

# 300-420 Paper & Latest 300-420 Dumps

P.S. Free & New 300-420 dumps are available on Google Drive shared by ValidVCE: <https://drive.google.com/open?id=1f1bWyfbmIXbDl1TX59ihyzVMlxTFjqyx>

If you must complete your goals in the shortest possible time, our 300-420 exam materials can give you a lot of help. For our 300-420 study guide can help you pass you exam after you study with them for 20 to 30 hours. And our products are global, and you can purchase our 300-420 training guide is wherever you are. Believe us, our products will not disappoint you. Our global users can prove our strength.

ValidVCE Designing Cisco Enterprise Networks (300-420) exam dumps save your study and preparation time. Our experts have added hundreds of Designing Cisco Enterprise Networks (300-420) questions similar to the real exam. You can prepare for the Designing Cisco Enterprise Networks (300-420) exam dumps during your job. You don't need to visit the market or any store because ValidVCE Designing Cisco Enterprise Networks (300-420) exam questions are easily accessible from the website.

## **Designing Cisco Enterprise Networks Updated Torrent - 300-420 exam pdf & Designing Cisco Enterprise Networks Practice questions**

At the same time, 300-420 study material also has a timekeeping function that allows you to be cautious and keep your own speed while you are practicing, so as to avoid the situation that you can't finish all the questions during the exam. With 300-420 Learning Materials, you only need to spend half your money to get several times better service than others. And you can get the 300-420 certification with little effort and money.

Cisco 300-420 exam is an excellent certification for network architects, network engineers, and other IT professionals who are interested in designing and implementing enterprise networks. It is a challenging exam that requires a deep understanding of enterprise network design principles and best practices. However, by passing the exam, you will demonstrate your expertise in enterprise network design, which will help you advance your career and open up new opportunities in the IT industry.

Passing the Cisco 300-420 exam requires a strong understanding of network design principles and hands-on experience with Cisco technologies. Candidates are recommended to have at least three to five years of experience working with enterprise networks and should have a good understanding of Cisco technologies such as Cisco DNA Center, Cisco SD-WAN, and Cisco ISE. With the

Cisco 300-420 Certification, network professionals can demonstrate their expertise in designing enterprise networks using Cisco technologies and enhance their career prospects in the field of network engineering.

## Cisco Designing Cisco Enterprise Networks Sample Questions (Q71-Q76):

### NEW QUESTION # 71

What is the purpose of the fabric control plane in a Cisco SD-Access architecture?

- A. create, propagate, and enforce GBAC policies in the fabric
- B. extend multiple subnets to one RLOC
- C. create and resolve endpoint-to-location mapping
- D. create a transit node with BGP route reflector functionality

Answer: C

### NEW QUESTION # 72

```
class MISSION-CRITICAL
  bandwidth percent 26
  random-detect dscp-based
class BULK
  bandwidth percent 5
  random-detect dscp-based
class SCAVENGER
  bandwidth percent 1
class class-default
  bandwidth percent 24
  random-detect
!
class-map match-all BULK
  match ip dscp af11 af12
class-map match-all VIDEO
  match ip dscp af41 af42
class-map match-any ROUTING
  match ip dscp cs6
class-map match-all MISSION-CRITICAL
  match ip dscp af21 af22
class-map match-any SIGNALLING
  match ip dscp cs3
  match ip dscp af31
class-map match-all VOICE
  match ip dscp ef
class-map match-all SCAVENGER
  match ip dscp cs1
!
interface GigabitEthernet0/2
  description Link_to_DC
  service-policy output WAN-DC-LINK
```

