

# Google Professional-Cloud-Security-Engineer Practice Test Online Exam | Best Way to Pass Google Professional-Cloud-Security-Engineer

What's more, part of that Easy4Engine Professional-Cloud-Security-Engineer dumps now are free: <https://drive.google.com/open?id=169UmD7GAYxdnB7YSCFtkcVGX4q6zYn5S>

The online version of Professional-Cloud-Security-Engineer study materials are based on web browser usage design and can be used by any browser device. The first time you open Professional-Cloud-Security-Engineer study materials on the Internet, you can use it offline next time. Professional-Cloud-Security-Engineer study materials do not need to be used in a Wi-Fi environment, and it will not consume your traffic costs. You can practice with Professional-Cloud-Security-Engineer study materials at anytime, anywhere. On the other hand, the online version has a timed and simulated exam function. You can adjust the speed and keep vigilant by setting a timer for the simulation test. At the same time online version of Professional-Cloud-Security-Engineer Study Materials also provides online error correction—Through the statistical reporting function, it will help you find the weak links and deal with them. Of course, you can also choose two other versions. The contents of the three different versions of Professional-Cloud-Security-Engineer study materials are the same and all of them are not limited to the number of people/devices used at the same time.

The Easy4Engine team is updating the Google Professional-Cloud-Security-Engineer study material according to the changes in the syllabus on daily basis. The users will receive Professional-Cloud-Security-Engineer updates for 365 days so they can prepare according to the updated content. The 24/7 support system has been made for customers to solve their problems and serve them in the best possible ways in order to pass the Google Cloud Certified - Professional Cloud Security Engineer Exam (Professional-Cloud-Security-Engineer) certification exam on the first try!

# Practice Professional-Cloud-Security-Engineer Exam Online, Professional-Cloud-Security-Engineer Exam Simulator Online

In order to meet the demand of most of the IT employees, Easy4Engine's IT experts team use their experience and knowledge to study the past few years Google certification Professional-Cloud-Security-Engineer exam questions. Finally, Easy4Engine's latest Google Professional-Cloud-Security-Engineer simulation test, exercise questions and answers have come out. Our Google Professional-Cloud-Security-Engineer simulation test questions have 95% similarity answers with real exam questions and answers, which can help you 100% pass the exam. If you do not pass the exam, Easy4Engine will full refund to you. You can also free online download the part of Easy4Engine's Google Certification Professional-Cloud-Security-Engineer Exam practice questions and answers as a try. After your understanding of our reliability, I believe you will quickly add Easy4Engine's products to your cart. Easy4Engine will achieve your dream.

## Google Cloud Certified - Professional Cloud Security Engineer Exam Sample Questions (Q169-Q174):

### NEW QUESTION # 169

Your organization wants to be continuously evaluated against CIS Google Cloud Computing Foundations Benchmark v1 3 0 (CIS Google Cloud Foundation 1 3). Some of the controls are irrelevant to your organization and must be disregarded in evaluation. You need to create an automated system or process to ensure that only the relevant controls are evaluated.

What should you do?

- A. Mark all security findings that are irrelevant with a tag and a value that indicates a security exception Select all marked findings and mute them on the console every time they appear Activate Security Command Center (SCC) Premium
- B. Download all findings from Security Command Center (SCC) to a CSV file Mark the findings that are part of CIS Google Cloud Foundation 1 3 in the file Ignore the entries that are irrelevant and out of scope for the company.
- C. Ask an external audit company to provide independent reports including needed CIS benchmarks. In the scope of the audit clarify that some of the controls are not needed and must be disregarded.
- D. **Activate Security Command Center (SCC) Premium** Create a rule to mute the security findings in SCC so they are not evaluated.

### Answer: D

Explanation:

\* Activate Security Command Center (SCC) Premium: Security Command Center (SCC) Premium provides advanced security analytics and best practice recommendations for your Google Cloud environment. It includes functionalities such as asset discovery, vulnerability scanning, and security findings.

\* Create a Custom Rule to Mute Irrelevant Security Findings:

\* Navigate to the Security Command Center (SCC) in the Google Cloud Console.

\* Go to the "Settings" tab and find the "Mute findings" section.

\* Create a new mute rule by specifying the conditions that match the irrelevant controls you want to disregard. These conditions can be based on attributes such as resource type, finding type, and other metadata.

\* Apply this mute rule, which will ensure that the specified findings are not evaluated in your security posture assessments.

\* Ensure Continuous Compliance Monitoring:

\* The mute rules will automatically filter out the irrelevant findings, ensuring that only relevant controls from the CIS Google Cloud Computing Foundations Benchmark v1.3.0 are evaluated.

\* Regularly review and update the mute rules to adapt to any changes in your compliance requirements or security posture.

