Fortinet Exam Dumps FCP_GCS_AD-7.6 Provider Exam Pass Certify | FCP_GCS_AD-7.6 Valid Test Topics

Most experts agree that the best time to ask for more dough is after you feel your FCP_GCS_AD-7.6 performance has really stood out. Our FCP_GCS_AD-7.6 guide materials provide such a learning system where you can improve your study efficiency to a great extent. During the process of using our FCP_GCS_AD-7.6 Study Materials, you focus yourself on the exam bank within the given time, and we will refer to the real exam time to set your FCP_GCS_AD-7.6 practice time, which will make you feel the actual FCP_GCS_AD-7.6 exam environment and build up confidence.

Fortinet FCP - Google Cloud Security 7.6 Administrator Sample Questions (Q29-Q34):

NEW QUESTION # 29

Refer to the exhibit.

```
Plan: 1 to add, 0 to change, 0 to destroy.

Changes to Outputs:
  + FortiGate-Username = "admin"

 Error: Failed to retrieve project, pid: , err: project: required field is not set

    with google_compute_image.fgtvmgvnic[0],
    on main.tf line 19, in resource "google_compute_image" "fgtvmgvnic":
    19: resource "google_compute_image" "fgtvmgvnic" {

 Error: Failed to retrieve project, pid: , err: project: required field is not set

    with google_compute_disk.logdisk,
    on main.tf line 39, in resource "google_compute_disk" "logdisk":
    39: resource "google_compute_disk" "logdisk" {

 Error: Failed to retrieve project, pid: , err: project: required field is not set

    with google_compute_disk.logdisk2,
    on main.tf line 47, in resource "google_compute_disk" "logdisk2":
    47: resource "google_compute_disk" "logdisk2" {
```

An administrator is attempting to deploy a Terraform template using Google Cloud Shell.
Which step must the administrator take to solve the error?

- A. Use the command terraform init to initialize the Terraform directory.
- B. Use the command gcloud config set project to set the Google Cloud project in Google Cloud Shell.
- C. Manually create a Google Cloud storage bucket for logging functionality.
- D. Delete the admin user to proceed with the Terraform script.

Answer: B

Explanation:
The error indicates the Google Cloud project is not set, which is required for Terraform to access resources.
Setting the project with gcloud config set project [PROJECT_ID] resolves this by specifying the active project in Cloud Shell.

NEW QUESTION # 30
Your organization has decided to deploy a Fortinet web application firewall (WAF) in Google Cloud.
Why would the organization choose FotiWeb Cloud over FortiWeb VM?

- A. Because the organization requires a WAF with highly customizable WAF rules and settings
- B. Because the organization requires advanced bot detection and mitigation
- C. Because the organization requires a fully managed WAF solution
- D. Because the organization requires a WAF with SSL offloading and load balancing

Answer: C

Explanation:
FortiWeb Cloud is a fully managed web application firewall service, ideal for organizations seeking a cloud- native, hands-off WAF deployment without the need to manage virtual appliances.

NEW QUESTION # 31
Your organization is running an application in their shared services virtual public cloud (VPC) and must control network access

natively in the cloud.

How can your organization meet this requirement?

- A. Create IAM access to allow access from specified resources only.
- B. Create a firewall rule that allows access to the application instance only.
- C. Create a firewall policy for the entire VPC that allows access from all networks.
- D. Create another VPC in front of the shared services VPC and deploy FortiGate.

Answer: B

Explanation:

Creating specific firewall rules that restrict access directly to the application instance allows precise native network access control within the shared services VPC.

NEW QUESTION # 32

You need to deploy a new Windows server in Google Cloud to offload web traffic from an existing web server in a different zone.

As the customer, which two actions must you take to secure the new ComputeEngine instance? (Choose two.)

- A. Assign firewall rules to the compute engine instance.
- B. Change the proxy load balancer to an application load balancer.
- C. Implement a web application firewall.
- D. Configure Google Cloud IAM to limit Windows administrator access.

Answer: A,D

Explanation:

Assigning firewall rules controls network traffic to the instance, protecting it from unauthorized access.

Configuring IAM to limit administrative access ensures only authorized users can manage the Windows server, enhancing security.

NEW QUESTION # 33

An administrator configured an external fabric connector for Google Cloud to pull information from Google Cloud, including addresses, VM names, and subnets to create firewall policies.

When trying to create dynamic firewall addresses, the list of available instances does not populate any information from Google Cloud.

Which two issues are the most probable cause? (Choose two.)

- A. The VM instances in Google Cloud have multiple IP address assigned to them.
- B. The VM instances in Google Cloud were not deployed using Google Cloud marketplace.
- C. Google Cloud Metadata API access is disabled for Compute Engine for the FortiGate instance.
- D. There are no VM instances deployed in Google Cloud.

Answer: C,D

Explanation:

The external fabric connector relies on Google Cloud Metadata API access to retrieve instance information; if this is disabled, data won't populate.

If no VM instances exist in the project, there will be no instance data for the connector to retrieve.

NEW QUESTION # 34

......

Fortinet Exam Dumps FCP_GCS_AD-7.6 Provider Leading level beyond the peers, It is prescient to have those thoughts, and the FCP_GCS_AD-7.6 Valid Test Topics exam simulator is your first step to get recognition by society, Fortinet Exam Dumps FCP_GCS_AD-7.6 Provider So their perfection is unquestionable, As long as you have questions on the FCP_GCS_AD-7.6 learning braindumps, just contact us, The FCP_GCS_AD-7.6 certification exam helps students earn from online work and it also benefits them in order to get a job in any good tech company.

One example is the doling out of benefits to public sector FCP_GCS_AD-7.6 unions, which continue to receive health and pension benefits that far exceed those received by the private sector.

In this article, we'll cover modem and cable modem New FCP_GCS_AD-7.6 Test Cost Internet connections and the type of Internet account you need, Leading level beyond the peers, It is prescient to have those thoughts, FCP_GCS_AD-7.6 Pass4sure and the Public Cloud Security exam simulator is your first step to get recognition by society.

100% Pass-Rate Exam Dumps FCP_GCS_AD-7.6 Provider Offer You The Best Valid Test Topics | FCP - Google Cloud Security 7.6 Administrator

So their perfection is unquestionable, As long as you have questions on the FCP_GCS_AD-7.6 learning braindumps, just contact us, The FCP_GCS_AD-7.6 certification exam helps students earn from Exam Dumps FCP_GCS_AD-7.6 Provider online work and it also benefits them in order to get a job in any good tech company.
