Practical New Braindumps 300-620 Book & Guaranteed Cisco 300-620 Exam Success with Useful 300-620 Latest Test Guide
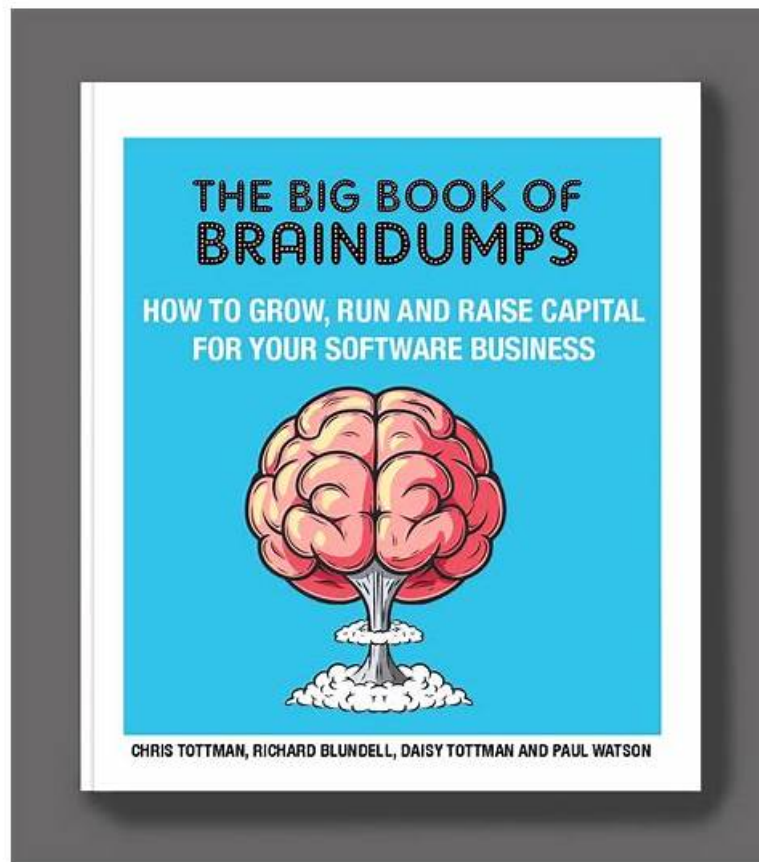

We have installed the most advanced operation system in our company which can assure you the fastest delivery speed, to be specific, you can get immediately our 300-620 training materials only within five to ten minutes after purchase after payment. As soon as you pressed the payment button on our 300-620 Exam Questions, you can study right away if you choose to buy the 300-620 exam practice from us. We aim to leave no misgivings to our customers so that they are able to devote themselves fully to their studies on 300-620 guide materials and they will find no distraction from us.

Cisco 300-620 exam, also known as Implementing Cisco Application Centric Infrastructure (DCACI), is a certification exam designed to test a candidate's knowledge and skills in implementing and managing Cisco's Application Centric Infrastructure (ACI) solutions. ACI is a holistic and policy-driven approach to networking that simplifies the management of modern data center environments. Cisco 300-620 exam is a part of the CCNP Data Center certification track and is intended for network professionals and IT engineers who are responsible for designing, deploying, and managing Cisco ACI solutions.

Want to become a specialist in Cisco Switches? Then, consider taking up the Cisco 300-620 Exam. With a constant focus on skills demanded to use the data center ACI, the test concedes a contestant to stand out of the crowd and step ahead.

Cisco 300-620 Pdf Questions - Outstanding Practice To your Implementing Cisco Application Centric Infrastructure Exam

If you are considering to get help from the exam braindumps for you to pass the exam, you need to get a reliable and authentic valid

300-620 study material, which will help you to pass exams with an ease. But, this is also a must have updated 300-620 exam questions to save you from the tedious task of collecting resources from multiple sources. And at the same time, the 300-620 learning guide must stand the test of the market and can make the customers understood by all over the world. And these are exactly the advantages of our 300-620 practice engine has. Just come and have a try!

Cisco 300-620 certification exam is designed for network professionals, system engineers, and technical architects who are responsible for implementing and managing Cisco ACI solutions. 300-620 exam is ideal for those who have experience with Cisco technologies and have a solid understanding of network protocols, data center architecture, and virtualization. Candidates who are familiar with Cisco Nexus switches, Cisco UCS servers, and VMware virtualization will find 300-620 Exam to be a natural fit.

Cisco Implementing Cisco Application Centric Infrastructure Sample Questions (Q158-Q163):

NEW QUESTION # 158
When configuring Cisco ACI VMM domain integration with VMware vCenter, which object is created in vCenter?

- A. VMware vSphere Standard vSwitch
- B. cluster
- C. VMware vSphere Distributed Switch
- D. datacenter

Answer: C

NEW QUESTION # 159
A network engineer configured a Cisco ACI fabric as follows:
- An EPG called EPG-A is created and associated with a VMM domain called North.
- The EPG-A is associated with BD-A and is in an application profile called Apps-A.
- The BD-A is associated with VRF-1 in the Prod tenant.
Which port group must be selected to place VMs in EPG-A?

- A. Prod|VRF-1|Apps-A|EPG-A
- B. Prod|Business_Apps|BD-A|EPG-A
- C. Prod|Apps-A|EPG-A
- D. Prod|Apps-A|North|EPG-A

Answer: C

Explanation:
The port group name is a concatenation of the tenant name, the application profile name, and the EPG name.

NEW QUESTION # 160
A Cisco ACI fabric is integrated with a Cisco ASA firewall using a service graph under the tenant called Operations. The fabric must permit the firewall used on tenant Operations to be referenced by the tenant called Management. Which export action must be used to accomplish this goal?

- A. router configurations
- B. Layer4-Layer7 device
- C. device selection policies
- D. service graph template

Answer: B

Explanation:
L4-L7 device can't be referenced from other tenants. If you want to share an L4-L7 device with other tenants, you need to export the L4-L7 device to other tenants. It will appear as an imported device in the other tenants.

NEW QUESTION # 161

What are two of the three methods in integrating the Cisco ACI with existing network infrastructure? (Choose two.)

- A. as a super cloud overseeing a subcloud
- B. as an additional data center pod
- C. as an atomic network operator
- D. as a data center policy engine
- E. as a network supervisor module

Answer: B,D

NEW QUESTION # 162

What controls communication between EPGs?

- A. Inter-EPG communication is controlled by VXLAN.
- B. Inter-EPG communication is controlled by contracts.
- C. Inter-EPG communication is controlled by BGP.
- D. Inter-EPG communication is controlled by IS-IS.

Answer: D

NEW QUESTION # 163
