

1Z0-1072-25 Exam Assessment, 1Z0-1072-25 Exam Details

P.S. Free & New 1Z0-1072-25 dumps are available on Google Drive shared by TestKingFree: https://drive.google.com/open?id=15qMopuh5BqVq4UOyFTXlh97uL1Tgn0_H

The Practice Exam software is specially made for the students so they can feel real-based examination scenarios and feel some pressure on their brains and don't feel excessive issues while giving the final Oracle exam. There are a lot of customers that are currently using Oracle Cloud Infrastructure 2025 Architect Associate (1Z0-1072-25) and are satisfied with it. TestKingFree has designed this product after getting positive feedback from professionals and is rated one of the best study materials for the preparation of the Oracle 1Z0-1072-25 exam.

1Z0-1072-25 exam dumps are valid and we have helped lots of candidates pass the exam successfully, and they send the thankful letter to us. 1Z0-1072-25 exam materials are edited and verified by professional experts, and they possess the professional knowledge for the exam, therefore you can use them at ease. In addition, we offer you free update for one, so you don't have to spend extra money on update version. We have online and offline chat service, and they possess the professional knowledge for 1Z0-1072-25 Exam Braindumps, if you have any questions, you can consult us, we are glad to help you.

1Z0-1072-25 Exam Details, New 1Z0-1072-25 Braindumps Files

You can take the online Oracle 1Z0-1072-25 practice exam multiple times. At the end of each attempt, you will get your progress report. By analyzing this report you can eliminate and overcome your mistakes. Oracle 1Z0-1072-25 real dumps increase your chances of passing the 1Z0-1072-25 certification exam. A huge number of professionals got successful by using TestKingFree 1Z0-1072-25 practice test material. In case you don't pass the Oracle Cloud Infrastructure 2025 Architect Associate, 1Z0-1072-25 test after using Oracle 1Z0-1072-25 pdf questions and practice tests, you can claim your refund. You can download a free demo of any 1Z0-1072-25 exam dumps format and check the features before buying. Start Oracle 1Z0-1072-25 test preparation today and obtain the highest marks in the actual 1Z0-1072-25 exam.

Oracle 1Z0-1072-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Identity and Access Management (IAM): This domain validates skills of security architects implementing granular access controls, emphasizing IAM policy creation, compartment organization, and dynamic group configuration. It covers identity domain management, network source restrictions, and tag-based access mechanisms to enforce least-privilege principles across OCI resources
Topic 2	<ul style="list-style-type: none">Storage: Designed for storage administrators managing enterprise data solutions, this section tests proficiency in deploying BlockFileObject Storage with lifecycle management, cross-region replication, and tiered storage strategies. It includes configuring volume groups, snapshots, versioning, and security controls while analyzing storage performance metrics and cost optimization techniques.
Topic 3	<ul style="list-style-type: none">Networking: Targeting network architects designing secure cloud architectures, this domain focuses on Virtual Cloud Network (VCN) implementation, including subnet design, IP address management, and routing through gateways (NAT, service, internet). It assesses expertise in VPNFastConnect deployment, DNS configuration, load balancer setup, and advanced tools like Network Path Analyzer for troubleshooting latency or connectivity issues.
Topic 4	<ul style="list-style-type: none">Compute: This section measures skills of cloud architects responsible for designing scalable and resilient infrastructure, covering compute instance configuration, autoscaling policies, and OS management. It evaluates understanding of OCI compute image options, infrastructure maintenance processes, and strategies for optimizing instance performance across availability domains.

Oracle Cloud Infrastructure 2025 Architect Associate Sample Questions (Q41-Q46):

NEW QUESTION # 41

Which is NOT a necessary step to complete this setup for instance principals?

- A. Generate Auth Tokens to enable instances in the dynamic group to authenticate with APIs.
- B. Create a policy granting permissions to the dynamic group to access services in your compartment or tenancy.
- C. Deploy the application and the SDK to all the instances that belong to the dynamic group.
- D. Create a dynamic group with matching rules to specify which instances can make API calls against services.

Answer: A

Explanation:

Instance principals in OCI allow compute instances to directly make API calls against OCI services without requiring a user account. To set up instance principals, the following steps are necessary:

- A . Deploy the application and SDK: The application running on the instances must use the OCI SDK or CLI to make API calls.
- B . Create a dynamic group: Define a dynamic group with matching rules to identify which instances can use the API permissions.
- C . Create a policy: Write an IAM policy that grants the dynamic group the necessary permissions to access services.

