問題 #48

Which statement about Opening Balance Override rules is true?

- A. You can select which accounts to include in the rule scope.
- B. They are available only if Intercompany Data with Tracking is enabled for the business process.
- C. Opening Balance Override rules execute for the first period in the year only.
- D. You can select which entities to include in the rule scope.

答案: A

解題說明:

The statement that is true about Opening Balance Override rules is: You can select which accounts to include in the rule scope. Opening Balance Override rules are a type of business rules that allow you to override the opening balance values for selected accounts in selected entities. You can use these rules to adjust opening balances for specific scenarios or periods without affecting prior periods or other scenarios. You can select which accounts to include in the rule scope by using member selection or member formulas. The other statements are not true about Opening Balance Override rules. They are not available only if Intercompany Data with Tracking is enabled for the business process, they execute for any period in the year, not just the first one, and you cannot select which entities to include in the rule scope, only the parent entity.
