ATLASSIAN Managing Jira Cloud Projects Sample Questions (Q58-Q63):

NEW QUESTION # 58
Which of the following are true about a Jira project? (Choose two.)
Note:
- Company-managed projects are formerly known as classic projects.
- Team-managed projects are formerly known as next-gen projects.

- A. You need 'Create Projects' permission to create a company-managed project.
- B. Anyone can create company-managed and team-managed projects.
- C. You need 'Administer Jira' permission to create a company-managed project.
- D. Only project administrators can create a team-managed project.
- E. Members of 'administrator' groups can create a company-managed project by default.
- F. You need 'Browse Projects' permission to create a company-managed project.

Answer: C,E

NEW QUESTION # 59
Which of the following are true if users want to release this version? (Choose three.)

- A. Released issues will be removed from the board except for issues in the active sprint.
- B. Released issues will be removed from the board including issues in the active sprint.
- C. Users can release version 2.0 while moving the unresolved issues to another version.
- D. Users cannot release version 2.0 before completing all issues.
- E. Users can release unresolved issues.

Answer: A,C,E

NEW QUESTION # 60
You need to write a JQL query that returns all issues without the label "discard".
Identify the JQL statement that returns the correct results.

- A. labels in (discard, EMPTY)
- B. label!- discard
- C. labels != discard OR labels is EMPTY
- D. labels != discard
- E. labels not in (discard, NULL)

Answer: C

Explanation:
This JQL correctly returns all issues that do not have the label "discard", including those where the labels field is empty. Without the OR labels is EMPTY clause, issues with no labels would be excluded.

NEW QUESTION # 61
5 development teams need to work across 3 projects and plan their iterations in a single board.
Which board supports this?

- A. team-managed Scrum board
- B. company-managed Scrum board
- C. team-managed Kanban board
- D. company-managed Kanban board

Answer: B

Explanation:
A company-managed Scrum board can be configured to pull issues from multiple projects, enabling cross- team planning and coordination. This makes it ideal for multiple development teams working across several projects and planning their iterations in a single board.

NEW QUESTION # 62
According to the components below, who will be the assignee if a user created a ticket with Java and Database components?
Project lead: Razi
Project default assignee: Unassigned

Component	Component lead	Default assignee	Issues	
Server	N Nick	Unassigned	3 issues	...
Java	D Dom	Project default	3 issues	...
Database	Nina	Project lead	3 issues	...

- A. Nina
- B. Razi
- C. Unassigned
- D. Dom
- E. Nick

Answer: B
