ASIS Physical Security Professional Exam Sample Questions (Q165-Q170):

NEW QUESTION # 165

Successful implementation of any physical security construction project hinges largely on a well-defined and executed:

- A. Procurement contract
- B. Request for quotation
- C. Business impact analysis
- D. Cost analysis

Answer: A

Explanation:

A clearly defined and executed procurement contract is critical to successful implementation of a physical security construction project. It outlines scope, deliverables, timelines, cost structures, and responsibilities, ensuring all parties operate with aligned expectations and accountability.

A (RFQ) is a pricing request, not a contract.

B (BIA) informs continuity planning, not project execution.

D (Cost analysis) is useful but not foundational for execution.

NEW QUESTION # 166

In which approach of comparative negligence, the plaintiff may collect something for injuries even if he or she was primarily responsible for the injuries?

- A. 51 percent rule
- B. Pure approach
- C. 50/50 rule
- D. None of the above

Answer: B

NEW QUESTION # 167

Which approach is dealt with terrorists' personalities, their recruitment, and their induction into terrorist organizations, beliefs, attitudes, motivations and careers?

- A. Criminal approach
- B. Violence Approach
- C. Multifactor Approach
- D. Physiological Approach

Answer: C

Explanation:

The multifactor approach examines terrorism through multiple dimensions, including psychological, sociological, ideological, and organizational factors. It analyzes how individuals are recruited, indoctrinated, and motivated within terrorist networks. This is key in understanding the behavioral patterns and lifecycle of a terrorist.

NEW QUESTION # 168

The process of finding the person best qualified for the job in terms of both skills and personal integrity is known as:

- A. Inspection
- **B. Screening**
- C. Recruitment
- D. Vetting

Answer: B

Explanation:

Screening is the process of identifying the most suitable candidates for a job, factoring in both qualifications (skills and experience) and personal integrity. This may involve background checks, interviews, and reference verification to ensure candidates are reliable and trustworthy.

Vetting (C) is often used interchangeably but generally refers more narrowly to background checks.

Recruitment (B) is the broader process of attracting candidates.

Inspection (A) refers to a physical or procedural review, not personnel selection.

NEW QUESTION # 169

What occurs when the person who committed the act was able to foresee that the action would result in certain damages?

- A. Active resister
- B. None of the above
- C. Lack of control
- **D. International tort**

Answer: D

Explanation:

An intentional tort occurs when a person deliberately engages in actions that are likely to cause harm or when the person knowingly performs an act that they can reasonably foresee will result in damage. Examples include assault, battery, false imprisonment, and trespassing.

Active resister (A) and Lack of control (B) are not legal terms related to tort liability.

"International tort" is a misspelling; the correct term is "intentional tort." References:
