C_TS410_2022 Updated Dumps & Simulated C_TS410_2022 Test

As is known to us, our company has promised that the C_TS410_2022 exam braindumps from our company will provide more than 99% pass guarantee for all people who try their best to prepare for the exam. If you are preparing for the exam by the guidance of the C_TS410_2022 study practice question from our company and take it into consideration seriously, you will absolutely pass the exam and get the related certification. So do not hesitate and hurry to buy our study materials.

SAP Certified Application Associate - Business Process Integration with SAP S/4HANA Sample Questions (Q46-Q51):

NEW QUESTION # 46

Which of the following is a permitted hierarchical structure for Management Accounting in the SAP S/4HANA enterprise structure?

- A. An operating concern is assigned to a controlling area.
- B. An operating concern is assigned to a company code.
- C. A controlling area is assigned to an operating concern.
- D. A controlling area is assigned to a plant.

Answer: C

Explanation:

In the SAP S/4HANA enterprise structure, the permitted hierarchical structure for Management Accounting involves assigning a Controlling Area to an Operating Concern (B). This structure allows for the integration of detailed cost accounting data (from the Controlling Area) with the broad, market-oriented data captured in the Operating Concern, which is used for profitability analysis

(CO-PA).

- * Assigning a controlling area to a plant (A) is not accurate because plants are assigned to company codes, and controlling areas can encompass multiple company codes.
- * An operating concern being assigned to a company code (C) is not correct because the operating concern is a higher-level organizational unit that can encompass multiple company codes for profitability analysis.
- * An operating concern being assigned to a controlling area (D) is also incorrect because the relationship flows the other way: controlling areas are assigned to operating concerns.

NEW QUESTION # 47

What type of document is generated for an external network activity?

- A. Reservation
- B. Production order
- C. Sales order
- D. Purchase requisition

Answer: D

Explanation:

For an external network activity, the document that is typically generated is a Purchase Requisition (D). External network activities involve services or materials that are procured from outside the company. A purchase requisition is the first step in the procurement process, signaling the need to procure goods or services from external suppliers to fulfill the requirements of the project or network activity.

A Production Order (A) is used in manufacturing processes to produce a specific quantity of products.

A Sales Order (B) represents an order placed by a customer for the supply of goods or services.

A Reservation (C) is used in inventory management to earmark materials for a particular purpose but is not directly linked to external procurement for network activities.

NEW QUESTION # 48

What is the purpose of using a Work Breakdown Structure (WBS)? Note: There are 3 correct answers to this question

- A. To define responsibilities
- B. To evaluate aggregated data
- C. To manage equipment
- D. To allocate budgets
- E. To schedule warehouse tasks

Answer: A,B,D

Explanation:

The Work Breakdown Structure (WBS) in project management is used for several purposes, including:

- * To evaluate aggregated data (A): WBS allows for the aggregation and analysis of project data at various levels, facilitating project monitoring and control.
- * To allocate budgets (D): Budgets are allocated to different elements of the WBS, enabling detailed financial planning and control at each level of the project.
- * To define responsibilities (E): WBS elements are associated with specific responsibilities, clarifying the roles and accountability within the project team.
- * To schedule warehouse tasks (B) is not a function of the WBS; warehouse tasks are managed through logistics and supply chain management systems.
- * To manage equipment (C) is also not a direct function of the WBS; equipment management is typically handled through asset management or maintenance systems.

NEW QUESTION # 49

What is the result of posting a vendor's invoice?

- A. The material ledger document is generated.
- B. Vendor payment is posted.

- C. The purchase order history is updated.
- D. The vendor's account is cleared of open items.

Answer: C

NEW QUESTION # 50

Why would you enter your working hours using cross application time sheet (CATS)? Note: There are 3 correct answers to this question.

- A. To maintain absence
- B. To record overtime
- C. To confirm activities
- D. To request absence
- E. To plan time

Answer: B,C,D

NEW QUESTION # 51

.....
