## 810-110 Reliable Dumps - 810-110 Test Pattern

If you are going to take a 810-110 Exam, nothing can be more helpful than our 810-110 actual exam. Compared with other exam materials, you will definitely check out that our 810-110 real test can bring you the most valid and integrated content to ensure that what you study with is totally in accordance with the Real 810-110 Exam. And we give sincere and suitable after-sales service to all our customers to provide you a 100% success guarantee to pass your exams on your first attempt.

## Cisco AI Technical Practitioner Sample Questions (Q70-Q75):

### NEW QUESTION # 70

In supervised machine learning, what is required?

- A. Labeled datasets
- B. No data
- C. Only encrypted traffic
- D. Random hardware failures

**Answer: A**

### NEW QUESTION # 71

What is fine-tuning in generative AI?

- A. Training a pre-trained model on specialized data
- B. Encrypting prompts
- C. Replacing CPUs
- D. Formatting storage drives

**Answer: A**

Explanation:

Fine-tuning adapts a general AI model to specific domains or business use cases.

### NEW QUESTION # 72

Which factor should be considered when selecting a pre-trained model for a mobile application with limited local computational resources?

- A. parameter count of the model
- B. training duration of the model
- C. release frequency of the model
- D. response creativity level of the model

**Answer: A**

Explanation:

Parameter count affects model size, memory usage, and compute requirements, so a smaller model is usually more suitable for a mobile application with limited local resources.

### NEW QUESTION # 73

In supervised machine learning, what is required?

- A. Labeled datasets
- B. No data
- C. Only encrypted traffic
- D. Random hardware failures

**Answer: A**

Explanation:

Supervised learning trains models using labeled input-output pairs.

### NEW QUESTION # 74

Which Cisco platform provides AI-powered security analytics?

- A. Cisco Packet Tracer
- B. Cisco UCS Manager only
- C. Cisco SecureX
