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:
