

Get Success In Workday Workday-Prism-Analytics Exam With 2Pass4sure Quickly

2025 Latest 2Pass4sure Workday-Prism-Analytics PDF Dumps and Workday-Prism-Analytics Exam Engine Free Share:
https://drive.google.com/open?id=1JMwHqJxoLhP9nJ_yjJKUcm54vG8uYo1M

Workday Workday-Prism-Analytics exam materials of 2Pass4sure is developed in accordance with the latest syllabus. At the same time, we also constantly upgrade our training materials. So our exam training materials is simulated with the practical exam. So that the pass rate of 2Pass4sure is very high. It is an undeniable fact. Through this we can know that 2Pass4sure Workday Workday-Prism-Analytics Exam Training materials can brought help to the candidates. And our price is absolutely reasonable and suitable for each of the candidates who participating in the IT certification exams.

When you decide to pass Workday-Prism-Analytics exam, you must want to find a good study materials to help you prepare for your exam. It is evident to all that the Workday-Prism-Analytics test torrent from our company has a high quality all the time. A lot of people who have bought our products can agree that our Workday-Prism-Analytics Test Questions are very useful for them to get the certification. There have been 99 percent people used our Workday-Prism-Analytics exam prep that have passed their exam and get the certification, more importantly, there are signs that this number is increasing slightly.

Free PDF 2026 The Best Workday-Prism-Analytics: New Workday Pro Prism Analytics Exam Exam Pass4sure

With the help of the Workday-Prism-Analytics practice exam questions and preparation material offered by 2Pass4sure, you can pass any Workday-Prism-Analytics certifications exam in the first attempt. You don't have to face any trouble, and you can simply choose to do a selective Workday-Prism-Analytics brain dumps to pass the exam. We offer guaranteed success with Workday-Prism-Analytics Questions on the first attempt, and you will be able to pass the Workday-Prism-Analytics exam in short time. You can always consult our Workday-Prism-Analytics certified professional support if you are facing any problems.

Workday Pro Prism Analytics Exam Sample Questions (Q34-Q39):

NEW QUESTION # 34

You are loading data into a table using the Data Change task. The field type in the source file is Numeric and the table field type is Text. What can you do to load the data?

- A. Change the connection type for the data change task.
- B. Change the field type in the parsing stage from Numeric to Text.
- C. Map the Numeric field to the table Text field.
- D. Use a different source file, as the field types are incompatible.

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

In Workday Prism Analytics, the Data Change task is used to load data from a source file into a table, and it supports flexible field type mapping to accommodate differences between source and target field types.

According to the official Workday Prism Analytics study path documents, when the source file has a Numeric field type and the target table has a Text field type, you can map the Numeric field to the Text field in the Data Change task. Workday Prism Analytics automatically handles the conversion of Numeric values to Text during the data loading process, as Text fields can store Numeric values as strings without data loss.

The other options are not necessary or appropriate:

* A. Use a different source file, as the field types are incompatible: The field types are not incompatible; Prism supports mapping Numeric to Text, making a new source file unnecessary.

* C. Change the field type in the parsing stage from Numeric to Text: The parsing stage defines how the source file is interpreted, but changing the source field type is not required since the mapping handles the conversion.

* D. Change the connection type for the data change task: The connection type (e.g., file upload or Workday report) is unrelated to field type compatibility and does not address the issue.

By mapping the Numeric field to the Text field in the Data Change task, the data can be successfully loaded, leveraging Prism's built-in type conversion capabilities to ensure compatibility.

NEW QUESTION # 35

You are a new Prism customer and you want to ensure the correct set of fields is brought into a derived dataset. When should you apply a Manage Fields stage?

- A. At the beginning of the primary pipeline of the Base Dataset.
- **B. At the beginning of the Primary Pipeline of the derived dataset.**
- C. After the dataset is published.
- D. At the end of the Primary Pipeline of a published dataset.

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

In Workday Prism Analytics, a Manage Fields stage is used to control the fields in a dataset by renaming, hiding, or changing field types, among other actions. According to the official Workday Prism Analytics study path documents, to ensure the correct set of fields is brought into a derived dataset (DDS), the Manage Fields stage should be applied at the beginning of the Primary Pipeline of the derived dataset (option C).

Placing the Manage Fields stage early in the pipeline—right after the initial import stage (Stage 1)—allows you to define the field structure upfront, ensuring that subsequent transformation stages (e.g., Join, Filter, Calculate Field) operate on the desired set of fields. This approach helps maintain consistency and avoids unnecessary processing of fields that are not needed in later stages.

The other options are not optimal:

* A. After the dataset is published: You cannot add transformation stages like Manage Fields after a dataset is published; transformations must be applied during the dataset's creation or editing.

* B. At the end of the Primary Pipeline of a published dataset: Similar to option A, you cannot modify a published dataset's pipeline, and placing Manage Fields at the end would not prevent unnecessary fields from being processed in earlier stages.

* D. At the beginning of the primary pipeline of the Base Dataset: A Base Dataset does not have a transformation pipeline; it is a direct import of a table, so Manage Fields stages can only be applied in a Derived Dataset.

Applying the Manage Fields stage at the beginning of the derived dataset's Primary Pipeline ensures efficient data preparation and transformation.

NEW QUESTION # 36

A Prism data administrator is ready to create a Prism data source. As data is updated in Prism, the goal is to update the data in the Prism data source concurrently, enabling immediate incremental updates. How should the administrator create the Prism data source?

- A. Publish a derived dataset with the Prism: Default to Dataset Access Domain.
- **B. Create a table and select the Enable for Analysis checkbox.**
- C. Create a table and select Publish.
- D. Set Data Source Security on a derived dataset and select Publish.

