## Salesforce Administer and Maintain Service Cloud Sample Questions (Q62-Q67):

### NEW QUESTION # 62

What should a consultant recommend service agents use?

- A. Paused now interviews Lightning Component.
- B. Recommendation Strategy Metrics related list.
- C. Einstein Next Best Action Strategy Guilder.
- D. History tab on the Actions & Recommendations comporent.

**Answer: C**

Explanation:

Einstein Next Best Action Strategy Builder is a tool that allows service agents to create and manage recommendation strategies for different scenarios. A recommendation strategy is a set of rules and logic that determines which actions or offers are most relevant for a given situation. By using Einstein Next Best Action Strategy Builder, service agents can provide personalized and consistent guidance to customers across different channels and devices.

### NEW QUESTION # 63

The contact center at Universal Containers wants to reduce call volume and resolution time within Service Cloud. Which solution should a consultant recommend?

- A. Knowledge base
- B. Email-to-Case
- C. Chat with an agent

**Answer: A**

Explanation:

To reduce call volume and resolution time within Service Cloud, implementing a comprehensive Knowledge base is recommended. Providing customers with access to self-service information through Knowledge articles enables them to find answers to common questions independently, reducing the need for direct contact with service agents and improving overall service efficiency.