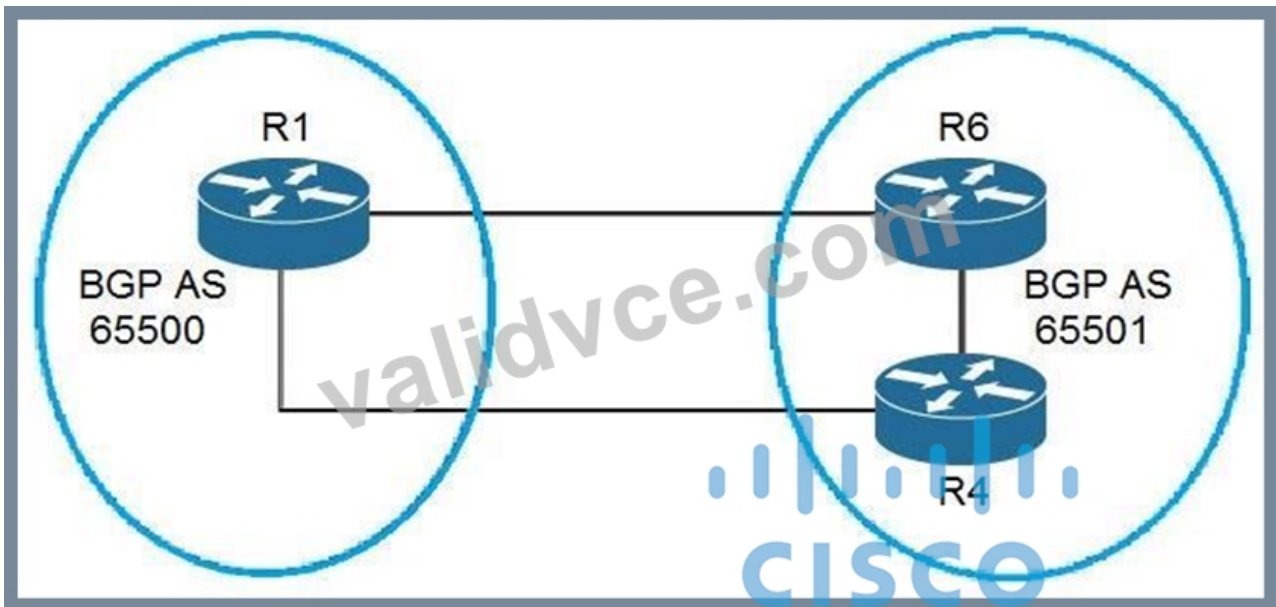

Refer to the exhibit. A customer needs to apply QoS to the network management traffic passing through the GigabitEthernet0/2 interface. All eight queuing classes are in use, so the new requirement must be integrated into the existing policy. Which solution must the customer choose?

- A. Mark traffic to DSCP CS5 and assign it to the SIGNALLING class. Then, baseline existing queue sizes to determine if additional bandwidth can be provisioned to the SIGNALLING class.
- B. Mark the traffic to DSCP CS2 and assign it to the ROUTING class. Then, baseline existing queue sizes to determine if additional bandwidth can be provisioned to the ROUTING class
- C. Mark the traffic to DSCP CS4 and assign it to the SIGNALLING class. Then, prioritize traffic within the class.
- D. Mark the traffic to DSCP CS6 and assign it to the ROUTING class. Then, prioritize traffic within the class.

Answer: B

### NEW QUESTION # 73

Refer to the exhibit. An architect must design a solution to connect the two ASs. To optimize bandwidth, the design will implement load sharing between router R6 and router R4. Which solution should the design include?

