But we can claim that our XSOAR-Engineer practice engine is high-effective, as long as you study for 20 to 30 hours, you will be able to pass the exam.

Palo Alto Networks XSOAR Engineer Sample Questions (Q142-Q147):

NEW QUESTION # 142

An engineer would like to change an incident's SLA according to the severity field changes. How can the engineer achieve this task?

- A. Change the SLA manually every time the severity changes
- B. Use a field display script
- C. Use a field trigger script
- D. Create a job that queries for incident severity changes

Answer: C

Explanation:

Reference: <https://xsoar.pan.dev/docs/incidents/incident-fields>

NEW QUESTION # 143

What is the default configuration for indicator auto-extraction when incidents are created?

- A. Out of band
- B. None
- C. Inline
- D. Inband

Answer: C

NEW QUESTION # 144

Which three statements are true about the Marketplace? (Choose three.)

- A. Offers granularity in installation through content packs
- B. Publishes content without additional review from the Cortex XSOAR team
- C. Allows reverting back to a previous version of a content pack
- D. Enables users to participate in the community by sharing content
- E. Allows uploading of content in additional languages

Answer: A,C,D

NEW QUESTION # 145

What is the primary effect on a new file hash when it is added to the indicator exclusion list?.

- A. It is extracted and stored, but an "exclusion" tag is added, requiring manual review before it can affect any incidents.
- B. It is not extracted, enriched, or given a new verdict.
- C. It is excluded from intelligence feeds that have a reliability score lower than "B - Usually reliable".
- D. It is processed normally by enrichment automations, but the verdict is set to "benign".

Answer: B

Explanation:

The Indicator Exclusion List feature in XSOAR is designed to prevent certain IOCs (file hashes, IPs, domains, etc.) from being processed by the platform. The Admin Guide explains that once an indicator is added to the exclusion list, XSOAR does not extract, enrich, score, or apply verdicts to that indicator during ingestion or field-change extraction. This ensures that benign internal hashes, test indicators, or noisy artifacts do not trigger incidents, enrichments, or correlation rules.

Option B does not reflect platform behavior-XSOAR does not create exclusion tags requiring manual review; instead, it completely bypasses extraction and enrichment. Option C is incorrect because excluded indicators do not undergo enrichment or verdict assignment at all. Option D incorrectly suggests that exclusion depends on feed reliability; the exclusion list applies globally and unconditionally.

Therefore, the correct interpretation per the documentation is that excluded indicators are never extracted or processed, aligning precisely with option A.

NEW QUESTION # 146

Which playbook will a job run by default?

- A. The playbook assigned to the indicator type
- B. The playbook assigned to the incident type
- C. The playbook assigned during pre-processing
- D. The playbook assigned by the integration

Answer: B

NEW QUESTION # 147

.....

Our latest XSOAR-Engineer exam dump is comprehensive, covering all the learning content you need to pass the qualifying exams. Users with qualifying exams can easily access our web site, get their favorite latest XSOAR-Engineer study guide, and before downloading the data, users can also make a free demo for an accurate choice. Users can easily pass the exam by learning our XSOAR-Engineer practice materials, and can learn some new knowledge, is the so-called live to learn old. Believe in yourself, choosing the XSOAR-Engineer Study Guide is the wisest decision. So far, the XSOAR-Engineer practice materials have almost covered all the official test of useful materials, before our products on the Internet, all the study materials are subject to rigorous expert review, so you do not have to worry about quality problems of our latest XSOAR-Engineer exam dump, focus on the review pass the qualification exam. I believe that through these careful preparation, you will be able to pass the exam.
