

# Exam Sample 300-425 Online, 300-425 Real Braindumps

P.S. Free 2026 Cisco 300-425 dumps are available on Google Drive shared by Dumpcollection: <https://drive.google.com/open?id=10CFpZ8ZyiRPfsk-2NpLpiWp1IA6RpFj>

We try to meet different requirements by setting different versions of our 300-425 question dumps. The first one is online 300-425 engine version. As an online tool, it is convenient and easy to study, supports all Web Browsers and system including Windows, Mac, Android, iOS and so on. You can practice online anytime and check your test history and performance review, which will do help to your study. The second is 300-425 Desktop Test Engine. As an installable 300-425 software application, it simulated the real 300-425 exam environment, and builds 200-125 exam confidence. The third one is Practice PDF version. PDF Version is easy to read and print. So you can study anywhere, anytime.

**Having this certificate validates your ability to investigate and execute both WAN and LAN networks. Also, you will be seen as a person who has what it takes to team up with the authorities on the issues identified with voice, wireless, video solutions, and advanced security. The individuals who hold Cisco CCNP Enterprise have a range of capabilities that are usually required in big and established businesses. Among the positions, which you will qualify to apply for after obtaining this certification, are the following:**

- Systems Engineer;
- Network Director;
- Network Analyst;
- Network Specialist.
- Network Technician;
- Network Investigator;
- Network Security Experts;

With this professional-level certification under your belt, you will have more job opportunities and you can count on a high salary. From the PayScale figures, the average annual salary for a Network Administrator who is certified with CCNP Enterprise is \$59,762. It usually starts at \$49,485 and ranges up to \$70,644 as seniority increases. The salary is usually highly dependent on the position. For example, a Network Engineer earns an average of \$74,191.

## Pass Guaranteed Quiz 300-425 - Pass-Sure Exam Sample Designing Cisco Enterprise Wireless Networks Online

Our 300-425 learning guide is for the world and users are very extensive. In order to give users a better experience, we have been

constantly improving. The high quality and efficiency of 300-425 test guide has been recognized by users. The high passing rate of 300-425 Exam Training is its biggest feature. As long as you use 300-425 test guide, you can certainly harvest what you want thing.

Cisco 300-425 exam is an excellent opportunity for network engineers and IT professionals to demonstrate their expertise in designing and deploying enterprise wireless networks using Cisco technologies. Passing 300-425 Exam can help them advance their careers and open up new opportunities in the field of wireless networking.

## Cisco Designing Cisco Enterprise Wireless Networks Sample Questions (Q187-Q192):

### NEW QUESTION # 187

An engineer working for an enterprise deployed multiple Cisco WLCs. A controller that sits in the R&D division is connected through a firewall and is part of the same mobility group. The engineer must ensure that the mobility tunneling is available through the firewall and test it as R&D engineers roam the production floor within their department. How is this requirement met?

- A. mping on UDP port 16667 and eping on Protocol 97 between management ports
- B. mping on UDP port 16666 and eping on Protocol 97 between management ports
- C. mping on UDP port 16667 and eping on Protocol 96 between management ports
- D. mping on UDP port 16666 and eping on Protocol 96 between management ports

**Answer: B**

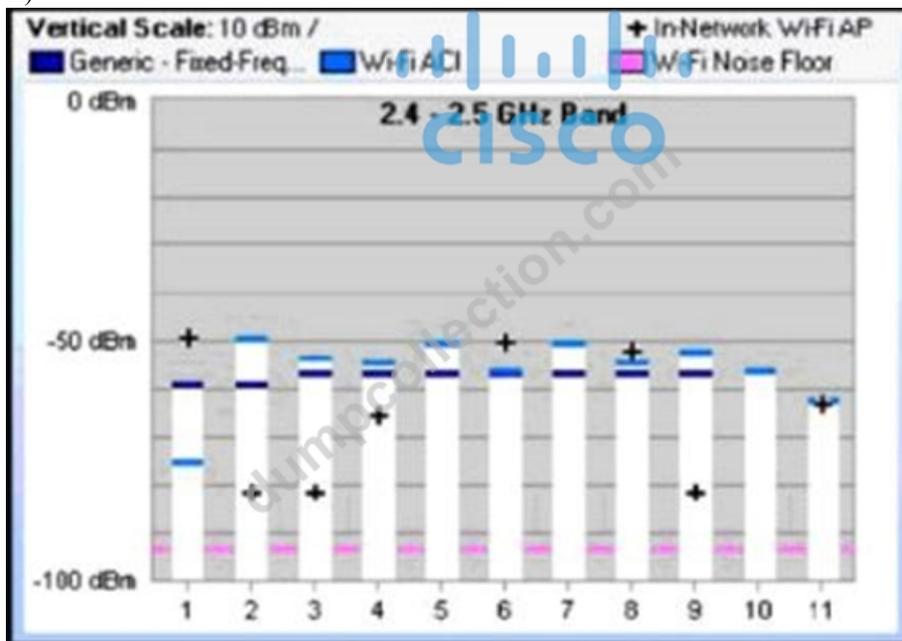

Explanation:

For mobility tunneling through a firewall in a Cisco wireless network environment, UDP port 16666 must be open along with IP Protocol number '97', which is used for Encapsulating Security Payload (ESP) traffic typically found in IPsec tunnels. By ensuring these ports are mapped correctly through the firewall, R&D engineers can roam within their department while maintaining a secure mobility tunnel.

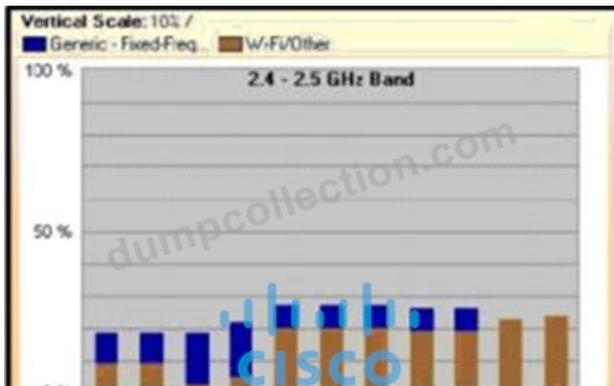

### NEW QUESTION # 188

An engineer as performing a Layer 1 passive wireless site survey utilizing a channel analyzer software in the 2.4 GHz spectrum. Which chart indicates the ratio of interference present during the duration of the capture?

A)

B)

C)

- A. Option C
- B. Option D
- C. Option A
- D. Option B

Answer: A

#### NEW QUESTION # 189

A network administrator of a global organization is collapsing all controllers to a single cluster located in central Europe. Which concern must be addressed?

- A. Different RF policies per office are not available in this configuration.
- B. Centralized controllers cannot uniformly authenticate global users.
- C. Some channels may not be available consistently across the organization.
- D. Syslog must be configured to the time-zone of the NMS platform

Answer: D

Explanation:

Explanation

#### NEW QUESTION # 190

A network engineer is designing a new wireless network for a campus. The network must include these requirements:

- optimized performance
- avoid interference
- availability in high-density areas
- roaming

Which two approaches must be taken? (Choose two.)

- A. 5 GHz frequency band with 40 MHz channels
- B. 5 GHz frequency band with 20 MHz channels
- C. 5 GHz frequency band with 80 MHz channels
