

Free PDF 1z0-1042-24 - Marvelous Oracle Cloud Infrastructure 2024 Application Integration Professional Valid Exam Voucher

1Z0-1042-24 – Oracle Cloud Infrastructure 2024 Application Integration Professional (Set – 01)

1. Which is **NOT** an advantage of using Oracle Integration Cloud (OIC) for creating application integrations?

- Prebuilt integrations
- Auto-association of Oracle SaaS applications
- User Choice of IDE for development
- Public/Private Cloud portability
- Data mapping recommendations

Correct Answer: E

2. Oracle Integration Cloud (OIC) Service is available in two editions, Standard and Enterprise. Which two OIC Enterprise Edition capabilities are ALSO available in OIC Standard Edition?

- File Server
- Visual Builder
- Integration Insight
- B2B Trading Partner Agreements
- Enterprise Application adapters (such as EBS, JDE, SAP and Siebel)
- Process Applications

Correct Answer: A, B

3. You are tasked with creating an Oracle Integration Cloud (OIC) integration flow that supports a B2B document exchange. When configuring the B2B action there are several capabilities as well as limitations. Which statement is **NOT** valid concerning OIC B2B capabilities?

- It is mandatory to perform validations on EDI documents for inbound translations; however, for outbound translations it is optional.
- A previously created Trading Partner Agreement is optional when configuring the inbound or outbound translation.
- You can customize standard Electronic Data Interchange (EDI) documents by adding new schema constructs or by editing existing constructs.

Correct Answer: A

4. As an integration developer, you are creating an integration in Oracle Integration Cloud (OIC) to transform a payload with multiple orders. You need to configure for-each action to loop through each order and process them individually. How do you correctly configure for the for-each action to loop through each order and process them individually? a. Select the Parallel Processing option and set the number of threads to the number of orders. b. Select the Group By option and group the orders by the order number. c. Select the Reporting

Our 1z0-1042-24 training guide always promise the best to service the clients. Carefully testing and producing to match the certified quality standards of 1z0-1042-24 exam materials, we have made specific statistic researches on the 1z0-1042-24 practice materials. And the operation system of our 1z0-1042-24 practice materials can adapt to different consumer groups. Facts speak louder than words. Through years' efforts, our 1z0-1042-24 exam preparation has received mass favorable reviews because the 99% pass rate is the powerful proof of trust of the public.

Oracle 1z0-1042-24 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Creating Scheduled Integrations: In this section of the exam, candidates are evaluated based on their skills in managing scheduled integrations. This includes converting scheduled integrations to app-driven integrations and understanding the scheduling options within the OIC.
Topic 2	<ul style="list-style-type: none"> Testing, Monitoring, and Troubleshooting Integrations: This section assesses candidates abilities in testing, monitoring, and troubleshooting integrations within the OIC.

Topic 3	<ul style="list-style-type: none"> Using OIC Connections & Adapters: Candidates must demonstrate their ability to create and configure OIC connections, including trigger and invoke connections. They should be familiar with the Connectivity Agent, which facilitates on-premises connectivity to OIC services.
Topic 4	<ul style="list-style-type: none"> Creating Orchestrated Integrations: This part of the exam evaluates the candidate's skills in creating and managing orchestrated integrations using OIC. Candidates should be able to manage OIC lookups, use the OIC Data Mapper, and incorporate custom JavaScript libraries into their integrations.
Topic 5	<ul style="list-style-type: none"> Getting Started with OIC Integrations: This section tests the ability of IT professionals and integration specialists to understand the fundamental components and concepts of Oracle Integration Cloud (OIC). Candidates are expected to describe the key features of OIC integration and explain core integration concepts.

The Benefits of Preparing with the Oracle 1z0-1042-24 Practice Test

Download the free 1z0-1042-24 pdf demo file of Exam4Tests brain dumps. Checking the worth of the 1z0-1042-24 exam questions and learns the format of questions and answers. A few moments are enough to introduce you to the excellent of the 1z0-1042-24 Brain Dumps and the authenticity and relevance of the information contained in them.

