

2026 1Z0-771 Free Download | Useful 100% Free Valid Test Oracle APEX Cloud Developer Professional Fee

2026 Latest CramPDF 1Z0-771 PDF Dumps and 1Z0-771 Exam Engine Free Share: <https://drive.google.com/open?id=1MRp6zAB1-j040D6JR0GKqYtD7ZZQZkAZ>

We provide you with free demo to have a try before buying 1Z0-771 training materials, so that you can have a better understanding of what you are going to buy. If you are content with the 1Z0-771 exam dumps after trying, you just need to add them to your cart, and pay for them. You will get the downloading link within ten minutes. If you don't receive, just contact with us, we have professional stuff solve the problem for you. What's more, 1Z0-771 Training Materials contain both questions and answers, and it's convenient for you to check the answers after practicing.

At present, our 1Z0-771 exam guide gains popularity in the market. The quality of our 1Z0-771 training material is excellent. After all, we have undergone about ten years' development. Never has our practice test let customers down. Although we also face many challenges and troubles, our company get over them successfully. If you are determined to learn some useful skills, our 1Z0-771 Real Dumps will be your good assistant. Then you will seize the good chance rather than others.

Oracle 1Z0-771 Dumps PDF Questions Quick Tips To Pass-[CramPDF]

CramPDF Oracle APEX Cloud Developer Professional (1Z0-771) practice exam software went through real-world testing with feedback from more than 90,000 global professionals before reaching its latest form. The Oracle 1Z0-771 Exam Dumps are similar to real exam questions. Our Oracle APEX Cloud Developer Professional (1Z0-771) practice test software is suitable for computer users with a Windows operating system.

Oracle APEX Cloud Developer Professional Sample Questions (Q31-Q36):

NEW QUESTION # 31

Which three statements are true about Data Workshops in Oracle APEX?

- A. You can load or unload multiple tables at a time.

- B. You can load or unload a single table at a time.
- C. You can unload data from a new or existing table.
- D. You can load data into a new or existing table.

Answer: B,C,D

Explanation:

Data Workshop in SQL Workshop is a powerful tool for importing/exporting table data:

B . You can load or unload a single table at a time: The wizard focuses on one table per operation. For loading, you upload a file (e.g., CSV) and map it to a single table; for unloading, you select one table to export (e.g., EMP to CSV). This granularity ensures precision and simplicity.

C . You can unload data from a new or existing table: Unloading (exporting) works on any table in the schema, whether newly created (e.g., via Quick SQL) or pre-existing (e.g., DEPT). The "Unload" option generates a file (e.g., CSV, JSON) from the table's data.

D . You can load data into a new or existing table: Loading supports creating a new table from the uploaded file (e.g., CSV defines NEW_EMP) or appending/overwriting an existing one (e.g., EMP). The wizard prompts for table creation or selection.

A . You can load or unload multiple tables at a time: False; Data Workshop processes one table per wizard run. Multiple tables require separate operations or custom SQL scripts.

Technical Insight: Loading uses APEX_DATA_LOADING internally, parsing files into rows, while unloading leverages APEX_DATA_EXPORT. For example, uploading emp.csv with "Create New Table" generates a table with inferred columns.

Use Case: Migrating EMP data from a legacy system (CSV) into APEX, then exporting it later for analysis.

Pitfall: Multi-table operations need SQL Scripts or external tools like SQL Developer.

NEW QUESTION # 32

An application includes a form on the EMPLOYEES table. You must limit the P1_MANAGER page item so users can select a single employee name and ID from the corresponding manager ID in the same table. Which item type can be used to display P1_MANAGER?

- A. Checkbox
- B. Switch
- C. Popup LOV

Answer: C

Explanation:

The requirement is to allow users to pick a single employee (name and ID) from a list tied to the MANAGER_ID column in the EMPLOYEES table, implying a dynamic, searchable selection:

A . Popup LOV: This item type displays a popup window with a searchable list of values, sourced from a SQL query (e.g., SELECT ename, empno FROM employees WHERE empno IN (SELECT DISTINCT manager_id FROM employees)). It returns a single value (e.g., EMPNO) while displaying the name, perfectly meeting the need for a single selection from a related dataset.

B . Switch: A toggle (Yes/No), unsuitable for selecting from a list of employees.

C . Checkbox: Allows multiple selections, conflicting with the "single employee" requirement.

Practical note: Popup LOVs enhance usability with filtering and pagination, ideal for large employee lists, and support returning the ID while showing the name.

NEW QUESTION # 33

Which statement is true about importing an existing application into your workspace?

- A. The import process does not import the supporting objects defined during the export.
- B. You cannot change the application ID during the import process.
- C. You cannot import an APEX application exported from the latest APEX version to an old APEX version.

Answer: C

Explanation:

Importing an APEX application involves transferring its definition (exported as a .sql file):

C . You cannot import an APEX application exported from the latest APEX version to an old APEX version: APEX enforces backward compatibility limits. An app exported from 23.2 (latest features like AI Assistants) can't import into 19.2, as older versions lack support for newer metadata (e.g., APEX_AI tables). The import wizard checks the version and rejects incompatible

files.

A . You cannot change the application ID: False; the import wizard prompts for a new ID if there's a conflict or if you choose to override.

B . Supporting objects not imported: False; if included in the export (via "Include Supporting Objects"), they're imported (e.g., tables, triggers), unless skipped explicitly.

Technical Insight: Export files contain a version check (e.g., apex_version := '23.2');, causing rejection if the target instance's APEX_VERSION is lower.

Use Case: Moving an app from a dev instance (23.2) to prod (23.2) works, but not to an outdated test instance (19.1).

Pitfall: Always match versions or upgrade the target instance first.

NEW QUESTION # 34

At what level does a developer enable push notifications so that end users can receive them on their devices from an APEX application?

- A. Page
- B. Region
- **C. Application**
- D. Instance

Answer: C

Explanation:

Push notifications in Oracle APEX are enabled at the application level. This allows the application to register with the Progressive Web App (PWA) framework and manage subscriptions for all end users. Once enabled in the Application Definition under "Progressive Web App" settings, APEX handles the subscription process, and developers can use APIs like APEX_PWA.SEND to send notifications. Enabling at the region, page, or instance level is not supported for this feature.

NEW QUESTION # 35

In which two formats can the GetCurrentPosition Dynamic Action in Oracle APEX return coordinates?

- **A. GeoJSON**
- **B. Latitude and Longitude**
- C. State and Pincode
- D. Function Body returning SQL Query

Answer: A,B

Explanation:

The GetCurrentPosition Dynamic Action retrieves geolocation data from the user's device. It supports:

Latitude and Longitude: Returns coordinates as separate numeric values (e.g., lat: 37.7749, lon: -122.4194).

GeoJSON: Returns coordinates in a structured JSON format compliant with the GeoJSON standard (e.g., { "type": "Point", "coordinates": [-122.4194, 37.7749] }).

Function Body returning SQL Query is a dynamic action type, not a coordinate format, and State and Pincode is unrelated to geolocation coordinates.

NEW QUESTION # 36

.....

As everybody knows, the most crucial matter is the quality of 1Z0-771 study question for learners. We have been doing this professional thing for many years. Let the professionals handle professional issues. So as for us, we have enough confidence to provide you with the best 1Z0-771 Exam Questions for your study to pass it. And we have the latest 1Z0-771 test guide. Only with strict study, we write the latest and the specialized study materials. We can say that our 1Z0-771 exam questions are the most suitable for examinee to pass the exam.
