

1z0-1080-25 New Braindumps Ebook & Valid Test 1z0-1080-25 Vce Free

What's more, part of that RealValidExam 1z0-1080-25 dumps now are free: <https://drive.google.com/open?id=1k6eivOx7GDNnGXUNDiJBKyNdd-35vCu>

Everyone has a utopian dream in own heart. Dreams of imaginary make people feel disheartened. In fact, as long as you take the right approach, everything is possible. You can pass the Oracle 1z0-1080-25 Exam easily. Why? Because you have RealValidExam's Oracle 1z0-1080-25 exam training materials. RealValidExam's Oracle 1z0-1080-25 exam training materials are the best training materials for IT certification. It is famous for the most comprehensive and updated by the highest rate. It also can save time and effort. With it, you will pass the exam easily. If you pass the exam, you will have the self-confidence, with the confidence you will succeed.

Oracle 1z0-1080-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Import and export data into Planning: This section of the exam measures the skills of a Planning Administrator and covers the process of moving planning data into and out of the system.
Topic 2	<ul style="list-style-type: none">• Introduction to Planning Modules: This section of the exam measures the skills of an EPM Consultant and introduces the available Planning modules, their integration, and use cases.
Topic 3	<ul style="list-style-type: none">• Design business rules and rulesets: This section of the exam measures the skills of an EPM Consultant and focuses on creating logic structures to perform calculations and automate processes in Planning.
Topic 4	<ul style="list-style-type: none">• Import and export metadata into Planning: This section of the exam measures the skills of a Planning Administrator and involves understanding how to bring metadata in and out of Planning applications.
Topic 5	<ul style="list-style-type: none">• Describe Planning features: This section of the exam measures the skills of an EPM Consultant and focuses on recognizing key Planning features that help organizations manage and analyze financial data efficiently.
Topic 6	<ul style="list-style-type: none">• Manage Rules: This section of the exam measures the skills of an EPM Consultant and covers designing and managing business logic using rules and rulesets to automate calculations.
Topic 7	<ul style="list-style-type: none">• Explain required and user-defined dimensions; how dimension hierarchies impact Planning
Topic 8	<ul style="list-style-type: none">• Create and manage navigation flows: This section of the exam measures the skills of an EPM Consultant and involves organizing navigation flows to simplify user interaction in Planning.
Topic 9	<ul style="list-style-type: none">• Set up and run data maps: This section of the exam measures the skills of a Planning Administrator and focuses on configuring and executing data maps to move data across plan types or applications.

Topic 10	<ul style="list-style-type: none"> • Creating System Reports: This section of the exam measures the skills of a Planning Administrator and focuses on system-generated reports that provide insights into application activity.
Topic 11	<ul style="list-style-type: none"> • Provision users and groups. This section of the exam measures the skills of a Planning Administrator and covers how to manage user access by assigning them to appropriate roles and groups.
Topic 12	<ul style="list-style-type: none"> • Design forms and dashboards: This section of the exam measures the skills of an EPM Consultant and covers designing planning input forms and visual dashboards to support decision-making.
Topic 13	<ul style="list-style-type: none"> • Create Reports: This section of the exam measures the skills of a Planning Administrator and involves creating reports that summarize planning activities and outcomes.
Topic 14	<ul style="list-style-type: none"> • Set up Planning and FreeForm Applications: This section of the exam measures the skills of a Planning Administrator and involves setting up Planning applications, including FreeForm apps, to support flexible planning and modeling needs.
Topic 15	<ul style="list-style-type: none"> • Manage Dimensions: This section of the exam measures the skills of a Planning Administrator and covers how to manage essential dimensions and hierarchies that organize planning data.
Topic 16	<ul style="list-style-type: none"> • Describe Planning modules: This section of the exam measures the skills of an EPM Consultant and includes identifying different modules like Financials, Workforce, Projects, and Capital.
Topic 17	<ul style="list-style-type: none"> • Map data across applications: This section of the exam measures the skills of an EPM Consultant and includes how to map and align data structures between Planning and other connected applications.
Topic 18	<ul style="list-style-type: none"> • Report on Planning Data: This section of the exam measures the skills of a Planning Administrator and focuses on generating reports to analyze and present Planning data effectively.
Topic 19	<ul style="list-style-type: none"> • Planning Overview: This section of the exam measures the skills of an EPM Consultant and covers the general features of Planning. It includes how Planning works, its core capabilities, and how it fits into enterprise performance management.
Topic 20	<ul style="list-style-type: none"> • This section of the exam measures the skills of a Planning Administrator and includes understanding how standard and custom dimensions are used, and how dimension hierarchies affect planning structure and outcomes.
Topic 21	<ul style="list-style-type: none"> • Report on EPM data: This section of the exam measures the skills of a Planning Administrator and covers using reporting tools to analyze data stored in EPM applications.
Topic 22	<ul style="list-style-type: none"> • Assign access permissions to artifacts and cells in Planning: This section of the exam measures the skills of a Planning Administrator and involves granting permissions to users for accessing specific Planning objects and data.
Topic 23	<ul style="list-style-type: none"> • Set up valid and invalid intersections and cell-level security: This section of the exam measures the skills of an EPM Consultant and focuses on defining valid data intersections and applying security controls to limit data access at the cell level.