Option D is NOT necessary because instances in a dynamic group use instance principals to authenticate and do not require Auth Tokens, which are used for user authentication with APIs.

NEW QUESTION # 42

Which TWO statements about the Oracle Cloud Infrastructure (OCI) File Storage Service are accurate?

- A. Customers can encrypt the communication to a mount target via export options.
- B. File systems use Oracle-managed keys by default.
- C. Customers can encrypt data in their file system using their own Vault encryption key.
- D. Communication with file systems in a mount target is encrypted via HTTPS.

Answer: B,C

Explanation:

Oracle Cloud Infrastructure (OCI) File Storage Service offers robust encryption capabilities to ensure data security.

B . Customer-Managed Encryption: Customers can choose to encrypt their data using their own keys stored in the OCI Vault service. This gives customers control over their encryption keys and enhances data security.

D . Oracle-Managed Encryption: By default, all data stored in OCI File Storage is encrypted using Oracle-managed keys. This ensures that data is encrypted at rest without requiring any action from the customer.

Incorrect Statements:

A . Communication is not encrypted via HTTPS when accessing file systems; instead, encryption in transit is typically managed via NFS over TLS.

C . Encryption of communication to a mount target is handled via network configurations, not through export options.

Oracle Cloud Infrastructure Documentation: File Storage Encryption

NEW QUESTION # 43

Which is NOT a valid action within the Oracle Cloud Infrastructure (OCI) Block Volume service?

- A. Cloning an existing volume to a new, larger volume.
- B. Expanding an existing volume in place with offline resizing.
- C. Restoring from a volume backup to a larger volume.
- D. Attaching a block volume to an instance in a different availability domain.

Answer: D

Explanation:

In Oracle Cloud Infrastructure (OCI), block volumes are designed to be highly flexible and can be used in various ways:

A . Restoring from a volume backup to a larger volume: This is supported and allows for resizing during the restoration process.

B . Cloning an existing volume to a new, larger volume: You can clone a block volume and specify a larger size for the new volume.

C . Expanding an existing volume in place with offline resizing: OCI allows you to increase the size of an existing block volume without needing to take it offline.

Option D is NOT valid because block volumes can only be attached to compute instances within the same availability domain.

Cross-availability domain attachment of block volumes is not supported directly.

Oracle Cloud Infrastructure Documentation: Block Volume Overview

NEW QUESTION # 44

How can OCI IAM be configured to facilitate cross-region access?

- A. The administrator can grant users permissions to access specific resources in the other region.
- B. Identity domain replication must be enabled.
- C. Users can access resources in all regions by default.
- D. The identity domain automatically replicates to the other region.

Answer: A

Explanation:

In Oracle Cloud Infrastructure (OCI), cross-region access is facilitated by configuring IAM policies that grant users or groups permissions to access resources in other regions. IAM policies in OCI are global, meaning they apply across all regions by default.

However, an administrator can specifically configure these policies to allow or restrict access to resources in different regions. Example: An administrator can write a policy that allows a user to manage compute instances in a specific region by including the region's name in the policy statement.

Reference:

Oracle Cloud Infrastructure Documentation: IAM Policies

NEW QUESTION # 45

How can an organization securely grant a third-party application access to specific OCI resources?

- A. By sharing user credentials for an OCI administrator
- B. By configuring the application to utilize Instance Principal
- C. By implementing OAuth 2.0 with the application
- D. By creating an IAM policy granting full access to the tenancy

Answer: B

Explanation:

To securely grant a third-party application access to specific Oracle Cloud Infrastructure (OCI) resources, the recommended approach is to configure the application to use Instance Principal. This method allows the application to authenticate directly with OCI services without needing to manage sensitive credentials like passwords or API keys.

Instance Principals: Enable compute instances to directly make API calls against OCI services, inheriting permissions through IAM policies. This setup is more secure than sharing user credentials, as it avoids hardcoding credentials within the application and leverages OCI's native security features.

NEW QUESTION # 46

.....

The only aim of our company is to help each customer pass their exam as well as getting the important certification in a short time. If you want to pass your exam and get the 1Z0-1072-25 certification which is crucial for you successfully, I highly recommend that you should choose the 1Z0-1072-25 Study Materials from our company so that you can get a good understanding of the exam that you are going to prepare for.
