## Best PRINCE2 PRINCE2 Practitioner Test Pass4sure Professionally Researched by PRINCE2 Certified Trainers

Up to now we classify our PRINCE2 Practitioner exam questions as three different versions. They are pdf, software and the most convenient one APP online. Though the content of these three versions is the same, but their displays are different. Each of them has their respective feature and advantage including new information that you need to know to pass the PRINCE2 Practitioner test. So you can choose the version of PRINCE2 Practitioner training quiz according to your personal preference.

### PRINCE2 Practitioner Exam Sample Questions (Q66-Q71):

#### NEW QUESTION # 66

During previous projects, stakeholders became confused when using a number of separate project registers.

Therefore, when preparing the risk management approach, the project manager created a risk register template and added it to an

integrated project register. This register is a spreadsheet that includes project assumptions, issues, dependencies, and now risks, on separate pages.

Is this appropriate for a risk register, and why?

- A. No, because assumptions and dependencies are sources of risk.
- B. Yes, because the project registers should be tailored to meet the needs of the organization.
- **C. No, because an integrated project register should include the quality register as well.**
- D. Yes, because risks are often identified as a result of issues being raised.

**Answer: C**

Explanation:

### NEW QUESTION # 67

In order for ABC Company to achieve the expected sales of the health and safety training course, the senior user will need to ensure that all staff understand the objectives and target audience for the course. In addition, these sales will need to be added to each individual's sales targets. These activities have been included in the benefits management approach.

Is this appropriate, and why?

- A. Yes, because the actions required to achieve the outcomes need to be documented.
- **B. Yes, because how the benefits will be measured needs to be documented.**
- C. No, because actions to deliver the outputs should be recorded in the stage plan.
- D. No, because the expected sales increase should be recorded in the business case.

**Answer: B**

### NEW QUESTION # 68

The project is in stage 3. The BuildyBrick construction teams are unsure about using the required environmentally friendly concrete technique. As the team has not used the technique before, the work could take longer than originally planned. The Regeneration Manager has arranged a visit to another site where the technique is being used.

Which principle is being applied, and why?

- A. Learn from experience, because lessons should only be reviewed at project start
- B. Manage by exception, because work package time tolerance may be exceeded
- C. Manage by exception, because the CEO should resolve the concern
- **D. Learn from experience, because a field trip provides an opportunity to learn from others**

**Answer: D**

Explanation:

PRINCE2's learn from experience principle requires that lessons are sought, recorded, and applied throughout the project lifecycle. PRINCE2 explicitly states that projects should "seek lessons from previous projects and from current experiences" and apply them proactively to improve outcomes.

In this scenario, the construction team lacks experience with a specialist technique. Instead of proceeding blindly, the Regeneration Manager arranges a visit to another site where the technique is already in use. This is a textbook example of learning from external experience and applying proven practices to reduce risk, uncertainty, and inefficiency.

Option A correctly reflects this principle. Option B is incorrect because PRINCE2 clearly states that lessons are not limited to the start of the project; they must be sought continuously. Options C and D incorrectly invoke manage by exception, which applies when tolerances are forecast to be exceeded- not when proactively reducing risk through learning.

### NEW QUESTION # 69

Scenario

Extract from the Project Product Description (with errors)

<b>Composition</b>	1. Monthly calendar displays 2. 100gsm glossy paper 3. Full colour 4. Selected envelope 5. Chosen label design 6. List of customers 7. Selected photos 8. Photo session schedule
<b>Derivation</b>	9. New company logo design 10. Previous calendar designs 11. Internal creative team 12. Production cost forecast
<b>Development skills required</b>	13. Photographer 14. Internal creative team 15. Printer
<b>Customer's quality expectations</b>	16. Professional photos 17. 10% more calendars should be printed than required to allow for any late additions to the list of customers 18. Compliance with applicable corporate standards 19. The calendar should reflect the company image as described in the corporate branding standards 20. The calendar will increase orders by at least 10% with a minimum of 10 further orders from the list of prospective customers within 12 months
<b>Acceptance criteria</b>	21. Appearance - each photo should be sufficiently attractive and humorous that the customer wants to display it 22. Appearance - new company logo promotes strong image 23. Security - complies with Data Protection Act 24. Accuracy - public holidays match the list supplied by Marketing on 01 November

Which 2 statements apply to the Derivation section?

- A. Move entry 9 to Composition because this is within the scope of the project.
- B. Add 'Professional photographer'.
- C. Delete entry 11 as this is already correctly shown under Development Skills required.
- D. Move entry 12 to Composition, because this is within the scope of this project.
- E. Delete entry 10 because this is NOT a source product for this project.

**Answer: C,D**

#### NEW QUESTION # 70

The 'capability to provide health and safety training' has been delivered. During the 'closing a project' process, the marketing department sent an e-mail to all key customers reminding them of the deadline to comply with the new government legislation, with an aim to build relationships with their customers.

Which theme is being applied?

- A. Organization.
- B. Plans.
- C. Risk.
- D. Change.

**Answer: A**
