The content of our EUNA_2024 pass guide covers the most of questions in the actual test and all you need to do is review our EUNA_2024 VCE Dumps carefully before taking the exam. Then you can pass the actual test quickly and get certification easily.

Esri ArcGIS Utility Network Associate 2024 Sample Questions (Q41-Q46):

NEW QUESTION # 41

Which type of attribute rule can be run at a user-specified time to update attributes in a utility network?

- A. Batch calculation rule
- B. Constraint rule

- C. Immediate calculation rule

Answer: A

Explanation:

Batch calculation rules are scheduled and update attributes based on defined parameters.

NEW QUESTION # 42

Which topology tier type in ArcGIS Utility Network supports looping connectivity between network features?

- A. Partitioned
- **B. Mesh**
- C. Radial

Answer: B

Explanation:

Mesh topology allows loops and multiple flow paths, supporting redundancy.

NEW QUESTION # 43

After a pipe burst occurs, which trace type should be run in ArcGIS Utility Network to find the valves that must be closed to isolate the damaged area?

- A. Subnetwork trace
- **B. Isolation trace**
- C. Upstream trace

Answer: B

Explanation:

An isolation trace identifies which valves must be closed to isolate an area for repairs.

NEW QUESTION # 44

When validation rules are evaluated in ArcGIS Utility Network, where are data violations stored and tracked?

- A. Subnetwork controller tables
- **B. Error datasets**
- C. Network attribute tables

Answer: B

Explanation:

Violations are logged in error datasets, which allow users to identify and fix invalid data.

NEW QUESTION # 45

When setting up a utility network, which of the following describes the main function of terminals in modeling flow?

- A. Enforce containment rules for assets
- B. Provide attachment points for domain features to structures
- **C. Act as subnetwork controllers and define valid flow paths through devices**

Answer: C

Explanation:

Terminals model how resources enter/exit devices and act as controllers to define subnetwork origins.
