

# DevOps-Foundation German & DevOps-Foundation Lernressourcen

P.S. Kostenlose und neue DevOps-Foundation Prüfungsfragen sind auf Google Drive freigegeben von ExamFragen verfügbar: <https://drive.google.com/open?id=1hOE97O2MXcbUa99fyG1g5WeVuXYYSNTZ>

Qualitativ hochwertige DevOps-Foundation Prüfungsunterlagen. Gehen Sie einen entscheidenden Schritt weiter. Mit der Peoplecert DevOps-Foundation Zertifizierung erhalten Sie einen Nachweis Ihrer besonderen Qualifikationen und eine Anerkennung für Ihr technisches Fachwissen. Peoplecert bietet eine Reihe verschiedener Zertifizierungsprogramme für professionelle Benutzer an. Untersuchungen haben gezeigt, dass zertifizierte Fachleute häufig mehr verdienen können als ihre Kollegen ohne Zertifizierung.

## Peoplecert DevOps-Foundation Prüfungsplan:

Thema	Einzelheiten
Thema 1	<ul style="list-style-type: none"> <li>• <b>Measurement, Metrics, and Reporting:</b> This section of the exam measures the skills of DevOps engineers and covers metrics that help monitor and evaluate the performance of DevOps practices. Topics include speed, quality, culture, change lead time, cycle time, and the use of dashboards, value-driven metrics, and AIOps in reporting and decision-making.</li> </ul>
Thema 2	<ul style="list-style-type: none"> <li>• <b>Key DevOps Practices:</b> This section of the exam measures the skills of DevOps engineers and covers core DevOps practices including Continuous Integration, Continuous Testing, Continuous Delivery, and Continuous Deployment. It explores concepts such as Site Reliability Engineering, DevSecOps, Value Stream Management, Platform Engineering, and modern practices like ChatOps and observability.</li> </ul>
Thema 3	<ul style="list-style-type: none"> <li>• <b>Business and Technology Frameworks:</b> This section of the exam measures the skills of IT operations specialists and covers various supporting frameworks that intersect with DevOps. These include Agile and Lean, IT Service Management, Value Stream Management, Site Reliability Engineering, Safety Culture, Learning Organisations, and Continuous Funding models that enable long-term adaptability.</li> </ul>
Thema 4	<ul style="list-style-type: none"> <li>• <b>Sharing, Shadowing and Evolving:</b> This section of the exam measures the skills of IT operations specialists and covers the collaborative and adaptive elements of DevOps in enterprise settings. It explores leadership, typical barriers and risks, and outlines how organisations can evolve their DevOps practices through continuous learning, peer shadowing, and experience-based transformation.</li> </ul>
Thema 5	<ul style="list-style-type: none"> <li>• <b>Automation, Architecting DevOps Toolchains:</b> This section of the exam measures the skills of IT operations specialists and covers key automation principles within the DevOps toolchain. It focuses on CI</li> <li>• <b>CD pipelines, Infrastructure as Code, containerisation, cloud-native architecture, platform engineering, and emerging technologies like Machine Learning and Generative AI in DevOps contexts.</b></li> </ul>

Thema 6	<ul style="list-style-type: none"> <li>• <b>Core DevOps Principles:</b> This section of the exam measures the skills of IT operations specialists and covers essential DevOps principles such as the Three Ways, the Theory of Constraints, and Chaos Engineering. It also introduces the concept of learning organisations, showing how systemic thinking supports continuous improvement.</li> </ul>
Thema 7	<ul style="list-style-type: none"> <li>• <b>Exploring DevOps:</b> This section of the exam measures the skills of DevOps engineers and covers the foundations of DevOps, including its emergence as a critical discipline in the digital era. It introduces learners to the basic purpose, evolution, and significance of DevOps in modern software and infrastructure environments.</li> </ul>

## DevOps-Foundation Lernressourcen - DevOps-Foundation Deutsch Prüfung

Die Peoplecert DevOps-Foundation Zertifizierungsprüfung ist eigentlich eine Prüfung für die Technik-Experten. Die Peoplecert DevOps-Foundation Zertifizierungsprüfung kann den IT-Fachleuten helfen, eine bessere Berufskarriere zu haben. So können Sie dem Staat und Unternehmen große Gewinne bringen und die wirtschaftliche Entwicklung unseres Landes fördern. Wenn alle Fachleute das machen, ist unser Staat sicher reicher geworden. Unsere Schulungsunterlagen zur Peoplecert DevOps-Foundation Zertifizierungsprüfung können dieses Ziel der IT-Fachleute erreichen. Wir versprechen, dass Sie 100% die Prüfung bestehen können. Wenn Sie lange denken, ist es besser entschlossen eine Entscheidung zu treffen, die Schulungsunterlagen zur Peoplecert DevOps-Foundation Zertifizierungsprüfung von ExamFragen zu kaufen.

