UiPath-ABAAv1 Test Result, Latest Braindumps UiPath-ABAAv1 Ebook

Our UiPath-ABAAv1 training materials are regarded as the most excellent practice materials by authority. Our company is dedicated to researching, manufacturing, selling and service of the UiPath-ABAAv1 study guide. Also, we have our own research center and experts team. So our products can quickly meet the new demands of customers. That is why our UiPath-ABAAv1 Exam Questions are popular among candidates. we have strong strenght to support our UiPath-ABAAv1 practice engine.

UiPath Automation Business Analyst Associate Exam (2023.10) Sample Questions (Q76-Q81):

NEW QUESTION # 76

At what stage should the scope of a specific automation be finalized?

- A. Business Case and Technical Validation
- B. Kickoff
- C. Solution Design
- D. Process Analysis

Answer: D

Explanation:

The scope of a specific automation is finalized during the Process Analysis stage. While the Kickoff stage defines the high-level scope of the overall project, the detailed scope for each process is only finalized after the process has been thoroughly analyzed.

During Process Analysis, the Business Analyst and Solution Architect study the process in its As-Is state and collaborate to document it in the Process Definition Document (PDD). This document serves as the official agreement on what will be automated, the process boundaries, exceptions, rules, and inputs/outputs.

Once the PDD is reviewed and approved by both the Implementation and Client Teams, the detailed scope is considered locked. This helps prevent scope creep during later stages and ensures that development remains focused on delivering the agreed automation features.

NEW QUESTION # 77

Which document is used to define how UAT will be conducted and by whom?

- A. Project Charter
- **B. User Acceptance Testing (UAT) Plan**
- C. Access Control Matrix
- D. Solution Design Document

Answer: B

Explanation:

The User Acceptance Testing (UAT) Plan is the document that defines how UAT will be conducted, who will participate, what test scenarios will be used, and what constitutes success.

This plan typically includes:

- * Roles and responsibilities during testing
- * UAT schedule and timelines
- * Test data and environment setup
- * Test cases and expected outcomes
- * Defect management and resolution protocol

The UAT Plan ensures a structured and coordinated approach to acceptance testing. It is typically prepared by the Business Analyst and Project Manager, and is reviewed by both the Implementation and Client Teams to ensure alignment before testing begins.

NEW QUESTION # 78

Which UiPath platform layer includes tools such as UiPath Studio and Document Understanding?

- **A. Automate**
- B. Orchestrate
- C. Discover
- D. Measure

Answer: A

Explanation:

The Automate layer of the UiPath Business Automation Platform includes tools such as UiPath Studio, UiPath Action Center, and UiPath Document Understanding. This layer is focused on building and deploying automation workflows that execute the desired processes.

- * UiPath Studio is the development environment where automation workflows are built.
- * Document Understanding allows robots to extract, interpret, and process data from structured and unstructured documents.
- * Action Center enables human-in-the-loop automation by allowing manual intervention where needed.

The Automate layer brings the business logic to life by translating process requirements into executable robot actions. It's at the core of UiPath's capability to reduce manual effort and increase operational efficiency through software robots.

NEW QUESTION # 79

Which stage focuses on validating that the automation meets business expectations in a real-world scenario?

- **A. User Acceptance Testing (UAT)**
- B. Deployment
- C. Kickoff
- D. Solution Design

Answer: A

Explanation:

The User Acceptance Testing (UAT) stage is where the automation is validated to ensure it meets business expectations and performs correctly in a real-world scenario. UAT is conducted by end users or business stakeholders using defined test cases and data that mimic live operations.

The goals of this stage are to:

- * Confirm that the automation performs as designed
- * Verify that business rules and logic are correctly implemented
- * Identify any defects or unexpected behavior
- * Collect user feedback before deployment

The Automation Developer is responsible for fixing any issues found during UAT. A successful UAT ensures the automation is ready for deployment and has the confidence of the business users.

NEW QUESTION # 80

Which of the following roles is primarily responsible for defining automation architecture and technical strategy?

- A. Business Analyst
- **B. Solution Architect**
- C. Infrastructure Engineer
- D. Project Manager

Answer: B

Explanation:

The Solution Architect is the primary role responsible for defining the automation architecture and technical strategy in a UiPath automation project. This includes choosing the right components (e.g., Studio, Orchestrator, attended vs. unattended bots), designing reusable modules, and ensuring scalability and maintainability.

They act as the technical leader, providing guidance to the development team and ensuring that the architecture adheres to best practices. The Solution Architect is also involved in every major stage - from Business Case Validation and Solution Design to UAT and Deployment - to maintain consistency and resolve any technical challenges.

Their expertise ensures that the automation is technically sound, aligns with infrastructure constraints, and integrates seamlessly into the client's existing ecosystem. They also play a key role in identifying technical risks and proposing solutions early in the project.

NEW QUESTION # 81

.....

Getting tired of humdrum life, you may want to get some successful feeling or try something different instead. We all know that is important to pass the UiPath-ABAAv1 exam and get the UiPath-ABAAv1 certification for someone who wants to find a good job in internet area, and it is not a simple thing to prepare for exam. So you are in the right place now. The thoughtfulness of our UiPath-ABAAv1 Study Materials services is insuperable. What we do surely contribute to the success of UiPath-ABAAv1 practice materials.