The most attractive thing about a learning platform is not the size of his question bank, nor the amount of learning resources, but more importantly, it is necessary to have a good control over the annual propositional trend. The 1z0-1080-25 quiz guide through research and analysis of the annual questions, found that there are a lot of hidden rules are worth exploring, plus we have a powerful team of experts, so the rule can be summed up and use. The 1z0-1080-25 prepare torrent can be based on the analysis of the annual questions, it is concluded that a series of important conclusions related to the 1z0-1080-25 qualification examination,

combining with the relevant knowledge of recent years, then predict the direction which can determine this year's 1z0-1080-25 exam. 1z0-1080-25 test material will improve the ability to accurately forecast the topic and proposition trend this year.

Oracle Planning 2025 Implementation Professional Sample Questions (Q117-Q122):

NEW QUESTION # 117

In Financials, you can leverage out-of-the-box calculations to aggregate and prepare actual, plan, and forecast data. Which calculation rule would you run to update reports or analyze data at various levels of the business hierarchy?

- A. Prepare Plans
- B. Prepare Forecast
- C. Calculate Actuals
- D. Rollup

Answer: D

NEW QUESTION # 118

Your administrator wants to create a Planning application with EPM Enterprise Cloud.

Which three Planning application types can you select when creating an application with EPM Enterprise Cloud?

- A. Modules
- B. Free Form
- C. Plan
- D. Hybrid
- E. Custom

Answer: A,B,E

Explanation:

When creating a Planning application with EPM Enterprise Cloud in Oracle Planning 2024, administrators can select from specific application types. The three available types are:

- * A. Modules: Correct. The Modules type allows creating a preconfigured application with options like Financials, Workforce, or Capital, tailored to specific planning needs.
- * B. Plan: Incorrect. "Plan" is not a distinct application type; it's a generic term for planning, not an option in the creation wizard.
- * C. Free Form: Correct. Free Form provides a blank slate for custom cube design without predefined structures, offering maximum flexibility.
- * D. Hybrid: Incorrect. "Hybrid" is not an application type in EPM Enterprise Cloud; it may refer to Essbase configurations, not Planning application creation.
- * E. Custom: Correct. Custom allows building an application with user-defined dimensions and structures, distinct from Modules' prebuilt options.

The Oracle documentation lists Modules, Free Form, and Custom as the selectable types in EPM Enterprise Cloud, making A, C, and E the correct answers.

Oracle EPM Cloud Documentation: "Application Types in EPM Enterprise Cloud" (docs.oracle.com, Published 2023-11-25, updated for 2024).

NEW QUESTION # 119

Which client or tool uses Smart Push on forms to move data from source cubes to reporting cubes to consolidate data?

- A. Data Integration
- B. Data Maps
- C. EPM Automate
- D. Business Rules

Answer: B

NEW QUESTION # 120

What feature can Service Administrators use to automatically complete all the actions required to create an exact copy of the current application in a target environment?

This includes the removal of the current application and data, if any, from the target environment.

- A. Replicate Snapshot
- B. Migration Backup
- **C. Clone Snapshot**
- D. Migration Export

Answer: C

Explanation:

In Oracle Planning 2024, Service Administrators can use the Clone Snapshot feature to create an exact copy of the current application in a target environment. This feature automates all actions required for cloning, including removing the existing application and data in the target environment (if any) and replacing it with a snapshot of the source environment. The process involves exporting a snapshot from the source, deleting the target environment's current application and data, and then importing and applying the snapshot to recreate the application identically.

* A. Replicate Snapshot: This is incorrect because "Replicate Snapshot" is not a defined feature in Oracle Planning. Replication typically implies duplicating data without necessarily overwriting the target, which doesn't align with the requirement of removing existing content.

* B. Migration Export: This is incorrect because Migration Export only exports application artifacts (e.g., metadata, data) to a file for manual transfer or backup, but it does not automate the removal of the target environment's content or the import process.

* C. Clone Snapshot: This is correct. The Clone Snapshot feature, available under the Environment management tools, fully automates the cloning process, including deletion of the target environment's application and data, followed by the recreation of the source application.

* D. Migration Backup: This is incorrect because Migration Backup creates a backup file for recovery purposes but does not involve cloning or overwriting a target environment.

The Oracle Planning 2024 documentation specifies that Clone Snapshot is designed for such end-to-end automation, making it the ideal choice for Service Administrators to replicate an application across environments efficiently.

NEW QUESTION # 121

You want to share detailed benefits data from Workforce with Financials. Which set of steps must you perform?

- A. Enable and configure Financials and Workforce. When enabling Workforce, create a custom Benefits dimension to which to map the data. Then for the Financial Statement Integration data map, synchronize and push the data.
- B. Enable and configure Financials and Workforce. Then to capture Workforce expenses for employees, enable Standard Rates from Workforce. For the Compensation Data for Reporting data map, synchronize and then push the data.
- **C. Enable and configure Financials and Workforce. Then in Workforce Benefits and Taxes, select a financial account to which to map the benefit. For Compensation Data, synchronize and run the data map.**
- D. Enable and configure Financials and Workforce. When enabling Financials, create a custom Benefits O dimension to which to map the data. On the Financials Integration Summary form, run Calculate Compensation to update the Workforce data.

Answer: C

NEW QUESTION # 122
