Generally speaking, a satisfactory practice material should include the following traits. High quality and accuracy rate with reliable services from beginning to end. As the most professional group to compile the content according to the newest information, our JN0-336 practice materials contain them all, and in order to generate a concrete transaction between us we take pleasure in making you a detailed introduction of our JN0-336 practice materials. We would like to take this opportunity and offer you a best JN0-336 practice material as our strongest items as follows.

Juniper Security, Specialist (JNCIS-SEC) Sample Questions (Q29-Q34):

NEW QUESTION # 29

You are asked to find systems running applications that increase the risks on your network. You must ensure these systems are processed through IPS and Juniper ATP Cloud for malware and virus protection. Which Juniper Networks solution will accomplish this task?

- A. JIMS
- B. Encrypted Traffic Insights
- C. Adaptive Threat Profiling
- D. UTM

Answer: C

Explanation:

Adaptive Threat Profiling (ATP) is a Juniper Networks solution that enables organizations to detect malicious activity on their networks and process it through IPS and Juniper ATP Cloud for malware and virus protection. ATP is powered by Juniper's advanced Machine Learning and Artificial Intelligence (AI) capabilities, allowing it to detect and block malicious activity in real-time. ATP is integrated with Juniper's Unified Threat Management (UTM) and Encrypted Traffic Insights (ETI) solutions, providing an end-to-end network protection solution.

NEW QUESTION # 30

Which two statements are correct about Juniper ATP Cloud? (Choose two.)

- A. Once the target threshold is met, Juniper ATP Cloud continues looking for threats levels range from 0 to 10 minutes.
- B. The threat levels range from 0-10.
- C. The threat levels range from 0-100.
- D. Once the target threshold is met, Juniper ATP Cloud continues looking for threats from 0 to 5 minutes.

Answer: B,C

Explanation:

In many threat intelligence and evaluation systems, including Juniper ATP Cloud, the threat levels are often scored on a scale to provide a quick reference of the potential risk associated with a threat. A common range for these threat levels is from 0 to 10, with 0 representing minimal or no threat and 10 representing a severe threat.

Alternatively, some systems may use a more granular scoring system ranging from 0 to 100, providing a more nuanced assessment of threat levels. This range allows for finer differentiation between the levels of threat severity.

NEW QUESTION # 31

Which two statements are true about mixing traditional and unified security policies? (Choose two.)

- A. Traditional security policies must come before unified security policies
- B. Unified security policies must come before traditional security policies
- C. When a packet matches a traditional security policy, the evaluation process terminates
- D. When a packet matches a unified security policy, the evaluation process terminates

Answer: C,D

NEW QUESTION # 32

You are currently using a third-party threat analyzer. You want your SRX Series device to send decrypted SSE traffic to.....

In this scenario, which feature should you configure on the SRX device?

- A. JSA vulnerability assessment
- B. SSL decryption mirroring
- C. Phase 2 proxy ID
- D. IPS IPanotify action

Answer: A,D

NEW QUESTION # 33

You are asked to implement IPS on your SRX Series device.

In this scenario, which two tasks must be completed before a configuration will work? (Choose two.)

- A. Download the IPS signature database.
- B. Install the IPS signature database.
- C. Reboot the SRX Series device.
- D. Enroll the SRX Series device with Juniper ATP Cloud.

Answer: A,B

Explanation:

The two tasks that must be completed before a configuration for IPS on an SRX Series device will work are downloading the IPS signature database and installing the IPS signature database. The Security, Specialist (JNCIS-SEC) Study guide provides further information on how to download and install the IPS signature database. Enrolling the SRX Series device with Juniper ATP Cloud is not necessary to make a configuration work, and rebooting the SRX Series device is not required either.

NEW QUESTION # 34

.....

Many people want to be the competent people which can excel in the job in some area and be skillful in applying the knowledge to the practical working in some industry. But the thing is not so easy for them they need many efforts to achieve their goals. Passing the test JN0-336 certification can make them become that kind of people and if you are one of them buying our JN0-336 Study Materials will help you pass the test smoothly with few efforts needed. Our JN0-336 exam questions are valuable and useful and if you buy our product will provide first-rate service to you to make you satisfied.

JN0-336 Valid Exam Labs: https://www.pass4cram.com/JN0-336_free-download.html

The main benefit of Juniper JN0-336 exam dumps in hand experience in technical subjects is that you shall know its core points, Juniper Latest JN0-336 Exam Topics If you still have doubts, we have free demo for you, Pass4cram JN0-336 Valid Exam Labs updated exam material is cherished to all valued users as it carries all the necessary details which you need to be certified, Choosing our Juniper JN0-336 study material, you will find that it will be very easy for you to overcome your shortcomings and become a persistent person.

This makes it sound simple, but there are many common configuration errors that you can come up against that can cause either or both of these issues, Our JN0-336 free PDF are the first step for you to know our quality better.