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

In Workday Prism Analytics, creating a Prism data source that supports immediate incremental updates as data is updated in Prism requires a specific configuration. According to the official Workday Prism Analytics study path documents, the administrator should create a table and select the Enable for Analysis checkbox (option A). The "Enable for Analysis" option, when selected during table creation, allows the table to be used directly as a Prism data source with real-time updates. This setting ensures that as data in the table is updated (e.g., through a Data Change task), the changes are immediately reflected in the Prism data source, enabling incremental updates without the need for republishing. This is particularly useful for scenarios requiring near- real-time data availability in reporting or analytics.

The other options do not achieve the goal of immediate incremental updates:

- * B. Create a table and select Publish: Publishing a table creates a static Prism data source, but updates to the table require republishing, which does not support immediate incremental updates.
- * C. Publish a derived dataset with the Prism: Default to Dataset Access Domain: Publishing a derived dataset creates a data source, but updates to the underlying data require republishing the dataset, which is not concurrent or incremental.
- * D. Set Data Source Security on a derived dataset and select Publish: Setting security and publishing a derived dataset follows the same process as option C, requiring republishing for updates, which does not meet the requirement for immediate updates. Selecting the "Enable for Analysis" checkbox when creating a table ensures the Prism data source supports concurrent, incremental updates as data changes in Prism.

NEW QUESTION # 37

You want to use a custom report containing prompts as a source connection for a table. What must you ensure to make this possible?

- A. The prompts are marked as required.
- **B. The custom report prompts have default values assigned on the report definition.**
- C. The report is built on an indexed data source.
- D. The prompts are mapped at the data change task level.

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

In Workday Prism Analytics, when using a custom report with prompts as a source connection for a table, the custom report must be configured to ensure compatibility with the Prism data ingestion process. According to the official Workday Prism Analytics study path documents, the key requirement is that the custom report prompts have default values assigned in the report definition. This is necessary because Prism Analytics does not support interactive prompting during data ingestion. Default values ensure that the report can run automatically without requiring user input, allowing the Data Change task to retrieve the data consistently and load it into the target table.

The other options are not correct in this context:

- * A. The report is built on an indexed data source: While indexed data sources can enhance performance for certain reports, they are not a requirement for using a custom report as a source for a Prism table.
- * B. The prompts are mapped at the data change task level: Prompts are not mapped in the Data Change task; instead, the task relies on the report's default values to execute the data retrieval.
- * D. The prompts are marked as required: Marking prompts as required does not address the need for automatic execution; default values are still needed to avoid manual intervention.

By assigning default values to prompts in the custom report definition, the report can be seamlessly integrated as a source connection for Prism Analytics, ensuring reliable data loading into the table.

NEW QUESTION # 38

Using three different source files, you want to load rows of data into an empty table through a Data Change task. What needs to be the same about the three source files?

- **A. Schema**
- B. Naming convention
- C. Source
- D. Size

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

In Workday Prism Analytics, a Data Change task is used to load or update data into a table, which can involve importing data from multiple source files. According to the official Workday Prism Analytics study path documents, when loading rows from multiple source files into an empty table, the source files must share the same schema. The schema defines the structure of the data, including the column names, data types, and their order, which ensures that the data from all source files can be consistently mapped and loaded into the target table without errors.

The schema is critical because the Data Change task relies on a predefined table structure to process the incoming data. If the schemas of the source files differ (e.g., different column names or data types), the task will fail due to inconsistencies in data mapping. The other options are not required to be the same:

* Source: The source files can originate from different systems or locations (e.g., Workday, external systems, or file uploads) as long as the schema aligns.

* Naming convention: The names of the source files do not need to follow a specific convention for the Data Change task to process them.

* Size: The size of the source files (e.g., number of rows or file size) can vary, as the task processes the data based on the schema, not the volume.

Thus, the requirement for the source files to have the same schema ensures seamless data loading into the table, maintaining data integrity and consistency during the transformation process.

NEW QUESTION # 39

.....

Our Workday-Prism-Analytics practice prep is so popular and famous for it has the advantage that it can help students improve their test scores by improving their learning efficiency. Therefore, users can pass Workday-Prism-Analytics exams with very little learning time. For another example, there are some materials that apply to students with professional backgrounds that are difficult for some industry rookie to understand. But our Workday-Prism-Analytics Learning Materials are compiled to simple language for our customers to understand easily.

Test Workday-Prism-Analytics Questions Fee: <https://www.2pass4sure.com/Reporting-and-Analytics/Workday-Prism-Analytics-actual-exam-braindumps.html>

You can practice Workday-Prism-Analytics quiz prep repeatedly and there are no limits for the amount of the persons and times, Why not give our Workday-Prism-Analytics practice engine a chance, Workday-Prism-Analytics study guide can help you to solve all these questions, Workday-Prism-Analytics exam materials are compiled by experienced experts, and they are quite familiar with the exam center, and therefore the quality can be guaranteed, Workday New Workday-Prism-Analytics Exam Pass4sure Are you satisfied with your current learning state?

Benefits of the Full PowerPivot Add-In with Excel Pro Plus, Creating Scripts with FrontPage, You can practice Workday-Prism-Analytics Quiz prep repeatedly and there are no limits for the amount of the persons and times.

Avail Excellent New Workday-Prism-Analytics Exam Pass4sure to Pass Workday-Prism-Analytics on the First Attempt

Why not give our Workday-Prism-Analytics practice engine a chance, Workday-Prism-Analytics study guide can help you to solve all these questions, Workday-Prism-Analytics exam materials are compiled by experienced experts, and Workday-Prism-Analytics they are quite familiar with the exam center, and therefore the quality can be guaranteed.

Are you satisfied with your current learning state?
