

Salesforce-Slack-Administrator權威認證 - Salesforce-Slack-Administrator證照

P.S. VCESoft在Google Drive上分享了免費的、最新的Salesforce-Slack-Administrator考試題庫：<https://drive.google.com/open?id=1zJH3alGeH-P4IWfzMoka6P24WzvVTkf>

你想参加Salesforce的Salesforce-Slack-Administrator认证考试吗？你身边肯定有很多人参加过这个考试了吧？因为这是一个很重要的考试，如果取得这个考试的认证资格，你将可以得到很多的好处。那麼，你想別人請教怎樣通過考試的方法了嗎？準備考試的方法有很多種，但是最高效的方法是用一個好的工具。那麼對你來說什麼才是好的工具呢？當然是VCESoft的Salesforce-Slack-Administrator考古題了。

Salesforce Salesforce-Slack-Administrator 考試大綱：

主題	簡介
主題 1	• Workspace Administration: This domain assesses the competencies of Salesforce administrators in creating and managing Slack workspaces to meet organizational needs. Candidates will determine when a new workspace should be created and manage the approval process for workspace creation.
主題 2	• Channel and User Group Administration: This section measures the skills of Salesforce Administrators in setting up and managing Slack channels. Candidates will learn when to use channels versus direct messages or group DMs, as well as when to opt for public or private channels.
主題 3	• Enabling Slack Success: This section focuses on the skills of Admins to develop a vision for Slack within their organization. Candidates will use analytics dashboards to track usage and make recommendations based on data insights, such as channel archival or promoting best practices.
主題 4	• App Administration: This section evaluates the skills of Slack Administrators in managing applications within Slack. Candidates will summarize the value of interoperability for both decision-makers and end-users while learning to use Workflow Builder for automating tasks.

- Security: This domain targets Salesforce Security specialists in identifying Slack product security features that meet organizational needs. Candidates will describe how Slack addresses security governance, risk management, and compliance while recommending features that protect sensitive data.

Salesforce-Slack-Administrator證照，Salesforce-Slack-Administrator認證考試

你已經報名參加了Salesforce-Slack-Administrator認證考試嗎？是不是面對一大堆的復習資料和習題感到頭痛呢？VCESoft可以幫您解決這一問題，它絕對是你可以信賴的網站！只要你選擇使用VCESoft網站提供的資料，絕對可以輕鬆通過考試，與其花費時間在不知道是否有用的復習資料上，不如趕緊來體驗VCESoft帶給您的服務，還在等什麼趕緊行動吧。

最新的 Salesforce Administrator Salesforce-Slack-Administrator 免費考試真題 (Q84-Q89):

問題 #84

Andrew is a Workspace Owner and head of HR for a government agency in Munich, Germany. As the head of HR, he manages all aspects of human resources in order to create an engaged workforce and resilient organization.

The HR teams use a variety of technologies, and leadership is implementing a new integrated tool to improve collaboration and productivity. While the tool has many benefits, the adoption rate has been slow due to a lack of internal awareness.

Andrew wants to convince leadership that he needs internal Slack advocates who can lead and support co-workers through the transition. He has a few people in mind who he would nominate as Champions.

Which options appropriately describe Champions? (Choose all that apply.)

- A. They actively communicate and promote transparency to reinforce the purpose and value of the tool.
- B. They model best practices, and they can rally the team toward common goals.
- C. They are Slack Administrators, so they have the correct permissions to help the company manage change.
- D. They identify and implement key use cases for the tool and modify them over time to improve the team's workflows.

答案：A,B,D

解題說明：

Slack Champions are:

"Advocates who model best practices, promote transparency, identify key use cases, and adapt workflows to improve team effectiveness. Champions do not need to be administrators - their main role is to drive cultural adoption." Option A is incorrect because being a Slack Administrator is not a requirement to be a Champion.

-

問題 #85

You're an Org Admin working on your Slack Enterprise Grid design. You expect a high volume of new workspace requests, and all requests will require admin review.

What should you do to manage this process?

(Select the best answer.)

- A. Turn off the workspace request process, and require users to direct message (DM) their workspace admin.
- B. Allow all users to request new workspaces, and route the requests into an admin channel where admins can action the requests as a team.
- C. Allow all users to request new workspaces, and manually route requests to the correct admin via direct message (DM).
- D. Turn off the workspace request process, and create a private channel. Only add members who you want to request new workspaces.

答案：B

解題說明：

The best practice outlined in Slack Enterprise Grid documentation:

"Enable workspace creation requests, so users can request new workspaces that will be routed to Org Admins via an internal channel for review and approval." This approach scales better for high-volume requests, allowing multiple admins to track and approve them efficiently from a centralized channel, rather than relying on manual direct messages.

(Reference: Slack Administration Study Guide - Enterprise Grid Workspace Management)

-

問題 #86

You're an Org Admin for your Slack Enterprise Grid org.

Three departments must collaborate while maintaining access controls.

How should users be onboarded into discrete workspaces while maintaining access limits?

- A. Direct users in those departments to self-manage their memberships via invite requests.
- **B. Connect an identity provider (IdP) group to appropriate workspaces to control membership.**
- C. Create a workflow to manage workspace access requests, and add users manually to the correct workspace upon approval.
- D. Allow users to join the workspaces at their own direction.

答案： B

解題說明：

Slack guidance for secure workspace onboarding states:

"Connecting IdP groups to workspaces allows for automatic membership management based on department or role, ensuring compliance and security." Manual workflows (A) and self-management options (B, D) are insecure for a regulated environment like financial services.

(Reference: Slack Administration Study Guide - Using IdP Groups for Workspace Management)

-

問題 #87

Chandler, who works for Truck Inc, is in charge of developing a new certification program for Truck Inc's drivers. Chandler will be working with a small team of 4 employees, and details of the program must be kept private from the drivers. They are currently using a group direct message to plan the certification program, but some people on the team will be going on vacation soon, and new members will be replacing them.

What should Chandler do next?

- **A. Convert the group DM to a private channel, and then invite the new members.**
- B. Continue using the group DM, and invite the new members to it.
- C. Start a new group DM with only the new members of the team.
- D. Create a public channel for coordination, but continue using group DMs, and DMs for content that needs to stay private.

答案： A

解題說明：

Slack documentation advises:

"Group DMs cannot be expanded to include or replace members after they are created. If you need to manage membership over time, you should create a private channel." Converting the group DM into a private channel allows Chandler to maintain privacy, manage membership changes, and centralize discussions securely.

(Reference: Slack Administration Study Guide - Private Channels vs. Group DMs)

-

問題 #88

You're a Workspace Admin for a workspace where members are working on three specific projects.

When members create new channels, you want to ensure it's clear which project the new channel is associated with.

What is the best way to do so?

- A. Ask members to include the project name in the channel description upon channel creation.

- B. Create a naming convention for each of the three projects, and add them as default channel naming prefixes.
- C. Create a spreadsheet that maps each channel to its project, and pin it to the #general channel.
- D. Install an app from the Slack app directory that automatically updates channel topics based on predefined criteria.

答案：B

解題說明：

Slack best practices for organized workspaces state:

"Establishing and enforcing naming conventions helps members easily identify the purpose of a channel at a glance and maintain workspace organization." Apps (A) aren't necessary for simple naming. Asking for descriptions (B) is unreliable. Spreadsheets (C) are cumbersome and not visible at channel creation.

(Reference: Slack Administration Study Guide - Best Practices for Channel Naming)
