

Valid Databricks-Certified-Data-Engineer-Associate Test Topics - Reliable Databricks-Certified-Data-Engineer-Associate Mock Test

Databricks Certification Details

Databricks Certified Data Engineer Associate

 Prior Certification Not Required	 Exam Validity 2 Years	 Exam Fee \$200 USD
 Exam Duration 90 Minutes	 No. of Questions 45 Questions	 Passing Marks 70%
 Recommended Experience Basic coding knowledge in SQL and Python	 Exam Format Multiple choice	
 Languages English		

Through years of persistent efforts and centering on the innovation and the clients-based concept, our company has grown into the flagship among the industry. Our company struggles hard to improve the quality of our Databricks-Certified-Data-Engineer-Associate exam prep and invests a lot of efforts and money into the research and innovation of our Databricks-Certified-Data-Engineer-Associate Study Guide. Our brand fame in the industry is famous for our excellent Databricks-Certified-Data-Engineer-Associate study guide. High quality, considerate service, constant innovation and the concept of customer first on our Databricks-Certified-Data-Engineer-Associate exam questions are the four pillars of our company.

Our Databricks-Certified-Data-Engineer-Associate cram materials will help you gain the success in your career. You can be respected and enjoy the great fame among the industry. When applying for the jobs your resumes will be browsed for many times and paid high attention to. The odds to succeed in the job interview will increase. So you could see the detailed information of our Databricks-Certified-Data-Engineer-Associate Exam Questions before you decide to buy them on our web. Also we have free demo of our Databricks-Certified-Data-Engineer-Associate exam questions for you to try before you make the purchase.

Reliable Databricks-Certified-Data-Engineer-Associate Mock Test & Databricks-Certified-Data-Engineer-Associate Unlimited Exam Practice

All the Databricks-Certified-Data-Engineer-Associate training files of our company are designed by the experts and professors in the field. The quality of our study materials is guaranteed. According to the actual situation of all customers, we will make the suitable study plan for all customers. If you buy the Databricks-Certified-Data-Engineer-Associate Learning Materials from our company, we can promise that you will get the professional training to help you pass your Databricks-Certified-Data-Engineer-Associate exam easily. By our professional training, you will pass your Databricks-Certified-Data-Engineer-Associate exam and get the related certification in the shortest time.

Databricks Certified Data Engineer Associate Exam Sample Questions (Q62-Q67):

NEW QUESTION # 62

The Delta transaction log for the 'students' tables is shown using the 'DESCRIBE HISTORY students' command. A Data Engineer needs to query the table as it existed before the UPDATE operation listed in the log.

	 version	 timestamp	 operation
1	8	2024-04-22T14:33:31.000	OPTIMIZE
2	7	2024-04-22T14:33:16.000	MERGE
3	6	2024-04-22T14:33:06.000	DELETE
4	5	2024-04-22T14:32:58.000	UPDATE
5	4	2024-04-22T14:32:47.000	WRITE
6	3	2024-04-22T14:32:44.000	WRITE
7	2	2024-04-22T14:32:23.000	WRITE
8	1	2024-04-22T14:32:20.000	WRITE
9	0	2024-04-22T14:31:49.000	CREATE TABLE

Which command should the Data Engineer use to achieve this? (Choose two.)

- A. `SELECT * FROM students TIMESTAMP AS OF '2024-04-22T 14:32:47.000+00:00'`
- B. `SELECT * FROM students FROM HISTORY VERSION AS OF 3`
- C. `SELECT * FROM students TIMESTAMP AS OF '2024-04-22T 14:32:58.000+00:00'`
- D. `SELECT * FROM students@v4`
- E. `SELECT * FROM students VERSION AS OF 5`

Answer: A,D

NEW QUESTION # 63

A data engineer has joined an existing project and they see the following query in the project repository:

```
CREATE STREAMING LIVE TABLE loyal_customers AS
```

```
SELECT customer_id -
```

```
FROM STREAM(LIVE.customers)
```

```
WHERE loyalty_level = 'high';
```

Which of the following describes why the STREAM function is included in the query?

- A. The table being created is a live table.
- B. The STREAM function is not needed and will cause an error.
- C. The customers table is a reference to a Structured Streaming query on a PySpark DataFrame.
- D. The data in the customers table has been updated since its last run.
- E. The customers table is a streaming live table.

Answer: E

Explanation:

Explanation

<https://docs.databricks.com/en/sql/load-data-streaming-table.html>

Load data into a streaming table

To create a streaming table from data in cloud object storage, paste the following into the query editor, and then click Run:

SQL

Copy to clipboardCopy

```
/* Load data from a volume */
```

```
CREATE OR REFRESH STREAMING TABLE <table-name> AS
```

```
SELECT * FROM STREAM read_files('/Volumes/<catalog>/<schema>/<volume>/<path>/<folder>')
```

```
/* Load data from an external location */
```

```
CREATE OR REFRESH STREAMING TABLE <table-name> AS
```

```
SELECT * FROM STREAM read_files('s3://<bucket>/<path>/<folder>')
```

NEW QUESTION # 64

A data engineer has created a new database using the following command:

```
CREATE DATABASE IF NOT EXISTS customer360;
```

In which of the following locations will the customer360 database be located?