### Peoplecert PeopleCert DevOps Foundation v3.6 Exam DevOps-Foundation Prüfungsfragen mit Lösungen (Q11-Q16):

#### 11. Frage

Which of the following is NOT a reason business is interested in DevOps?

- A. Customers value outcomes, not products
- B. IoT is rapidly increasing
- **C. DevOps must automate all the things**
- D. Intelligent data must drive direction quickly

**Antwort: C**

Begründung:

Businesses are drawn to DevOps because it improves agility, responsiveness, and quality.

\* A: The growth of IoT requires scalable, automated, and reliable delivery processes.

\* B: Fast, intelligent decision-making is needed to respond to market changes.

\* D: The shift toward valuing customer outcomes over products is central to modern service delivery.

However, C is a misconception. While automation is a key DevOps practice, the goal is strategic automation- automating where it adds measurable value, improves quality, or accelerates delivery. "Automate all the things" without consideration can waste resources, increase complexity, and reduce adaptability.

PeopleCert DevOps Foundation v3.6 - Business Interest in DevOps

The DevOps Handbook- Automation Principles

Accelerate- Strategic Use of Automation

#### 12. Frage

Why is it important for IT to understand and support the business' "why"?

- A. IT must understand specific business processes so that they can support the organization properly
- B. IT must understand why they should develop or acquire certain software products
- **C. IT must understand why the organization exists and its purpose, cause and belief**
- D. IT must understand why the organization will benefit from a DevOps approach

**Antwort: C**

Begründung:

One of the core DevOps values is aligning IT efforts with business objectives-understanding the business

"why." The Foundation syllabus highlights the need for IT to understand the organization's purpose, cause, and belief. Without this, IT can't effectively support value delivery or drive digital transformation.

Understanding the organizational "why" connects daily activities to strategic objectives, a key DevOps mindset.

Reference:DevOps Foundation v3.6 syllabus section 1.2; "Start with Why" by Simon Sinek.

### 13. Frage

Which of the following does NOT make DevOps important now?

- A. Enterprises have young, nimble start-up competitors
- B. Consumers have "app" mentalities and expectations
- **C. IT must continue to operate in a silo culture**
- D. Time to value must accelerate

**Antwort: C**

Begründung:

The urgency for DevOps adoption is driven by increasing market competition, evolving customer expectations, and the need for rapid delivery of value.

\* B: Nimble start-ups often deliver faster and more innovatively, putting pressure on established enterprises.

\* C: Customers expect continuous improvement and seamless digital experiences ("app mentality").

\* D: Reducing time-to-value is essential for staying competitive and meeting business demands.

However, A describes a siloed culture-something DevOps actively works to eliminate, not a reason for its importance. In fact, remaining siloed is an obstacle to achieving DevOps benefits, not a driver for adoption.

Therefore, A is the correct "NOT" choice.

Accelerate- Market Forces and Organizational Response

The DevOps Handbook- Culture and Collaboration Principles

### 14. Frage

Which of the following is NOT a crucial ingredient when leading a digital transformation?

- **A. Command**
- B. Courage
- C. Collaboration
- D. Curiosity

**Antwort: A**

Begründung:

Command(authoritarianism) is not a crucial ingredient for leading digital transformation.

The key ingredients:

\* Collaboration

\* Curiosity

\* Courage

DevOps leadership is about empowering teams, experimenting, and driving change,notcommand-and-control.

Extract-style reference:

"Digital transformation leaders embrace collaboration, curiosity, and courage, fostering an environment where experimentation and learning drive change."

-Accelerate,DevOps Handbook

PeopleCert DevOps Foundation v3.6:Advocates servant and transformational leadership, not command /control.

## 15. Frage

Which of the following of Continuous Delivery does NOT contribute positively to SDO Performance?

- A. Culture of psychological safety
- B. Trunk-based development
- C. Cloud
- **D. Heavyweight Change Process**

**Antwort: D**

Begründung:

High-performing organizations use Continuous Delivery practices to improve Software Delivery and Operational (SDO) performance.

\* B: Psychological safety encourages open communication, incident reporting, and learning from failures.

\* C: Trunk-based development reduces integration issues and supports continuous integration/delivery.

\* D: Cloud technologies provide scalable, on-demand environments that speed up delivery and testing.

On the other hand, A-a heavyweight change process-slows down delivery, increases lead time, and often fails to improve change success rates. Research cited in Accelerateshows that manual, centralized change approvals correlate with lower performance, while automated, peer-reviewed changes produce better reliability and faster delivery.
