## C\_THR92\_2505 Reliable Test Dumps & Latest C\_THR92\_2505 Exam Experience

with the development of science and technology, we can resort to electronic C\_THR92\_2505 exam materials, which is now a commonplace, and the electronic materials with the highest quality which consists of all of the key points required for the exam can really be considered as the royal road to learning. And you are sure to pass the C\_THR92\_2505 Exam as well as getting the related certification under the guidance of our C\_THR92\_2505 study guide which you can find in this website easily.

## SAP Certified Associate - SAP SuccessFactors People Analytics: Reporting Sample Questions (Q65-Q70):

### NEW QUESTION # 65

You want to create a report that shows one row per employee, that includes the total number of previous employers for each employee. Which tool must you use?

- A. Date Options
- B. Runtime Filters
- C. Calculated Columns
- **D. Aggregated Calculated Columns**

**Answer: D**

Explanation:

- \* Tool for Aggregation
  - \* An Aggregated Calculated Column allows you to perform calculations, such as counting previous employers for each employee, and then display the results in a single row per employee.
  - \* Why Other Options are Incorrect
  - \* A (Runtime Filters): Filters data but does not aggregate or calculate totals.
  - \* B (Calculated Columns): Useful for individual row-level calculations, but aggregation across rows requires Aggregated Calculated Columns.
  - \* D (Date Options): Used for filtering or formatting date fields, not for aggregating data.

#### NEW QUESTION # 66

Which actions can you perform in a Simple Text component? Note: There are 3 correct answers to this question.

- A. Select the background color, numeric list options, and indentation for the text.
- B. Select the font, font size, and font style options for the text.
- C. Add a link to an existing canvas report.
- D. Upload an image to display before or after the text.
- E. Select an image to display inline within text.

**Answer: A,B,D**

Explanation:

In a Simple Text component within SAP SuccessFactors:

- \* Upload an Image to Display Before or After the Text (B):
- \* You can enhance the text component by adding images that appear before or after the text for visual emphasis.
- \* Select Background Color, Numeric List Options, and Indentation (C):
- \* Customizing background color, applying numbered lists, and adjusting indentation are supported for formatting text.
- \* Select Font, Font Size, and Font Style Options (D):
- \* Full control over text appearance, including font, size, and style, is provided in the Simple Text component.

#### NEW QUESTION # 67

What happens when you enable inline translation of a Story as it relates to future edits of the Story report?

Note: There are 2 correct answers to this question.

- A. The report can be edited only in the source language.
- B. The report can be edited in any language.
- C. The source language is set to the current locale of the individual who enabled translation.
- D. The source language is chosen from enabled locales on the instance when enabling translation.

**Answer: A,D**

Explanation:

- \* Inline Translation Overview Inline translation in SAP SuccessFactors Stories allows users to translate report text and components into multiple languages. This feature is particularly useful in multi-locale environments to ensure users view reports in their preferred language.
- \* Source Language Setting
- \* When inline translation is enabled, the source language is selected from the list of locales enabled on the instance. This ensures that translation aligns with existing localization settings.
- \* The report can only be edited in the source language to maintain consistency across translations.
- \* Explanation of Correct Answers
- \* Option A: Correct, as the source language must be chosen from the available locales when inline translation is activated.
- \* Option B: Correct, as any edits to the report must be made in the source language to avoid inconsistencies.
- \* Explanation of Incorrect Options
- \* Option C: Incorrect, because the source language is not dynamically set to the current locale of the individual enabling translation.
- \* Option D: Incorrect, because editing in any language is not allowed once inline translation is enabled-only the source language can be edited.

#### NEW QUESTION # 68

Why is it important to consider the People step of the report definition when you share a table report with another user?

- A. The user may NOT have access to the relevant report domain.
- **B. The user may NOT have the same line of sight.**
- C. The user may NOT have access to the fields in the report.
- D. The user may NOT have access to run reports.

**Answer: B**

Explanation:

\* People Step in Report Definition:

\* The People step in a report determines the population (target group) of employees included in the report.

\* When you share the report, the recipient's line of sight (determined by their Role-Based Permissions) will affect their ability to view the data.

\* Example Scenario:

\* If the report is configured to include data for a specific department, but the user does not have permission to view data for that department, they may see limited or no data.

#### NEW QUESTION # 69

In a Story, which of the following would make it possible for a filter to update multiple charts using linked analysis? Note: There are 2 correct answers to this question.

- A. The chart should use the same aggregation.
- **B. The charts should have the same data source.**
- C. The charts should use the same measures.
- **D. The data sources for the charts should contain linked dimensions.**

**Answer: B,D**

Explanation:

To enable a filter to update multiple charts using linked analysis in a Story report:

\* Same Data Source (C):

\* All the charts must share the same data source to allow consistent filtering and updates across the visuals.

\* Linked Dimensions in Data Sources (D):

\* If the charts use different data sources, those sources must contain linked dimensions to allow the filter to propagate changes.

#### NEW QUESTION # 70

.....

Through our investigation and analysis of the real problem over the years, our C\_THR92\_2505 learning materials can accurately predict the annual C\_THR92\_2505 exams. In the actual exam process, users will encounter almost half of the problem is similar in our products. Even if the syllabus is changing every year, the C\_THR92\_2505 Study Materials' experts still have the ability to master propositional trends.