Oracle Cloud Infrastructure 2024 Application Integration Professional Sample Questions (Q53-Q58):

NEW QUESTION # 53

Which APIs does Oracle Internet of Things (IoT) Cloud Service use to perform an analysis?

- A. JavaScript APIs
- B. Native Spark Java APIs
- C. Big Data APIs
- D. SQL Queries

Answer: B

Explanation:

Oracle IoT Cloud Service uses native Spark Java APIs to perform analytics. This allows efficient processing of large datasets generated by IoT devices.

NEW QUESTION # 54

You are designing an OIC Integration that processes files in a shared file system located within your on-premises data center. You have decided to leverage various stage file action operations within the integration flow in conjunction with an on-premises OIC Connectivity Agent. Which statement is not valid concerning file operation capabilities with regard to restrictions on using Stage File Action operations with the file and attachment features of the connectivity agent?

- A. Files uploaded through connectivity agent are not available with the list file operation.
- B. Files uploaded through connectivity agent are not available with the zip file operation.
- C. Files uploaded through the Connectivity Agent can only be read with a file reference, with regard to both the Read Entire File and Read File in Segments operations.
- D. Files uploaded through connectivity agent cannot be unzipped using a file reference.

Answer: A

Explanation:

Comprehensive and Detailed Explanation:

Stage File with Agent:

* D:False-list operation works with agent-uploaded files.

NEW QUESTION # 55

You created a scheduled integration in Oracle Integration Cloud (OIC) that uses scheduled parameters named startDate and endDate to determine the date range for a data synchronization process. The default values for these parameters are set to the previous day for startDate and the current day for endDate. However, you now want to schedule a run of the instance with a different start date.

What should you do?

- A. Override the parameter value when scheduling the integration instance.
- B. Create a new version of the integration by modifying the parameter value, and then deploy the new scheduled integration version.
- C. Modify the parameter value in the instance's integration properties and restart the instance.
- D. Modify the parameter value in the integration code and redeploy the integration.

Answer: A

Explanation:

Override the parameter values when scheduling the instance. This approach is efficient and flexible, allowing you to adjust the schedule parameters without modifying the integration.

NEW QUESTION # 56

You are implementing a synchronous Oracle Integration (OIC) integration flow that processes file records within a While loop action. At the end of each loop, you want to delay processing of the next record for a certain period. Which is a valid consideration when using the Wait action in this scenario?

- A. The Wait action can only be positioned as the last action within the loop.
- B. The maximum wait time cannot exceed 20 seconds within a While loop.
- C. The maximum wait time cannot exceed 300 seconds.
- D. The Wait action cannot be used in a synchronous flow.

Answer: C

Explanation:

Comprehensive and Detailed Explanation:

Wait in Loop:

* C: True-300-second limit applies.

NEW QUESTION # 57

You are tasked with creating a new integration in OIC that will be exposed to clients as a SOAP web service. In addition, this integration will be invoking an external SOAP web service as part of the orchestration flow logic. In your creation of these SOAP adapter connection components, which is a valid consideration?

- A. Suppress insertion of timestamp into the request and Ignore timestamp in the response message are optional fields only for the outbound Invoke connection configuration.
- B. The WSDL URL property value can be defined by uploading a file for either the inbound Trigger connection or the outbound Invoke connection configurations.
- C. The SAML and OAuth security policies are available options for creating either the inbound Trigger connection or the outbound Invoke connection configurations.
- D. You must explicitly specify the target server TLS version for the external web service outbound Invoke connection configuration.

Answer: A

Explanation:

For outbound SOAP Invoke connections, options like "Suppress insertion of timestamp into the request" and "Ignore timestamp in the response message" allow managing timestamps in SOAP messages. These options are relevant only for outbound configurations, not for inbound triggers.

NEW QUESTION # 58

.....

We always learned then forget, how to solve this problem, the answer is to have a good memory method, our 1z0-1042-24 exam question will do well on this point. Our 1z0-1042-24 real exam materials have their own unique learning method, abandon the traditional rote learning, adopt diversified memory patterns, such as the combination of text and graphics memory method, to distinguish between the memory of knowledge. Our 1z0-1042-24 learning reference files are so scientific and reasonable that you can buy them safely.