- A. dbfs:/user/hive/database/customer360
- B. More information is needed to determine the correct response
- C. dbfs:/user/hive/warehouse
- D. dbfs:/user/hive/customer360

Answer: C

Explanation:

dbfs:/user/hive/warehouse Thereby showing "dbfs:/user/hive/warehouse/customer360.db" The location of the customer360 database depends on the value of the spark.sql.warehouse.dir configuration property, which specifies the default location for managed databases and tables. If the property is not set, the default value is dbfs:/user/hive/warehouse. Therefore, the customer360 database will be located in dbfs:/user/hive/warehouse/customer360.db. However, if the property is set to a different value, such as dbfs:/user/hive/database, then the customer360 database will be located in dbfs:/user/hive/database/customer360.db. Thus, more information is needed to determine the correct response.

Option A is not correct, as dbfs:/user/hive/database/customer360 is not the default location for managed databases and tables, unless the spark.sql.warehouse.dir property is explicitly set to dbfs:/user/hive/database.

Option B is not correct, as dbfs:/user/hive/warehouse is the default location for the root directory of managed databases and tables, not for a specific database. The database name should be appended with .db to the directory path, such as dbfs:/user/hive/warehouse/customer360.db.

Option C is not correct, as dbfs:/user/hive/customer360 is not a valid location for a managed database, as it does not follow the directory structure specified by the spark.sql.warehouse.dir property.

NEW QUESTION # 65

A Delta Live Table pipeline includes two datasets defined using STREAMING LIVE TABLE. Three datasets are defined against Delta Lake table sources using LIVE TABLE.

The table is configured to run in Production mode using the Continuous Pipeline Mode.

Assuming previously unprocessed data exists and all definitions are valid, what is the expected outcome after clicking Start to update the pipeline?

- A. All datasets will be updated once and the pipeline will shut down. The compute resources will be terminated.
- B. All datasets will be updated once and the pipeline will persist without any processing. The compute resources will persist but go unused.
- C. All datasets will be updated at set intervals until the pipeline is shut down. The compute resources will persist to allow for additional testing.
- D. All datasets will be updated once and the pipeline will shut down. The compute resources will persist to allow for additional testing.
- E. All datasets will be updated at set intervals until the pipeline is shut down. The compute resources will be deployed for the update and terminated when the pipeline is stopped.

Answer: E

Explanation:

In Production mode, the pipeline runs continuously and updates the output tables whenever new data is available in the input sources. The compute resources are allocated on demand and released when the pipeline is stopped. This mode is suitable for production workloads that require high availability and reliability. NEW QUESTION # 66

A new data engineering team has been assigned to work on a project. The team will need access to database customers in order to see what tables already exist. The team has its own group team.

Which of the following commands can be used to grant the necessary permission on the entire database to the new team?

- A. GRANT CREATE ON DATABASE customers TO team;
- B. GRANT USAGE ON DATABASE customers TO team;
- C. GRANT VIEW ON CATALOG customers TO team;
- D. GRANT USAGE ON CATALOG team TO customers;

Answer: B

NEW QUESTION # 67

.....

Up to now we classify our Databricks-Certified-Data-Engineer-Associate exam questions as three different versions. They are pdf, software and the most convenient one APP online. Though the content of these three versions is the same, but their displays are different. Each of them has their respective feature and advantage including new information that you need to know to pass the Databricks-Certified-Data-Engineer-Associate test. So you can choose the version of Databricks-Certified-Data-Engineer-Associate training quiz according to your personal preference.

Reliable Databricks-Certified-Data-Engineer-Associate Mock Test: <https://www.verifieddumps.com/Databricks-Certified-Data-Engineer-Associate-valid-exam-braindumps.html>

And the pass rate of our Databricks-Certified-Data-Engineer-Associate practice guide is high to 98% to 100%, Databricks Valid Databricks-Certified-Data-Engineer-Associate Test Topics At the same time, there is specific space below every question for you to make notes, It will allow you to assess your current Databricks-Certified-Data-Engineer-Associate test preparation level, Because it is right and reliable, after a long time, VerifiedDumps Reliable Databricks-Certified-Data-Engineer-Associate Mock Test exam dumps are becoming increasingly popular, If you have no time to prepare for Databricks-Certified-Data-Engineer-Associate test exam, you just remember the questions and the answers in the Databricks dumps.

Just to see how it works, go ahead and drag the Temp slider Databricks-Certified-Data-Engineer-Associate to the right, and watch how the photo warms up, Contains a subfolder with the Shockwave Flash ocx file.

And the pass rate of our Databricks-Certified-Data-Engineer-Associate Practice Guide is high to 98% to 100%, At the same time, there is specific space below every question for you to make notes, It will allow you to assess your current Databricks-Certified-Data-Engineer-Associate test preparation level.
