

Real HPE7-J02 Dumps Free, New HPE7-J02 Braindumps Questions

DOWNLOAD the newest Prep4away HPE7-J02 PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=1gE3eLCp4iA38oIFG__nRe1zMp0plkLLQ

We understand our candidates have no time to waste, everyone wants an efficient learning. So we take this factor into consideration, develop the most efficient way for you to prepare for the HPE7-J02 exam, that is the real questions and answers practice mode, firstly, it simulates the real Advanced HPE Storage Integrator Solutions Written Exam test environment perfectly, which offers greatly help to our customers. Secondly, it includes printable PDF Format, also the instant access to download make sure you can study anywhere and anytime. All in all, high efficiency of HPE7-J02 Exam Material is the reason for your selection.

Our company has successfully launched the new version of the HPE7-J02 study materials. Perhaps you are deeply bothered by preparing the HPE7-J02 exam. Now, you can totally feel relaxed with the assistance of our HPE7-J02 study materials. Our products are reliable and excellent. What is more, the passing rate of our HPE7-J02 Study Materials is the highest in the market. Purchasing our HPE7-J02 study materials means you have been half success. Good decision is of great significance if you want to pass the HPE7-J02 exam for the first time.

High Pass-Rate Real HPE7-J02 Dumps Free | 100% Free New HPE7-J02 Braindumps Questions

With all the information, we can say that your focus should be on real HP HPE7-J02 questions of Prep4away to clear the Advanced HPE Storage Integrator Solutions Written Exam (HPE7-J02) test. Three formats of the HPE7-J02 exam dumps shall collectively contribute to your success in this regard. In addition, this HPE7-J02 prep material comes with up to 365 days of free HP Dumps updates and a free demo.

HP HPE7-J02 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Monitoring and Telemetry: This section examines the skills of Cloud Operations Specialists in using HPE or third-party management tools to monitor customer telemetry. Candidates must configure alerts, analyze logs, and evaluate reports to identify SLA trends, outages, and performance issues.
Topic 2	<ul style="list-style-type: none">• Planning and Validating Storage Solutions: This section assesses the role of Storage Consultants in evaluating complex, multi-vendor environments. Candidates will demonstrate their ability to plan, size, and validate storage solutions tailored for enterprise workloads, ensuring proposals meet customer requirements effectively.
Topic 3	<ul style="list-style-type: none">• Advanced Troubleshooting and Prevention: This section focuses on the ability of Support Engineers to identify root causes of issues and implement advanced preventive measures. It emphasizes building resilience in customer environments to minimize future disruptions.
Topic 4	<ul style="list-style-type: none">• Remote Support Configuration: This small but important section tests the ability of System Administrators to configure HPE solutions for remote support, ensuring proactive monitoring and timely resolution of technical issues.

HP Advanced HPE Storage Integrator Solutions Written Exam Sample Questions (Q42-Q47):

NEW QUESTION # 42

Your customer has expressed an interest in an HPE CloudPhysics assessment of their environment. They would like to know what to expect from this process.

Which of the following statements is true of a CloudPhysics assessment?

- A. The assessment period lasts for 5 business days.
- B. An auto-generated token from HPE is required to view the results.
- C. Your customer can only access a partial view of the results.
- **D. Some assessment results are visible in only 2 hours.**

Answer: D

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

HPE CloudPhysics begins collecting performance and capacity data immediately after deployment of the Observer VM/collector. Some initial assessment results (e.g., environment inventory, early utilization stats) can be visible within 2 hours, while deeper trending insights require longer data collection (days/weeks).

Distractors:

B: Tokens are not required for customers to view results; reports are available via the portal.

C: Customers get a full dashboard view of results, not partial.

D: Assessments can run for longer periods (days-weeks), not fixed at 5 days.

Key Concept: CloudPhysics delivers initial insights within hours.

Reference: HPE CloudPhysics Technical Overview.

NEW QUESTION # 43

A junior engineer doing their first assessment makes the comment that all assessments are basically done "entirely by the assessment tool" and all they must do is start the process in the HPE website. You caution them that some assessment tools require a manual email by the engineer to HPE to really start the process. Which type of assessments require an email?

- A. SAF
- B. Non-HPE
- C. Backup
- D. CloudPhysics

Answer: A

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

The SAF (Storage Assessment Framework) requires engineers to manually email the collected assessment data to HPE for processing. This is different from fully automated tools like CloudPhysics or Backup assessments that integrate directly with portals. This distinction is important for new engineers performing customer assessments.