\* Security Command Center Documentation

\* Creating and Managing Mute Rules

### NEW QUESTION # 170

In a shared security responsibility model for IaaS, which two layers of the stack does the customer share responsibility for? (Choose two.)

- A. Network Security
- B. Boot
- C. **Access Policies**
- D. Hardware
- E. Storage Encryption

**Answer: C,E**

### **NEW QUESTION # 171**

You are auditing all your Google Cloud resources in the production project. You want to identify all principals who can change firewall rules.

What should you do?

- A. Use Policy Analyzer to query the permissions compute, firewalls, get of compute, firewalls, list.
- B. Reference the Security Health Analytics - Firewall Vulnerability Findings in the Security Command Center.
- C. Use Firewall Insights to understand your firewall rules usage patterns.
- D. Use Policy Analyzer to query the permissions compute, firewalls, create of compute, firewalls. Create of compute, firewalls.delete.

**Answer: D**

### **NEW QUESTION # 172**

An organization is migrating from their current on-premises productivity software systems to G Suite. Some network security controls were in place that were mandated by a regulatory body in their region for their previous on-premises system. The organization's risk team wants to ensure that network security controls are maintained and effective in G Suite. A security architect supporting this migration has been asked to ensure that network security controls are in place as part of the new shared responsibility model between the organization and Google Cloud.

What solution would help meet the requirements?

- A. Network security is a built-in solution and Google's Cloud responsibility for SaaS products like G Suite.
- B. Set up an array of Virtual Private Cloud (VPC) networks to control network security as mandated by the relevant regulation.
- C. Set up Cloud Armor to ensure that network security controls can be managed for G Suite.
- D. Ensure that firewall rules are in place to meet the required controls.

**Answer: A**

Explanation:

G Suite is SaaS application.

Shared responsibility "Security of the Cloud" - GCP is responsible for protecting the infrastructure that runs all of the services offered in the GCP Cloud. This infrastructure is composed of the hardware, software, networking, and facilities that run GCP Cloud services.

### **NEW QUESTION # 173**

A patch for a vulnerability has been released, and a DevOps team needs to update their running containers in Google Kubernetes Engine (GKE).

How should the DevOps team accomplish this?

- A. Verify that auto upgrade is enabled; if so, Google will upgrade the nodes in a GKE cluster.
- B. Use Puppet or Chef to push out the patch to the running container.
- C. Configure containers to automatically upgrade when the base image is available in Container Registry.
- D. Update the application code or apply a patch, build a new image, and redeploy it.

**Answer: D**

Explanation:

Explanation

<https://cloud.google.com/containers/security>

Containers are meant to be immutable, so you deploy a new image in order to make changes. You can simplify patch management by rebuilding your images regularly, so the patch is picked up the next time a container is deployed. Get the full picture of your environment with regular image security reviews.

## NEW QUESTION # 174

.....

As you can find that there are three versions of our Professional-Cloud-Security-Engineer exam questions: the PDF, Software and APP online. Among them, the Software version has the function to stimulate the exam which can help the learners be adjusted to the atmosphere, pace and environment of the Real Professional-Cloud-Security-Engineer Exam. So our Software version of our Professional-Cloud-Security-Engineer learning guide can help you learn the study materials and prepare for the test better if you already know all the information about the real exam.

**Practice Professional-Cloud-Security-Engineer Exam Online:** <https://www.easy4engine.com/Professional-Cloud-Security-Engineer-test-engine.html>

But for those people who are still looking for jobs, Professional-Cloud-Security-Engineer free download pdf can prove their ability, especially for those people who do not have high education, As an IT worker, you must be heard that Google certification dumps are high-quality and professional that need much time to prepare, It will take much time and energy if you failed to choose right Professional-Cloud-Security-Engineer dumps pdf, Many experts and professors consist of our design team, you do not need to be worried about the high quality of our Professional-Cloud-Security-Engineer test torrent.

And yet, I fear it will die a fast death, Notice Professional-Cloud-Security-Engineer that A sorts ascending and D sorts descending, But for those people who are still looking for jobs, Professional-Cloud-Security-Engineer free download pdf can prove their ability, especially for those people who do not have high education.

## High Pass-Rate Google Professional-Cloud-Security-Engineer Practice Test Online Are Leading Materials & Trustworthy Practice Professional-Cloud-Security-Engineer Exam Online

As an IT worker, you must be heard that Google certification dumps are high-quality and professional that need much time to prepare, It will take much time and energy if you failed to choose right Professional-Cloud-Security-Engineer Dumps PDF.

Many experts and professors consist of our design team, you do not need to be worried about the high quality of our Professional-Cloud-Security-Engineer test torrent, It may sound complicated, but once you go through Practice Professional-Cloud-Security-Engineer Exam Online regular study and intensive practice, passing the final exam would be a piece of cake.

This Google Professional-Cloud-Security-Engineer practice exam software is easily accessible on all Windows laptops and computers.
