CASPO-001認証試験、CASPO-001ミシユレーション問題

It-PassportsのCASPO-001には何か品質問題があることを見つければ、あるいは試験に合格しなかったのなら、

弊社が無条件で全額返金することを約束します。It-Passportsは専門的にGAQMのCASPO-001試験の最新問題と解答を提供するサイトで、CASPO-001についての知識をほとんどカバーしています。

GAQM Certified Agile Scrum Product Owner (CASPO) 認定 CASPO-001 試験問題 (Q60-Q65):

質問 # 60

A Product Owner is entitled to postpone the start of a new Sprint after the conclusion of a previous Sprint for the following reason: (Choose the best answer)

- A. The stakeholders are not happy with the value produced in the previous Sprint.
- B. The Product Owner has not identified a Sprint Goal.
- C. The QA department needs more time to make the previous Increment "Done".
- D. Not enough Product Backlog items are "Ready".
- **E. There is no acceptable reason. A new Sprint starts immediately after the conclusion of the previous Sprint.**

正解: E

解説:

In Scrum, Sprints are continuous and fixed-length, with no gaps allowed between them. The Scrum Guide explicitly states: "A new Sprint starts immediately after the conclusion of the previous Sprint." This ensures a consistent cadence of delivery and adaptation, a cornerstone of Scrum's empirical process. Let's examine each option:

* A (Not enough "Ready" items): The Product Backlog can be refined incrementally; a lack of "Ready" items doesn't justify delaying a Sprint. The team can start with what's available and refine further during the Sprint.

* B (No Sprint Goal): The Sprint Goal is defined during Sprint Planning, not beforehand. Its absence pre-Sprint isn't a valid delay reason.

* C: This aligns with the Scrum Guide's mandate for immediate succession, making it correct.

* D (QA needs more time): Scrum rejects external dependencies like a separate QA department; the Developers must deliver a "Done" Increment within the Sprint. Delaying contradicts this.

質問 # 61

If the Product Owner is not collaborating with the Developers during the Sprint, what should the Scrum Master do? (Choose the best answer)

- A. Cancel Scrum until a better Product Owner is identified
- B. Escalate to senior management
- **C. Coach the Product Owner on the values and benefits of Scrum and incremental delivery**

正解: C

解説:

The Scrum Master serves the Product Owner by fostering Scrum adoption: "The Scrum Master serves the Product Owner in several ways, including... Helping find techniques for effective Product Goal definition and Product Backlog management." If collaboration is lacking, coaching (C) aligns with this role, emphasizing Scrum's collaborative nature and incremental value delivery.

* A: Escalation bypasses the Scrum Master's responsibility to resolve issues.

質問 # 62

What are the purposes of the Definition of "Done"? (Choose the best two answers)

- **A. Provide transparency**
- B. Ensure unit testing occurs
- C. Document the Sprint Goal
- **D. Help ensure the Increment is releasable**

正解: A、D

解説:

The Definition of "Done" ensures quality and clarity. The Scrum Guide states: "The Definition of Done is a formal description of the state of the Increment when it meets the quality measures required for the product."

- * A:It ensures the Increment is usable/releasable: "In order to provide value, the Increment must be usable."
- * B:It provides transparency by setting a shared standard: "The Definition of Done creates transparency by providing everyone a shared understanding of what work was completed."
- * C:The Sprint Goal is separate, defined in Sprint Planning.

質問 # 63

Must the Product Owner be present at the Sprint Retrospective? (Choose the best answer)

- A. It is optional. Attendance is only required when the Product Owner gets invited by the Scrum Master.
- B. It is not allowed. The Sprint Retrospective is an opportunity for the Scrum Team to inspect itself.
- **C. It is mandatory. The Sprint Retrospective is an opportunity for the Scrum Team to assess its performance and improve itself.**

正解: C

解説:

The Sprint Retrospective involves the entire Scrum Team-Product Owner, Scrum Master, and Developers- to inspect and improve. The Scrum Guide states: "The Scrum Team inspects how the last Sprint went with regards to individuals, interactions, processes, tools, and their Definition of Done." The Product Owner's presence is mandatory because they are part of the team, contributing to discussions on collaboration and process (e.g., backlog refinement).

* A:Optional attendance contradicts the team-wide focus.

* C:Exclusion is incorrect; it's not just for Developers.

質問 # 64

Who assigns ownership of the Sprint Backlog items during the Sprint? (Choose the best answer)

- A. Individual Team Members
- B. Whoever has the skills
- C. The Product Owner
- **D. There is no single owner of a Product Backlog item, the entire team owns the Sprint Backlog**

正解: D

解説:

The Sprint Backlog is collectively owned by the Developers, not assigned to individuals. The Scrum Guide defines it as: "The Sprint Backlog is a plan by and for the Developers... It is a highly visible, real-time picture of the work that the Developers plan to accomplish during the Sprint." Self-organization means the Developers decide who does what, without fixed ownership of items.

* A, B:Individual assignment isn't mandated; it's a team effort.

* C:Correct-the Developers as a whole own it.

質問 # 65
