Furthermore, SPLK-2003 exam dump are high-quality, since we have experienced professionals to edit and verify them. We offer you free demo for you to have a try before buying SPLK-2003 Exam Braindumps, so that you can have a deeper understanding of what you are going to buy. You can enjoy free update for

one year for SPLK-2003 exam dumps, and the update version for SPLK-2003 exam dumps will be sent to your email automatically.

Splunk Phantom Certified Admin Sample Questions (Q111-Q116):

NEW QUESTION # 111
Which of the following can be edited or deleted in the Investigation page?

- A. Artifact values
- B. Action results
- C. Approval records
- D. Comments

Answer: D

Explanation:
On the Investigation page in Splunk SOAR, users have the ability to edit or delete comments associated with an event or a container. Comments are generally used for collaboration and to provide additional context to an investigation. While action results, approval records, and artifact values are typically not editable or deletable to maintain the integrity of the investigative data, comments are more flexible and can be managed by users to reflect the current state of the investigation.
Investigation page allows you to view and edit various information and data related to an event or a case. One of the things that you can edit or delete in the Investigation page is the comments that you or other users have added to the activity feed. Comments are a way of communicating and collaborating with other users during the investigation process. You can edit or delete your own comments by clicking on the three-dot menu icon next to the comment and selecting the appropriate option. You can also reply to other users' comments by clicking on the reply icon.

NEW QUESTION # 112
What values can be applied when creating Custom CEF field?

- A. Name
- B. Name, Data Type
- C. Name, Data Type, Severity
- D. Name, Value

Answer: B

Explanation:
Explanation
Custom CEF fields can be created with a name and a data type. The name must be unique and the data type must be one of the following: string, int, float, bool, or list. The severity is not a valid option for custom CEF fields. See Creating custom CEF fields for more details.

NEW QUESTION # 113
A filter block with only one condition configured which states: artifact.*.cef .sourceAddress !- , would permit which of the following data to pass forward to the next block?

- A. Null IP addresses
- B. Non-null destinationAddresses
- C. Null values
- D. Non-null IP addresses

Answer: D

Explanation:
A filter block with only one condition configured which states: artifact.*.cef .sourceAddress !-, would permit only non-null IP addresses to pass forward to the next block. The !-operator means
"is not null". The other options are not valid because they either include null values or other fields than sourceAddress. See Filter block for more details. A filter block in Splunk SOAR that is configured with the condition artifact.*.cef.sourceAddress != (assuming the intention was to use

"!=" to denote 'not equal to') is designed to allow data that has non-null sourceAddress values to pass through to subsequent blocks. This means that any artifact data within the container that includes a sourceAddress field with a defined value (i.e., an actual IP address) will be permitted to move forward in the playbook. The filter effectively screens out any artifacts that do not have a source address specified, focusing the playbook's actions on those artifacts that contain valid IP address information in the sourceAddress field.

NEW QUESTION # 114
What is the default embedded search engine used by Phantom?

- A. Embedded Phantom search engine.
- B. Embedded Django search engine.
- C. Embedded Elastic search engine.
- D. Embedded Splunk search engine.

Answer: C

NEW QUESTION # 115
Which of the following applies to filter blocks?

- A. Can select which blocks have access to container data.
- B. Can select assets by tenant, approver, or app.
- C. Can select containers by seventy or status.
- D. Can be used to select data for use by other blocks.

Answer: A

NEW QUESTION # 116
.....

Before you choose to end your practices of the SPLK-2003 study materials, the screen will display the questions you have done, which help you check again to ensure all questions of SPLK-2003 practice prep are well finished.