Distractors:

A: Backup assessments are usually tool-driven (StoreOnce, RMC, etc.) and automated.

C: Non-HPE assessments are outside scope and not part of HPE standard process.

D: CloudPhysics is fully automated and cloud-based - no manual email required.

Key Concept: SAF = requires manual email submission to HPE.

Reference: HPE Internal Assessment and Sizing Tools Guide.

NEW QUESTION # 44

A customer is replacing their HPE 3PAR 8200 Peer Persistence setup with Alletra 6000. In a recent audit, they were warned that the Quorum Witness VM was missing security updates. How would you respond regarding the new setup?

- A. Quorum witness appliance can be set to automatically download and apply available updates.
- B. Quorum witness is installed as a service on a supported Linux server, which can be updated as needed.
- C. Quorum witness is deployed as a SaaS option, and security updates are applied automatically.
- D. Quorum witness appliance security patch updates follow the array release train updates.

Answer: C

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

With Alletra and Primera Peer Persistence, the Quorum Witness is no longer a self-hosted VM. It is delivered as a cloud-based SaaS service managed by HPE. This eliminates customer responsibility for patching and ensures HPE automatically applies updates and security fixes. This resolves the audit concern.

Distractors:

A: Applies to older 3PAR environments, not Alletra/Primera.

C/D: Quorum Witness is no longer an appliance - it is SaaS managed, so these don't apply.

Key Concept: Alletra Quorum Witness is SaaS-managed, removing patching responsibility.

Reference: HPE Alletra Peer Persistence and Cloud Quorum Witness Guide.

NEW QUESTION # 45

Your customer has just gone through a merger and is consolidating datacenters. They are currently using a mix of manufacturers. They are evaluating whether to consolidate on HPE as their new standard. You are helping them size their new virtualized environment.

What additional information do you need to decide on an assessment tool?

- A. If they are only purchasing in a CapEx model
- B. If any equipment has expired support contracts
- C. If they are using AWS or Azure public cloud storage

- D. If they are virtualized on VMware or Hyper-V

Answer: D

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

The choice of assessment tool (e.g., HPE CloudPhysics for VMware vs. CloudPhysics.vhdx collector for Hyper-V) depends primarily on the virtualization platform in use. VMware and Hyper-V require different collectors, and this is the deciding factor for tool selection.

Distractors:

A: Public cloud use matters for hybrid sizing but not for tool selection.

C: Expired contracts are unrelated to tool choice.

D: Procurement model (CapEx vs. GreenLake) is separate from sizing assessment.

Key Concept: Assessment tool choice = based on hypervisor platform (VMware vs Hyper-V).

Reference: HPE CloudPhysics Assessment Guide.

NEW QUESTION # 46

While attempting to increase an upstream volume size for an Alletra 6000 Peer Persistence setup from local web management, you are facing an error that prevents you from completing the task.

Which action is required to complete the task successfully?

- A. Remove the downstream volume, volume collection before increasing the upstream volume.
- B. Remove the upstream volume, volume collection before increasing the upstream volume.
- C. Use the Data Services Cloud Console to grow the upstream volume.
- D. Increase the size of the volume in VMware HPE Storage plugin.

Answer: C

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

In Alletra 6000 Peer Persistence environments, operations like resizing Peer Persistence volumes must be performed via the HPE Data Services Cloud Console (DSCC), which manages volume collections and replication consistency groups. Attempting to grow the upstream volume locally will fail because the changes need to propagate across both sites consistently.

Distractors:

A/B: Removing upstream or downstream volumes would break replication and is not required.

D: Expanding in VMware only extends the VMFS datastore, not the underlying replicated volume.

Key Concept: Peer Persistence volume resizing is done in DSCC, not local web GUI.

Reference: HPE Alletra 6000 Peer Persistence Configuration and Management Guide.

NEW QUESTION # 47

.....

Before making a final purchase, Prep4away customers can try the features of the HPE7-J02 practice material with a free demo. If a customer purchases our HPE7-J02 exam preparation material, we will provide them with Free HPE7-J02 Exam Questions updates for up to 1 year. If the HPE7-J02 certification test content changes after your purchase within 1 year, you will instantly get free real questions updates.
