

Juniper New JN0-481 Test Pattern: Data Center, Specialist (JNCIS-DC) - ExamsTorrent Trustable Planform

What's more, part of that ExamsTorrent JN0-481 dumps now are free: <https://drive.google.com/open?id=1Mg2EHcMkuSjUIApr-ZC3Cfrik97-j5c-M>

Don't let the Data Center, Specialist (JNCIS-DC) exam stress you out! Prepare with our JN0-481 exam dumps and boost your confidence in the JN0-481 exam. We guarantee your road toward success by helping you prepare for the JN0-481 exam. Use the best Juniper JN0-481 practice questions to pass your JN0-481 Exam with flying colors! In this way, the Data Center, Specialist (JNCIS-DC) certified professionals can not only validate their skills and knowledge level but also put their careers on the right track. By doing this you can achieve your career objectives.

Our ExamsTorrent's JN0-481 exam dumps and answers are researched by experienced IT team experts. These JN0-481 test training materials are the most accurate in current market. You can download JN0-481 free demo on ExamsTorrent.COM, it will be a good helper to help you pass JN0-481 certification exam.

Valid JN0-481 Test Prep, Test JN0-481 Simulator Online

With a vast knowledge in the field, ExamsTorrent is always striving hard to provide actual, authentic Juniper Exam Questions so that the candidates can pass their Data Center, Specialist (JNCIS-DC) (JN0-481) exam in less time. ExamsTorrent tries hard to provide the best Juniper JN0-481 dumps to reduce your chances of failure in the Data Center, Specialist (JNCIS-DC) (JN0-481) exam. ExamsTorrent provides an exam scenario with its Juniper JN0-481 practice test (desktop and web-based) so the preparation of the Data Center, Specialist (JNCIS-DC) (JN0-481) exam questions becomes quite easier.

Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q55-Q60):

NEW QUESTION # 55

In the Juniper Apstra design phase, which object dictates port count, port speed, and how the ports would be used?

- A. network devices
- B. rack type
- **C. interface map**
- D. logical devices

Answer: C

Explanation:

Interface maps are objects that map interfaces between logical devices and physical hardware devices in the Juniper Apstra design phase. They dictate port count, port speed, and how the ports would be used for achieving the intended network configuration rendering. Interface maps also allow you to select device ports, transformations, and interfaces, provision breakout ports, and disable unused ports.

NEW QUESTION # 56

When editing a device configuration to install some manual changes, which procedure should be followed?

- A. Delete the device from the Juniper Apstra system, change the configuration, then re-import the device.
- B. Edit the pristine configuration of the device.
- C. Edit the configuration on the device directly by the CLI; the changes will automatically be adjusted in the Juniper Apstra configuration
- **D. Add a persistent change to a device configuration with a configlet.**

Answer: D

Explanation:

A configlet is a small piece of configuration that can be applied to a device or a group of devices to make persistent changes that are not overwritten by Apstra. Configlets can be used to install manual changes that are not part of the Apstra rendered configuration, such as custom commands, scripts, or features. Configlets can be created, edited, and deleted from the Apstra GUI or CLI.

NEW QUESTION # 57

Within Managed Devices in the Juniper Apstra UI, you notice that several devices have the OOS- Quarantined status. The devices cannot be added to any blueprint. Which action would solve this problem?

- A. Fix the hardware issues with the quarantined devices.
- B. Upload a new pristine configuration.
- **C. Acknowledge the device.**
- D. Install the agent, even though connectivity is established.

Answer: C

Explanation:

When an agent installation is successful, devices are placed into the Out of Service Quarantined (OOS-QUARANTINED) state using the Juniper Apstra UI. This state means that the device is not yet managed by Apstra and has not been assigned to any blueprint. The device configuration at this point is called Pristine Config. To make the device ready for use in a blueprint, you need to acknowledge the device, which is a manual action that confirms the device identity and ownership. Acknowledging the device changes its status to Out of Service Ready (OOS- READY).

NEW QUESTION # 58

Referring to the exhibit, what needs to change in the IP fabric to make it a valid IP fabric?

□

- A. The connection between the two spine nodes must be increased to 40 Gbps.
- **B. The connection between the two spine nodes must be removed.**
- C. The IP fabric connections must be increased to a speed greater than 10 Gbps.
- D. The IP fabric must consist of only one device model throughout the fabric.

Answer: B

Explanation:

To make the IP fabric a valid IP fabric, the connection between the two spine nodes must be removed. This is because an IP fabric is a network topology that uses a spine-leaf architecture, where the spine devices are only connected to the leaf devices, and the leaf devices are only connected to the spine devices. This creates a non-blocking, high-performance, and scalable network that supports Layer 3 routing protocols such as BGP or OSPF. The connection between the two spine nodes in the exhibit violates the spine-leaf design principle and introduces unnecessary complexity and potential loops in the network.

NEW QUESTION # 59

How does Apstra use Fabric Device Management to ensure consistency across the network?

- A. By adjusting the color-coding of cables in the data center
- **B. By enforcing uniform configurations on all network devices**
- C. By assigning different agents to devices based on their location
- D. By randomly assigning system IDs to devices

Answer: B

NEW QUESTION # 60

.....

If you can own the certification means that you can do the job well in the area so you can get easy and quick promotion. The latest JN0-481 quiz torrent can directly lead you to the success of your career. Our materials can simulate real operation exam atmosphere and simulate exams. The download and install set no limits for the amount of the computers and the persons who use JN0-481 Test Prep. The JN0-481 test prep mainly help our clients pass the JN0-481 exam and gain the certification. The certification can bring great benefits to the clients. The clients can enter in the big companies and earn the high salary. You may double the salary after you pass the JN0-481 exam.

Valid JN0-481 Test Prep: <https://www.examstorrent.com/JN0-481-exam-dumps-torrent.html>

Juniper New JN0-481 Test Pattern So it is necessary to make yourself with more skills, Although Juniper certification JN0-481 exam is difficult, through doing ExamsTorrent's exercises you will be very confident for the exam, Juniper New JN0-481 Test Pattern Every user cherishes the precious time, seize this rare opportunity, they redouble their efforts to learn, when others are struggling, why do you have any reason to relax, This is the reason why we need to recognize the importance of getting our JN0-481 quiz torrent.

Toward a Normative Model, If you use surge protectors with New JN0-481 Test Pattern these features, you will minimize power problems, So it is necessary to make yourself with more skills.

Although Juniper Certification JN0-481 Exam is difficult, through doing ExamsTorrent's exercises you will be very confident for the exam, Every user cherishes the precious time, seize this rare opportunity, JN0-481 they redouble their efforts to learn, when others are struggling, why do you have any reason to relax?

ExamsTorrent Juniper JN0-481 Dumps PDF Preparation Material is Available

This is the reason why we need to recognize the importance of getting our JN0-481 quiz torrent, We guarantee that all candidates can pass the exam with our JN0-481 test engine materials, 100%.
