Then you can click the link in the E-mail and download your C_S4CPB_2508 study engine. You can download it as many times as you need.

SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud

Public Edition Sample Questions (Q39-Q44):

NEW QUESTION # 39

You want to restrict end user activities for an application.

Where would you look up the business catalog(s) that grant access to the app?

- A. In the Define Your Scope app
- B. In the Configure Your Solution app
- C. In the SAP Fiori Apps Reference Library
- D. In the App Finder app

Answer: C

Explanation:

The SAP Fiori Apps Reference Library is a comprehensive online library of all available SAP Fiori apps. It provides information about the app features, technical data, configuration, and implementation. You can use the SAP Fiori Apps Reference Library to look up the business catalog(s) that grant access to an app by following these steps:

- * Go to the SAP Fiori Apps Reference Library website and log in with your SAP credentials.
- * In the search bar, enter the name or ID of the app you want to restrict access to, and click the search icon.
- * In the search results, click on the app tile to open the app details page.
- * On the app details page, scroll down to the Implementation Information section and expand the Configuration tab.
- * Under the Configuration tab, you will see the Business Catalog field, which lists the business catalog(s) that contain the app. You can click on the business catalog ID to view more details about it, such as the business roles, business groups, and other apps that are assigned to it.

NEW QUESTION # 40

When do you specify the data retention period in the SAP S/4HANA Migration Cockpit?

- A. When the project status is "Finished"
- B. When the project status is "Not Started"
- C. When the project status is "In Progress"
- D. When the project status is "Completed"

Answer: A

Explanation:

You specify the data retention period in the SAP S/4HANA Migration Cockpit when the project status is "Finished". The data retention period is the length of time (in days) that the project and all associated data is kept in the system after you have set the status of the project to Finished. To do this, set the option Data Retention Period to On. The data will be deleted from the SAP S/4HANA system when the data retention time expires. If you set the option Data Retention Period to Off, then the project and all associated data will be kept in the system indefinitely. You can also change the retention time for finished projects on the Technical Information tab of the project settings. References = The Migration Project Screen, Migrating Data to the SAP S/4HANA System

NEW QUESTION # 41

What is the correct release code for the second feature delivery in February 2025?

- A. 2025.2
- B. 2025.2.2
- C. 0
- D. 2502.2

Answer: D

Explanation:

The release code for SAP S/4HANA Cloud Public Edition follows the format YYYY.MM.X, where YYYY is the year, MM is the month, and X is the feature delivery number. The first feature delivery is always in February, and the second feature delivery is always in May. Therefore, the release code for the second feature delivery in February 2025 is 2502.2. NEW QUESTION # 42

In SAP Central Business Configuration, which activities can you perform in the Product-Specific Configuration Phase? Note: There are 3 correct answers to this question.

- A. Change approval thresholds.
- B. Modify building blocks.
- C. Create new scope items.
- D. Add blocking reasons for billing.
- E. Add new sales organizations.

Answer: A,D,E

Explanation:

In the Product-Specific Configuration Phase within SAP Central Business Configuration, several key activities can be performed to tailor the SAP S/4HANA Cloud system to meet specific business needs:

* Add new sales organizations: This activity involves setting up new sales organizations within the system, defining the structure of the sales department, and aligning it with the company's sales strategies and territories. This setup is crucial for managing sales processes, customer relationships, and sales reporting.

* Change approval thresholds: Modifying approval thresholds is an essential configuration activity that adjusts the approval limits for various transactions, ensuring that the approval process aligns with the company's internal control and governance policies. This can involve setting different thresholds for purchase orders, expense approvals, and other financial transactions.

* Add blocking reasons for billing: This configuration activity allows the company to define specific reasons for blocking billing documents, ensuring that billing does not proceed under certain conditions until the issues are resolved. This is critical for maintaining accurate and compliant billing processes.

These activities are part of the detailed configuration work that tailors the SAP S/4HANA Cloud system to the specific operational needs of the business, ensuring that the software supports the company's unique processes and policies.

NEW QUESTION # 43

Which of the following are examples of indirect digital access? Note: There are 2 correct answers to this question.

- A. A Defect document created through an industry application
- B. A Time Sheet Record from a 3rd party application
- C. A Production Order created through a non-SAP front-end
- D. An unattended bot in SAP Build Process Automation

Answer: B,C