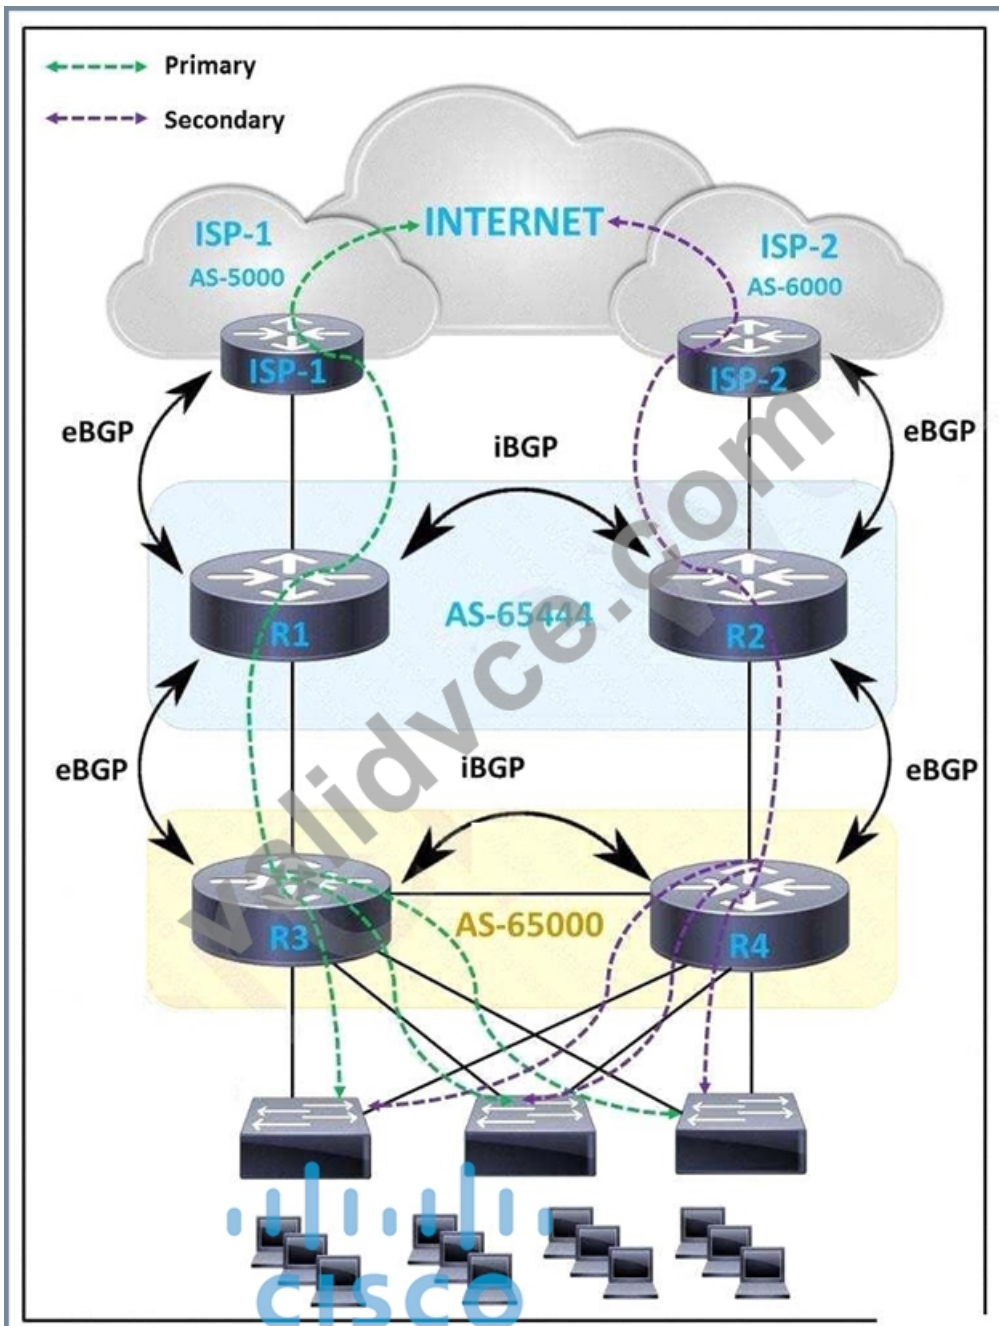

- A. Use update-source to specify the Loopback interface.
- B. Configure the eBGP TTL to support eBGP multihop.
- C. Use maximum-paths to install multiple paths in the routing table.
- D. Use next-hop-self attributes only for routes that are learned from eBGP peers.

**Answer: C**

**NEW QUESTION # 74**

Refer to the exhibit.

An engineer must design a WAN solution so that ISP-1 is always preferred over ISP-2. The path via ISP-2 is considered as a backup and must be used only when the path to ISP-1 is down. Which solution must the engineer choose?

- A. R1:
  - Routes advertised to ISP-1: 0x AS-path prepend
  - Routes received from ISP-1: HIGH local-preference
  - Routes advertised to R2: no action
  - Routes received from R2: community NO-EXPORT
- R2:
  - Routes advertised to ISP-2: 5x AS-path prepend
  - Routes received from ISP-2: LOW local-preference
  - Routes advertised to R1: community NO-ADVERTISE
  - Routes received from R1: no action
- B. R1:
  - Routes advertised to ISP-1: 0x AS-path prepend
  - Routes received from ISP-1: HIGH local-preference
  - Routes advertised to R2: community NO-EXPORT
  - Routes received from R2: no action
- R2:
  - Routes advertised to ISP-2: 5x AS-path prepend
  - Routes received from ISP-2: LOW local-preference
  - Routes advertised to R1: community NO-ADVERTISE
  - Routes received from R1: no action

- Routes advertised to ISP-2: 5x AS-path prepend
- Routes received from ISP-2: LOW local-preference
- Routes advertised to R1: no action
- Routes received from R1: no action
- C. R1:
  - Routes advertised to ISP-1: 5x AS-path prepend
  - Routes received from ISP-1: LOW local-preference
  - Routes advertised to R2: community NO-ADVERTISE
  - Routes received from R2: no action
 R2:
  - Routes advertised to ISP-2: 0x AS-path prepend
  - Routes received from ISP-2: HIGH local-preference
  - Routes advertised to R1: community NO-EXPORT
  - Routes received from R1: no action
- D. R1:
  - Routes advertised to ISP-1: 0x AS-path prepend
  - Routes received from ISP-1: LOW local-preference
  - Routes advertised to R2: community NO-ADVERTISE
  - Routes received from R2: no action
 R2:
  - Routes advertised to ISP-2: 5x AS-path prepend
  - Routes received from ISP-2: HIGH local-preference
  - Routes advertised to R1: no action
  - Routes received from R1: community NO-ADVERTISE

**Answer: B**

#### NEW QUESTION # 75

Which routes does the overlay management protocol advertise in an SD-WAN overlay?

- A. underlay, MPLS, and overlay
- B. primary, backup, and load-balanced
- C. prefix, TLOC, and service
- D. Internet, MPLS, and backup

**Answer: C**

#### NEW QUESTION # 76

.....

Our 300-420 free demo provides you with the free renewal in one year so that you can keep track of the latest points happening in the world. As the questions of exams of our 300-420 exam torrent are more or less involved with heated issues and customers who prepare for the exams must haven't enough time to keep trace of exams all day long, our 300-420 Practice Test can serve as a conducive tool for you make up for those hot points you have ignored. Therefore, you will have more confidence in passing the exam, which will certainly increase your rate to pass the 300-420 exam.
