Features of VMware 2V0-32.24 Web-Based Practice Test Software

2025 Latest ValidExam 2V0-32.24 PDF Dumps and 2V0-32.24 Exam Engine Free Share: https://drive.google.com/open?id=11bT5M0DvjrH669koco-4jsJHnI0FLG-2

Over the past few years, we have gathered hundreds of industry experts, defeated countless difficulties, and finally formed a complete learning product - 2V0-32.24 Test Answers, which are tailor-made for students who want to obtain VMware certificates. Our customer service is available 24 hours a day. You can contact us by email or online at any time. In addition, all customer information for purchasing VMware Cloud Operations 8.x Professional V2 test torrent will be kept strictly confidential. We will not disclose your privacy to any third party, nor will it be used for profit.

VMware 2V0-32.24 Exam Syllabus Topics:

Topic	Details
Topic 1	• Planning and Designing: This section of the exam measures the skills of Cloud Architects and covers the architectural models and sizing requirements for vRealize Operations and vRealize Log Insight. It evaluates the ability to choose between standalone, clustered, and high-availability setups, and to plan appropriately based on scenario-based requirements for capacity and deployment type, ensuring well-designed cloud solutions.

Topic 2	• VMware Products and Solutions: This section of the exam measures the skills of Cloud Engineers and covers the components, integrations, and use cases for various VMware Cloud Management solutions. It includes tools like vRealize True Visibility Suite, Skyline, Federated Analytics, vRealize AI Cloud, and Log Insight Cloud. Candidates also explore deployment tools such as Remote Collectors and Cloud Proxies to understand their role in scalable cloud operations.
Topic 3	• Troubleshooting and Repairing: This section of the exam measures skills of Support Engineers and covers the diagnosis and resolution of common performance and configuration issues in vRealize Operations, Log Insight, and Lifecycle Manager. It also includes cluster management options, log bundle generation, password handling, and changing authentication settings, equipping professionals to ensure system reliability.
Topic 4	• Administrative and Operational Tasks: This section of the exam measures skills of Cloud Administrators and covers daily operational tasks such as content and environment management in vRealize Suite Lifecycle Manager. It also includes managing licensing, alert systems, dashboards, metrics, cost assessments, capacity optimization, workload planning, and system monitoring. Additionally, it explores access control, patching, and retention settings in vRealize Log Insight, ensuring ongoing operational excellence across VMware tools.
Topic 5	• Architecture and Technologies: This section of the exam measures the skills of Cloud Architects and covers the core differences between VMware Cloud Management offerings, focusing on SaaS versus on-premises deployments. It introduces the capabilities of vRealize Suite Lifecycle Manager, vRealize Operations, and vRealize Log Insight, helping professionals understand the foundational technologies that support VMware's cloud ecosystem.

2V0-32.24 Valid Exam Online & 2V0-32.24 Valid Dumps

If you are worried that it is not easy to obtain the certification of 2V0-32.24. Our 2V0-32.24 study questions can meet your needs. Once you use our 2V0-32.24 exam materials, you don't have to worry about consuming too much time, because high efficiency is our great advantage. You only need to spend 20 to 30 hours on practicing and consolidating of our 2V0-32.24 learning material, you will have a good result. After years of development practice, our 2V0-32.24 test torrent is absolutely the best. You will embrace a better future if you choose our 2V0-32.24 exam materials.

VMware Cloud Operations 8.x Professional V2 Sample Questions (Q59-Q64):

NEW QUESTION # 59
Which three features are available in vRealize Log Insight? (Choose three.)

- A. Management Pack Marketplace
- B. Event Forwarding
- C. Use of Remote Collectors
- D. Machine Learning Analytics
- E. Application Discovery Dashboard
- F. Interactive Analytics

Answer: B,C,F

Explanation:
Interactive Analytics: vRealize Log Insight provides an interactive analytics interface that allows users to search, query, and visualize log data in real time.
Use of Remote Collectors: Remote Collectors in vRealize Log Insight allow logs to be collected from remote locations and forwarded to the central vRLI instance for processing.
Event Forwarding: vRealize Log Insight supports event forwarding, enabling the forwarding of log data to other systems or central servers, which helps with centralized log management.

