Microsoft AB-730 Exam Guide & Reliable AB-730 Exam Braindumps

The main objective of Itexamguide AB-730 practice test questions features to assist the AB-730 exam candidates with quick and complete AB-730 exam preparation. The Microsoft AB-730 exam dumps features are a free demo download facility, real, updated, and error-free Microsoft AB-730 Test Questions, 12 months free updated Microsoft AB-730 exam questions and availability of AB-730 real questions in three different formats.

Microsoft AI Business Professional Sample Questions (Q90-Q95):

NEW QUESTION # 90

You have a Microsoft 365 subscription.

You do NOT have a Microsoft 365 Copilot license.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 91

Hotspot Question

Select the answer that correctly completes the sentence.

Answer:

Explanation:

□ Explanation:

Box: suggested prompts

From Microsoft 365 Copilot you can use _____ to help users begin conversations with an agent and guide the users to use the agent more effectively.

In Microsoft 365 Copilot, you can configure up to six suggested prompts--also known as conversation starters--to help users immediately understand an agent's capabilities and interact with it effectively. These prompts appear on the agent's welcome page in Microsoft Teams or Microsoft 365 Copilot Chat.

Key Aspects of Suggested Prompts

Purpose: They guide users on how to initiate conversations, provide examples of what the agent can do, and help users get immediate value from the agent.

Placement: They are displayed prominently on the agent's welcome page before a new chat starts, or within the Prompt Gallery in Teams.

Automatic Generation: When creating an agent in Copilot Studio, suggested prompts may be automatically generated based on the agent's description and instructions.

Configuration: You can customize these prompts on the Overview page of your agent in Copilot Studio by clicking the Edit icon in the Suggested Prompts section.

Limitations: A prompt can be customized with a title and the actual prompt text, and they cannot be seen when testing the agent inside Copilot Studio, only in the published experience.

NEW QUESTION # 92

Hotspot Question

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

□

Answer:

Explanation:

□ Explanation:

Box 1: Yes

Yes - You can review the Microsoft 365 Copilot activity history from the My Account portal.

You can review and manage your Microsoft 365 Copilot activity history from the My Account portal (specifically the Microsoft privacy dashboard). This allows you to view the prompts you have entered and the responses you received from Copilot.

How to Access and Review Copilot Activity History

1. Sign in to the My Account portal: Go to account.microsoft.com and sign in with your Microsoft account.
2. Navigate to Privacy Settings: Select the Privacy tab, then find the Data options or Manage your Copilot activity history section.
3. Access Copilot History: Select Copilot in Microsoft 365 apps to view or export your activity.

Export/Download: You can export your Copilot interaction history as a CSV file to view in Excel or Notepad.

Box 2: No

No - When you delete the Microsoft 365 Copilot activity history, you also immediately delete all the associated notebooks and pages.

Deleting your Microsoft 365 Copilot activity history primarily removes conversation logs, prompts, and chat sessions, generally taking up to 15 minutes to clear across apps like Teams and Word. However, this action does not immediately or automatically delete associated notebooks and Copilot pages, which often persist independently.

What is Deleted: Prompts, answers, and chat history in the activity pane. Microsoft Support.

What Remains: Conversations explicitly saved, exported, or pinned as Copilot Pages/Notebooks are not removed.

Storage Time: By default, conversation history can be stored for 18 months, though you can manually delete it at any time. Microsoft Support.

Memory vs. History: Deleting "activity history" is different from deleting "Copilot Memory" (saved, personalized details).

Box 3: Yes

You can delete the entire Microsoft 365 Copilot activity history, including their prompt and the responses Copilot returns.

You can delete your entire Microsoft 365 Copilot activity history, including prompts and responses, by managing your privacy settings in your Microsoft account.

NEW QUESTION # 93

You run a prompt by using the Researcher agent in Microsoft 365 Copilot.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

You can continue the conversation in Copilot in Word.

The answer: Yes

You can continue the conversation in Copilot for Teams.

The answer: Yes

You can continue the conversation in Copilot in Outlook.

The answer: Yes

Microsoft 365 Copilot provides cross-application continuity across supported Microsoft 365 apps. When using the Researcher agent, users can continue or extend their work within applications such as Word, Teams, and Outlook.

In Word, users can incorporate research results directly into drafted documents, enabling seamless transition from research to content creation. In Teams, Copilot supports contextual collaboration by allowing insights from research to inform meetings or chats. In Outlook, findings can be referenced to compose informed and data-driven communications.

This interoperability is enabled by Microsoft Graph integration, which allows Copilot to securely access and contextualize enterprise data across applications while respecting organizational permissions.

These capabilities demonstrate effective management of prompts and conversations by maintaining workflow continuity, enhancing productivity, and supporting enterprise-grade collaboration powered by generative AI.

NEW QUESTION # 94

You have a Microsoft 365 subscription.

You do NOT have a Microsoft 365 Copilot license.

When you send a prompt in Microsoft 365 Copilot Chat, which three sources does Copilot Chat use to respond? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. chat data in Microsoft Teams
- B. the conversation history
- C. organizational data in Microsoft 365
- D. internet search data
- E. the prompt context
- F. your organization's databases

Answer: B,D,E

Explanation:

When you use Microsoft 365 Copilot Chat without a Microsoft 365 Copilot license, Copilot Chat operates in a "general" mode rather than a Microsoft Graph-grounded work mode. In this configuration, Copilot does not have the entitlement to access and reason over your organization's protected Microsoft 365 content (such as SharePoint sites, OneDrive files, Outlook mail, Teams messages, or other tenant resources). It also does not connect directly to your organization's internal databases unless separate, explicitly configured integrations exist.

Instead, Copilot relies on three primary sources to generate a response: (1) the prompt context you provide in the current request (what you ask, plus any text you paste), (2) the conversation history within the current chat thread to maintain continuity, and (3) internet search data (when web grounding is available) to supplement general knowledge with up-to-date public information.

Therefore, the correct selections are C (prompt context), E (internet search data), and F (conversation history), while organizational Microsoft 365 data and Teams chat data are not used without the Copilot license.

NEW QUESTION # 95

.....

You should keep in mind to pass the AB-730 certification exam is not an easy task. It is a challenging job. If you want to pass the AB-730 exam then you have to put in some extra effort, time, and investment then you will be confident to pass the AI Business Professional (AB-730) exam.