NEW QUESTION # 60
An administrator has been tasked with analyzing the impact of deploying a new application. The current infrastructure is using an external storage array.
What vRealize Operations What-If Analysis should the administrator perform to get this information?

- A. Infrastructure Planning: Traditional
- B. Workload Planning: Traditional
- C. Workload Planning: Hyperconverged
- D. Infrastructure Planning: Hyperconverged

Answer: B

Explanation:
To analyze the impact of deploying a new application in an environment using an external storage array, the administrator should perform a Workload Planning: Traditional analysis in vRealize Operations. This type of analysis focuses on traditional infrastructure, which includes external storage arrays and other non- hyperconverged components. It allows for evaluating how the new application might affect resources such as CPU, memory, and storage, while considering the traditional setup of the infrastructure.

NEW QUESTION # 61
An administrator has been tasked to deploy vRealize Operations. The corporate policy states that DHCP should be used whenever supported.
Which two types of node support DHCP? (Choose two.)

- A. Primary Node
- B. Data Node
- C. Remote Collector
- D. Worker Node
- E. Replica Node

Answer: B,C

Explanation:
Remote Collector: These nodes can use DHCP to obtain their IP addresses, which is useful in environments where static IPs are not preferred for non-primary infrastructure.
Data Node: Data nodes can also be configured with DHCP, simplifying IP management in large deployments.

NEW QUESTION # 62
An administrator has been tasked with creating an identically configured deployment of the production vRealize Operations cluster that is currently managed by vRealize Suite Lifecycle Manager (vRSLCM).
Which four steps should the administrator complete to meet this objective? (Choose four.)

- A. Update the JSON file to replace any configuration details
- B. Export the configuration for the Production vRSLCM Environment
- C. Create a new vRSLCM Environment using the JSON Configuration file
- D. Create new locker SSL certificates for the new deployment
- E. Create a new vRSLCM Environment using the YAML Configuration file
- F. Update the YAML file to replace any configuration details
- G. Create new locker SSL certificates and passwords for the new deployment

Answer: A,B,C,F

Explanation:
Update the YAML file to replace any configuration details: The configuration details for the production vRealize Operations cluster will need to be reflected in the YAML file, which contains setup details for replication.
Create a new vRSLCM Environment using the JSON Configuration file: The environment configuration for the new deployment can be created using the exported JSON configuration file.
Update the JSON file to replace any configuration details: The exported JSON configuration file needs to be modified to ensure that it points to the new environment setup (e.g., IP addresses, FQDNs).
Export the configuration for the Production vRSLCM Environment: Exporting the existing production configuration is the first step in

creating a new, identically configured deployment of vRealize Operations.

NEW QUESTION # 63

What is the purpose of using Collector Groups in vRealize Operations?

- A. Expand vRealize Operations cluster capacity by adding more data storage and compute power.
- B. Achieve adapter resiliency when the remote collector experiences network interruption or becomes unavailable.
- C. Collect and upload environment data to VMware for customer experience improvement.
- D. Achieve adapter load distribution by distributing the number of monitored objects across different remote collectors.

Answer: D

Explanation:
Collector Groups in vRealize Operations are used to distribute the load of monitored objects across different remote collectors. This helps balance the workload and ensures that no single collector becomes overwhelmed. By distributing the monitoring tasks, Collector Groups improve performance, scalability, and overall efficiency in large environments.

NEW QUESTION # 64

......

ValidExam always provides customer support for the convenience of desktop VMware 2V0-32.24 practice test software users. The VMware 2V0-32.24 certification provides both novices and experts with a fantastic opportunity to show off their knowledge of and proficiency in carrying out a particular task. You can benefit from a number of additional benefits after completing the VMware 2V0-32.24 Certification Exam.
